VINGLI B07HHW6RXG

VINGLI Heavy Duty Raised Garden Bed

MODEL: B07HHW6RXG

1. Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Always wear appropriate safety gear, such as gloves, during assembly.
- Ensure all screws and connections are securely tightened before use.
- Do not overload the garden bed beyond its stated capacity (250 lbs).
- Keep small children and pets away from the assembly area.
- This product is designed for outdoor use.

2. Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Pine Wood Panels (various sizes for sides, ends, and bottom)
- Legs (4 pieces)
- Corner Posts (4 pieces)
- Geotextile Bed Liner (1 piece)
- Screws and Fasteners
- Instruction Manual

3. Assembly Instructions

Assembly requires a hammer and an electric drill for optimal results. The design features tight connections for enhanced durability.

Image: Essential tools for assembly, including a hammer and an electric drill.

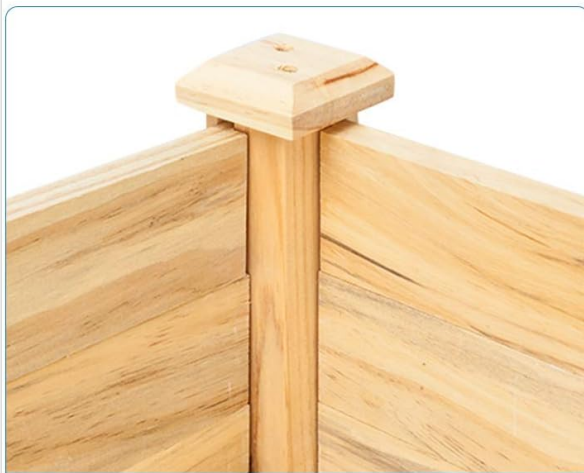

1. **Prepare Components:** Unpack all wooden panels, legs, corner posts, and hardware. Organize them for easy access.
2. **Assemble Side Panels:** Attach the side panels to the corner posts using the provided screws. Ensure the panels fit snugly into the grooves of the posts. A hammer may be used to gently tap components into place for a tight fit.
3. **Attach End Panels:** Connect the end panels to the remaining corner posts, forming the rectangular frame of the garden bed.
4. **Secure Legs:** Attach the four legs to the bottom of the assembled frame. Ensure they are firmly secured to provide stability.
5. **Install Bottom Slats:** Place the bottom wooden slats across the base of the bed. These slats provide support for the soil and allow for drainage. Secure them with screws where indicated.
6. **Insert Geotextile Liner:** Lay the geotextile bed liner inside the assembled wooden frame. Ensure it covers the bottom and sides to prevent soil erosion and maintain soil stability while allowing water permeability.

