VIVO MOUNT-KB05E

VIVO Large Keyboard Tray Instruction Manual

Model: MOUNT-KB05E

Brand: VIVO

1. PRODUCT OVERVIEW

The VIVO MOUNT-KB05E is a large, under-desk keyboard tray designed to optimize your workspace and enhance ergonomic comfort. This slide-out platform provides ample space for your keyboard and mouse, keeping your desktop clear and organized. Its sturdy C-clamp mounting system ensures a secure attachment to your desk without requiring permanent modifications.

Image: The VIVO MOUNT-KB05E keyboard tray securely mounted under a desk, featuring a keyboard and mouse positioned for use.

2. KEY FEATURES

- **Space-Saving Design:** Freed up valuable desktop space by holding your keyboard, mouse, and small accessories below the surface.
- **Ergonomic Typing Angles:** Allows for comfortable typing positions, reducing strain on wrists and shoulders. The tray extends up to 8.5 inches from the desk edge.
- **Sturdy C-Clamp Mount:** Attaches securely to your workstation without drilling, protecting your desk surface.
- **Smooth Slide-Out Mechanism:** Features a fluid sliding action for easy access and storage of the tray.
- **Durable Construction:** Made from alloy steel, ensuring long-lasting stability and supporting up to 11 lbs.

ERGONOMIC TYPING

Image: A user demonstrating ergonomic typing posture with hands comfortably placed on the keyboard tray.

3. COMPATIBILITY & DIMENSIONS

Before installation, please ensure your desk meets the following requirements for optimal compatibility and performance:

- **Desktop Thickness:** Your desk surface must not exceed 1.25 inches in thickness.
- **Required Desk Width:** The total length of the tray from clamp to clamp is 32.5 inches. Ensure you have at least this much clear space on your desk for proper mounting.
- **Desktop Edge Type:** This tray is designed for desks with a square edge. It is **not compatible** with desks that have beveled, lipped, or apron edges.
- **Keyboard/Mouse Compatibility:** Designed for standard keyboards and mice. Not suitable for vertical mice or raised/ergonomic keyboards that exceed the tray's clearance.
- **Under-Desk Clearance:** Ensure there are no obstacles under your desk that would prevent the tray from sliding in and out freely. The tray slides up to 12 inches under the desk.

4. SETUP AND INSTALLATION

The VIVO keyboard tray is designed for easy assembly and installation. All necessary hardware and instructions are provided. You will only need a Phillips head screwdriver.

Installation Steps:

- Unpack Components:** Carefully remove all parts from the packaging and verify against the included parts list.
- Assemble Tray Sections:** If your tray comes in multiple sections, align them and secure them together using the provided screws. (Note: The MOUNT-KB05E typically comes as a single main platform).
- Attach Side Brackets:** Secure the sliding side brackets to the underside of the keyboard tray using the pre-drilled holes and screws. Ensure they are firmly attached for smooth operation.
- Attach C-Clamps:** Connect the C-clamp mounting arms to the side brackets. These clamps will secure the entire assembly to your desk.
- Mount to Desk:** Position the assembled keyboard tray under your desk. Tighten the C-clamps firmly to the desk surface. Ensure the tray is level and stable before use.

CHECK FOR OBSTACLES ON + UNDER DESK

12" Clearance Required

Image: An underside view of the desk, highlighting the sliding mechanism and the importance of checking for obstacles for full retraction.

5. OPERATING INSTRUCTIONS

To use your VIVO keyboard tray, simply pull the tray outwards from under your desk until it reaches your desired typing position. The smooth sliding mechanism allows for effortless extension and retraction. When not in use, push the tray back under the desk to save space and keep your workspace tidy.

The tray is designed to provide ergonomic typing angles, helping to relieve stress on your wrists and shoulders. Position your keyboard and mouse comfortably on the tray for optimal use.

6. MAINTENANCE

Regular maintenance ensures the longevity and smooth operation of your keyboard tray:

- **Cleaning:** Wipe the tray surface with a soft, damp cloth. Avoid abrasive cleaners that could damage the finish.
- **Check Fasteners:** Periodically inspect all screws and clamps to ensure they remain tight. Loose fasteners can lead to wobbling or reduced stability. Tighten as needed.
- **Lubrication:** If the sliding mechanism becomes stiff over time, a small amount of silicone-based lubricant can be

applied to the rails to restore smooth movement.

7. TROUBLESHOOTING

- **Tray Wobbles:**

- Ensure all C-clamps are securely tightened to the desk.
- Verify that the desk surface itself is stable and not prone to movement.
- Check that the screws attaching the side brackets to the tray are tight.

- **Tray Does Not Slide Smoothly:**

- Inspect the sliding rails for any obstructions or debris.
- Ensure the tray is installed level. Uneven installation can cause friction.
- Apply a small amount of silicone lubricant to the sliding rails if necessary.

- **Keyboard/Mouse Does Not Fit:**

- Refer to the "Compatibility & Dimensions" section to confirm your peripherals meet the tray's height and width limitations.

8. SPECIFICATIONS

Brand	VIVO
Model Number	MOUNT-KB05E
Color	Black
Material Type	Alloy Steel
Item Weight	10.45 pounds
Product Dimensions (Tray)	26.8" (usable space) x 11"
