VR SHINECON 4351679442

VR SHINECON VR Headset User Manual

Model: 4351679442

INTRODUCTION

Welcome to the immersive world of virtual reality with your new VR SHINECON VR Headset. This device is designed to transform your smartphone into a personal 3D cinema and gaming hall, offering an unparalleled visual and auditory experience. This manual will guide you through the setup, operation, and maintenance of your VR headset and its accompanying remote controller.

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- VR SHINECON VR Headset with integrated headphones
- Bluetooth Remote Controller
- User Manual (this document)

Image: The VR SHINECON VR Headset, featuring integrated headphones and a sleek black design, is shown alongside its compact black Bluetooth remote controller.

TECHNICAL SPECIFICATIONS

Feature	Specification
Compatible Phone Size	4.7-6 inches (iPhone and Android)
Lens Material	Japanese SLR optical PMMA
Focal Length	45mm
Viewing Angle	100 degrees
Myopia Support	0-600 degrees (naked eye viewing)
Connectivity	Bluetooth (for controller)
Audio	Integrated 3.5mm headphone jack
Item Weight	1.25 pounds
Dimensions	9.25 x 8.43 x 4.41 inches

SETUP GUIDE

1. Prepare Your Smartphone

Before using the VR headset, ensure your smartphone is ready for virtual reality content.

1. **Download VR Applications:** Install VR-compatible applications on your mobile phone. Recommended apps include YouTube, Veer, or Fulldrive.
2. **Content Format:** Ensure the video content you wish to view is in a left-right 3D format for optimal viewing. Image clarity is dependent on your mobile phone's screen resolution and the video quality.

Focus

As long as your phone can use the VR app.

As long as your phone can watch 3D video (left and right format)

You can use this VR glasses. Support for 4.7-6 inch iPhone and Android phones.

Non-4.7-6 inch phones and video not left and right format may affect the viewing of 3D video. Image clarity is related to mobile phones and videos

If you have any questions, please feel free to contact us.

USE EXPLANATION

1. Mobile Phone Download VR app (Recommended: Youtube /Veer/Fulldrive)
2. You can search the VR application for the video you want to watch for playback. Or you can use the VR app to play your downloaded videos (3D video left and right format)
3. Remove the lens film of VR glasses. put cell phone into the VR glasses
4. Wear VR glasses, adjust the headband to the comfortable size. VR glasses top button adjustable pupil and focus distance for optimal 3D viewing

Image: A diagram illustrating the steps for using the VR headset, including downloading VR apps, searching for content, removing lens film, and adjusting the headset.

2. Insert Smartphone into VR Headset

1. **Remove Lens Film:** Gently remove any protective film from the VR glasses' lenses.
2. **Open Front Panel:** The headset features a removable adsorption panel for easy phone insertion and heat dissipation. Open this panel.

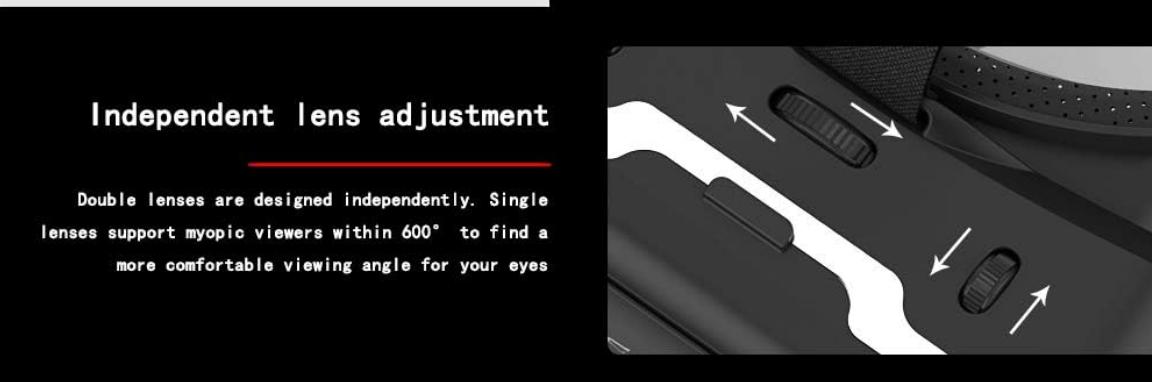

3. **Place Phone:** Carefully place your smartphone into the designated slot within the VR headset. Ensure it is centered as much as possible for balanced viewing.
4. **Close Panel:** Securely close the front panel.

Multifunctional Humanized Design

Removable adsorption panel

Front detachable adsorption design, increase heat dissipation space, fast heat dissipation, easy to install and remove, solve the problem of wearing sultry heat and mobile phone heat dissipation

Independent lens adjustment

Double lenses are designed independently. Single lenses support myopic viewers within 600° to find a more comfortable viewing angle for your eyes

PU Material Mask

The PU material mask is comfortable and hygienic, soft and breathable, easy to clean, and even if you look at it for a few hours, it will make you feel good. Small size, light weight, very comfortable to use or carry

3. Adjust Headset for Optimal Viewing

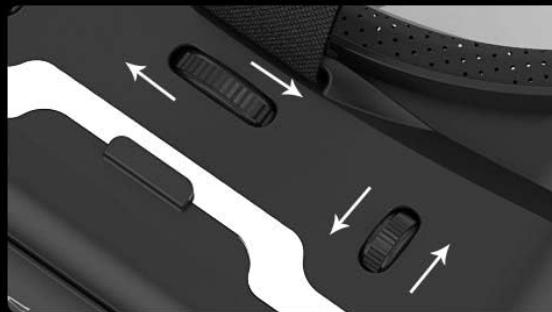

1. **Adjust Headband:** Put on the VR headset and adjust the elastic headband to a comfortable size that fits securely on your head.
2. **Pupil and Focus Distance:** Use the top buttons on the VR headset to adjust the pupil distance (IPD) and focal distance. Rotate these dials until the image appears clear and comfortable for your eyes. This is crucial for optimal 3D viewing.
3. **Myopia Adjustment:** For users with myopia up to 600 degrees, the headset supports naked eye viewing. If you wear glasses, you can typically wear them inside the headset. Adjust the independent lenses to suit your vision.