Ensures the durability and solidness

Need electric drill

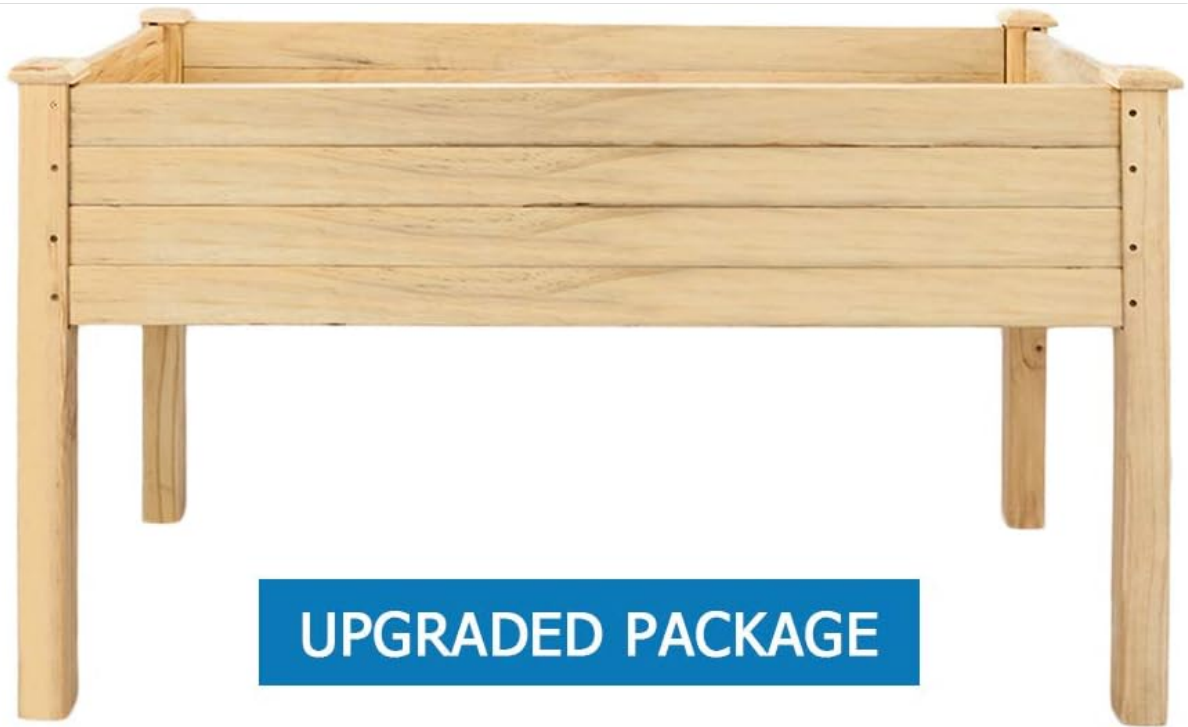

Strongly support the weight from the garden bed itself and plant

Multiple rows of reserved holes

4. Operating Instructions

Once assembled, the VINGLI Raised Garden Bed is ready for planting.

1. **Placement:** Choose a suitable outdoor location with adequate sunlight for your plants.
2. **Fill with Soil:** Carefully fill the garden bed with your preferred gardening soil mix. The geotextile liner will help retain soil while allowing proper drainage.
3. **Planting:** Plant your desired vegetables, fruits, potatoes, onions, or flowers. The elevated design reduces the need for bending.
4. **Watering:** Water your plants as needed. The design includes drainage holes to prevent waterlogging and maintain optimal plant health.

5. Maintenance

Proper maintenance will extend the lifespan of your VINGLI Raised Garden Bed.

- **Cleaning:** Periodically clean the exterior of the wooden bed with a damp cloth to remove dirt and debris.
- **Wood Treatment:** The pine wood is treated with a transparent anti-corrosive paint. While designed for long-lasting use, you may consider reapplying a wood sealant or paint every few years to further protect the wood from weathering, especially in harsh climates.
- **Drainage:** Ensure the drainage holes remain clear of obstructions to prevent water accumulation.
- **Inspection:** Regularly inspect all screws and joints for tightness. Re-tighten if necessary.

6. Troubleshooting

If you encounter issues during assembly or use, consider the following:

- **Warped Boards:** If boards appear slightly warped, ensure they are correctly oriented and apply gentle pressure during assembly. The tight fit design often accommodates minor variations.

- **Difficulty with Fit:** Use a rubber mallet to gently tap components into place if they are too tight. Avoid excessive force to prevent damage.
- **Instability:** Double-check that all screws are fully tightened, especially those connecting the legs and corner posts. Ensure the bed is placed on a level surface.
- **Waterlogging:** Verify that the drainage holes at the bottom of the bed are not blocked by soil or debris. The geotextile liner should allow water to pass through.

7. Specifications

Feature	Detail
Model	B07HHW6RXG
Material	100% Natural Pine Wood
Finish	Transparent Anticorrosive Painted
Product Dimensions (L x W x H)	48.5" x 22.5" x 30"
Wood Thickness	0.8 inches
Weight Capacity	250 lbs
Item Weight	37 pounds
Included Accessory	Geotextile Bed Liner

8. Warranty & Support

VINGLI offers a 30-day return policy for this product. During this period, VINGLI will cover the shipping cost for return and replacement under the following conditions:

- Item is defective or damaged upon arrival.
- Missing parts or assembly problems are encountered.

For other reasons beyond quality issues, you may need to cover return shipping costs. Products must be returned in their original packaging and shipped within 30 days of delivery. Please inform VINGLI once the product has been shipped back to facilitate a prompt refund process.

Return Policy

- We offer a 30-Day return policy. During this period, we will cover the shipping cost of return and replacement under the following conditions: item is defective or damaged, misses parts or meets assembly problems. As this product is a **FBM** one, for any other reasons beyond our quality issues, you might need to return the item at your kind expense. We truly beg your warm understanding on it.
- Please be kindly suggested that products must be returned in their original packaging and shipped within 30 days of delivery. Please inform us timely once you have the product shipped back so we could process with your refund immediately. The refund will be applied to your account after deducting necessary return freight (if there is one) and you are expected to receive it within 1-3 days. Hope you could enjoy a pleasant shipping experience with us!
