JLab JBuds Air True Wireless Signature Bluetooth Earbuds User Manual

MODEL: EJBUDSAIRRBLK82

Introduction

The JLab JBuds Air True Wireless Signature Bluetooth Earbuds are designed for on-the-go use, offering a hassle-free audio experience with automatic connection, long battery life, and customizable sound settings. Featuring IP55 sweat resistance, these earbuds are suitable for various activities, from daily commutes to workouts.

What's in the Box

Your JLab JBuds Air package includes the following components:

- JBuds Air True Wireless Earbuds
- Charging Case with integrated USB cable
- 3 Sets of Gel Tips (various sizes)
- 1 Set of Cush Fins™
- JLab Two Year Warranty information

Image: A top-down view displays the JLab JBuds Air charging case, two earbuds, and various sizes of black gel tips and Cush Fins. This image illustrates all the components included in the product package, emphasizing the customization options for fit.

Setup

1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. The case features an integrated USB cable for convenient charging. The earbuds provide 6+ hours of playtime, with an additional 18 hours of charge available from the case, totaling over 24 hours of use.

Image: The JBuds Air charging case is shown with its integrated USB-A charging cable extended. Two earbuds are positioned above the case, illustrating the long battery life and convenient charging feature.

2. Automatic Connection and Pairing

The JBuds Air are designed for ease of use. Once removed from their charging case, the earbuds will automatically power on and connect to each other. To pair with your device, ensure Bluetooth is enabled on your smartphone or tablet and select "JLab JBuds Air" from the list of available devices.

3. Optimal Fit

For the best audio experience and secure fit, experiment with the included gel tips and Cush Fins to find the combination that provides the most comfortable and secure fit for your ears. The Cush Fins provide additional stability for active use.

Operating Instructions

Earbud Controls

The JBuds Air feature intuitive controls on each earbud. The functions are activated by pressing the JLab logo on the outside of the earbud:

Action	Right Earbud	Left Earbud
Single Press	Volume Up / Answer Call	Volume Down
Double Press	Activate Voice Assistant (Siri, Google Assistant) / End Call	Play / Pause
Triple Press	Toggle EQ Sound Settings (Signature, Balanced, Bass Boost)	
Press & Hold (1 sec)	Next Track / Reject Call	Previous Track

Note: Only the right earbud can be used for calls independently.

Custom EQ3 Sound Settings

The JBuds Air allow you to customize your audio experience with three EQ sound modes. Cycle through these modes by triple-pressing either earbud:

- **JLab Signature:** Amplified vocals and bass.
- **Balanced:** Even sound for podcasts and classical music.
- **Bass Boost:** Amplified bass and sub-bass.

Image: A close-up view of two JLab JBuds Air earbuds highlights the "CUSTOM EQ3 SOUND" feature. Diagrams show the three sound

modes: Signature, Balanced, and Bass Boost, indicating that users can select their preferred audio profile via touch controls.

Maintenance

To ensure the longevity and optimal performance of your JLab JPods Air earbuds, follow these maintenance guidelines:

- **Sweat and Water Resistance:** The earbuds are IP55 sweat resistant, meaning they can withstand sweat and light splashes. However, they are not designed for submersion in water. Avoid exposing them to heavy rain or swimming.
- **Cleaning:** Regularly clean the earbuds and charging contacts with a dry, soft cloth. If necessary, use a slightly damp cloth for the exterior, but ensure they are completely dry before placing them back in the charging case.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and keep them charged.

Image: A man wearing JLab JPods Air earbuds is shown outdoors, with text indicating "EVERYDAY PROOF IP55". This image emphasizes the earbuds' durability and resistance to sweat, making them suitable for active lifestyles.

Troubleshooting

If you encounter issues with your JBuds Air earbuds, try the following solutions:

- **Earbuds Not Connecting to Each Other:** If the earbuds do not automatically connect after being removed from the case, try placing them back in the case, closing the lid, and then reopening it. Ensure both earbuds have sufficient charge. If the issue persists, consult the JLab support website for specific re-pairing instructions.
- **No Sound or Intermittent Connection:**
 - Ensure the earbuds are fully charged.
 - Check that Bluetooth is enabled on your device and the earbuds are selected.
 - Move closer to your device to rule out range issues.
 - Try disconnecting and re-pairing the earbuds with your device.
- **Charging Issues:**
 - Ensure the integrated USB cable is securely connected to a power source.
 - Check the charging contacts on both the earbuds and inside the case for any debris or obstruction.
 - Verify that the charging case itself has power (check indicator lights).
- **Uncomfortable Fit:** Experiment with all included gel tips and Cush Fins to find the combination that provides the most comfortable and secure fit for your ears.