OPERATING INSTRUCTIONS

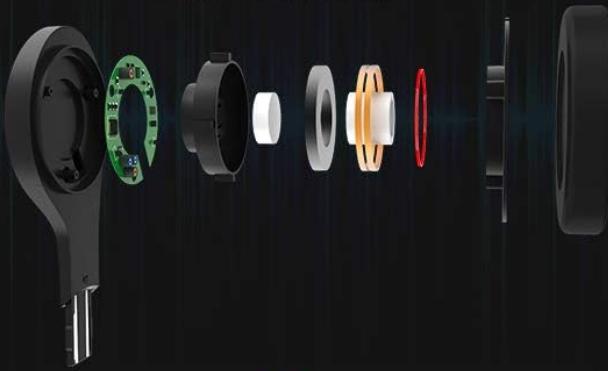

Using the VR Headset

Once your smartphone is securely in place and the headset is adjusted, you can begin your VR experience:

- Content Playback:** Use the VR application on your phone to search for and play desired VR videos or games.
- Audio Connection:** The headset is equipped with a 3.5mm headphone jack for integrated stereo sound. If your phone does not have a 3.5mm jack, you may need a headphone adapter or can use your own Bluetooth headset connected directly to your phone.
- Adjustable Headphones:** The integrated headphones are adjustable to accommodate various head shapes, providing comfortable 3D stereo sound.

3D STEREO SOUND EFFECT

High quality VR content takes you into a new 360° world
making your dreams within reach

COMFORTABLE ADJUSTABLE HEADPHONES

Headphones can be adjusted at will to accommodate more head shapes and experience VR pleasure easily.

Image: An exploded view of the VR headset's integrated headphones, demonstrating their internal components and how they can be adjusted for comfort and optimal 3D stereo sound.

Using the Remote Controller

The included Bluetooth remote controller enhances your interaction with VR content. Please note that some software and games may not fully support the Bluetooth remote control, which is a software limitation, not a product defect. The remote is primarily applicable to iOS 11.2.5 or lower due to iOS system restrictions.

- **Pairing:** Pair the remote controller with your smartphone via Bluetooth.
- **Functions:** The remote features a 360° joystick, return button, mouse mode, menu button, mute, sound/photo/page turning buttons, switch, play/pause, and mode selection (Android/iOS). Refer to the diagram for specific button layouts and functions.
- **Mode Button:** Use the 'Mode' button to switch between Multimedia mode (KEY) and Game mode (GAME) as needed.

ARC DESIGN FREE CONTROL

The arc design on both sides of the handle is in line with human mechanics. The face is polished and skid proof to avoid wrong operation, allowing you to enjoy yourself.

MAINTENANCE AND CARE

Proper care will extend the life and performance of your VR headset:

- Lens Cleaning:** Use a soft, dry microfiber cloth specifically designed for optical lenses to clean the headset lenses. Do not use abrasive materials or liquid cleaners directly on the lenses.
- Headset Body:** Wipe the exterior of the headset with a slightly damp, soft cloth. Avoid getting moisture into any openings.
- PU Material Mask:** The PU material mask is hygienic and breathable. It can be gently wiped clean with a damp cloth.
- Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Protect the lenses from scratches when not in use.

TROUBLESHOOTING

If you encounter any issues, please refer to the following common problems and solutions:

- **Blurry Image:**

Solution: Adjust the pupil distance and focal distance dials on the top of the headset until the image becomes clear. Ensure your smartphone is centered within the headset. Verify the content is in a proper 3D (left-right) format.

- **Remote Controller Not Responding:**

Solution: Ensure the remote controller is fully charged and properly paired with your smartphone via Bluetooth. Check if the remote is in the correct mode (Game/Multimedia). Remember that some apps/games may not fully support the remote, and iOS compatibility is limited to versions 11.2.5 or lower.

- **No Sound from Headphones:**

Solution: Ensure the 3.5mm jack is fully inserted into your phone. Check your phone's volume settings. If your phone lacks a 3.5mm jack, ensure your adapter is working or use a Bluetooth headset connected directly to your phone.

- **Phone Overheating:**

Solution: The headset features a removable adsorption panel designed to aid heat dissipation. Ensure this panel is properly installed and allows for airflow. Prolonged VR use can cause phones to heat up; take breaks as needed.

SUPPORT AND WARRANTY INFORMATION

For any questions, technical support, or warranty inquiries regarding your VR SHINECON VR Headset, please contact the manufacturer directly through their official support channels. Refer to the product packaging or the VR SHINECON brand store on Amazon for contact details.

Note: Warranty terms and conditions may vary. Please retain your proof of purchase for warranty claims.
