Maintenance

To ensure the longevity and optimal performance of your reiga ceiling fan, regular maintenance is recommended:

- **Cleaning:** Periodically wipe down the fan blades and motor housing with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Blade Balance:** If the fan wobbles, check that all blade screws are tightened and that the blades are properly balanced. Balancing kits can be purchased if needed.
- **Light Source:** The integrated LED light is designed for long-term use. If replacement is ever needed, consult a qualified electrician.
- **General Inspection:** Annually inspect all connections and mounting hardware to ensure they are secure.

Troubleshooting

If you encounter any issues with your reiga ceiling fan, refer to the following common troubleshooting steps:

- **Fan Not Operating:** Ensure the power supply is on and all electrical connections are secure. Check the remote control batteries.
- **Light Not Working:** Verify the light switch on the remote is activated. Check for any loose wiring connections to the light kit.
- **Excessive Noise/Wobbling:** Ensure all blade screws are tight. Check that the fan is securely mounted to the ceiling junction box. Balance the blades if necessary.
- **Remote Control Issues:** Replace batteries. Ensure there are no obstructions between the remote and the fan's receiver.
- **Smart Control Connectivity:** Ensure your Wi-Fi network is stable and the fan is within range. Re-pair the fan with the Smart Life App if connectivity is lost.

For persistent issues, please refer to the detailed troubleshooting section in the full user manual or contact customer support.
