Frigidaire EFIC206-SILVER

Frigidaire Compact Ice Maker Instruction Manual

Model: EFIC206-SILVER

Introduction

Thank you for purchasing the Frigidaire Compact Ice Maker. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read it thoroughly before first use and keep it for future reference.

Safety Information

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions before using the appliance.
- Do not touch the evaporator or ice basket when the unit is operating.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Supervise children closely when the appliance is in use.
- Unplug the appliance from the outlet when not in use or before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Use only potable water for ice production.
- Ensure proper ventilation around the unit. Maintain at least 5 inches of space on all sides.
- Do not place the appliance near heat sources or in direct sunlight.
- This appliance is for household use only.

Product Overview

Features

- Large see-through window allows for process monitoring and ice level checking.
- Efficient compressor cooling system.
- Produces ice in less than 6 minutes per cycle.
- Capable of producing up to 26 lbs of ice per 24 hours.
- Low noise operation: less than 38 dB.

- Ice basket capacity: 1.2 KGS.

Components

Front view of the Frigidaire Compact Ice Maker in silver, featuring a clear lid for visibility.

Top-down view of the ice maker with the lid open, revealing the ice basket filled with bullet-shaped ice.

Detailed view inside the ice maker, showing the ice-making mechanism and newly formed ice bullets.

Interior view of the ice maker, highlighting the removable ice basket for easy ice collection.

Setup

1. **Unpack the Ice Maker:** Carefully remove all packaging materials and check for any damage. It is recommended to clean the interior and exterior of the unit before first use.
2. **Placement:** Place the ice maker on a flat, stable surface away from direct sunlight and heat sources. Ensure there is at least 5 inches of clearance around the unit for proper ventilation.
3. **Allow to Settle:** After transportation, allow the ice maker to stand upright for at least 2-4 hours before plugging it in. This allows the refrigerant to settle.
4. **Connect Power:** Plug the ice maker into a grounded electrical outlet.

Operating Instructions

1. **Add Water:** Open the lid and fill the water reservoir with potable water up to the MAX fill line. Do not overfill.

Visual guide for adding water and starting the ice making process.

2. **Select Ice Size:** Press the "SELECT" button to choose between small (S) or large (L) ice cubes. Small ice is ideal for cocktails and coffee, while large ice is suitable for cola and beer.

Comparison of small (2.2cm x 2.5cm) and large (2.6cm x 2.7cm) bullet-shaped ice cubes.

3. **Start Ice Production:** Press the "POWER" button to turn on the ice maker. The "Ice Making" indicator light will illuminate.
4. **Monitor Progress:** The first batch of ice will be ready in approximately 6-10 minutes, depending on the selected size and ambient temperature. The "Ice Full" indicator light will illuminate when the ice basket is full.
5. **Collect Ice:** Use the provided ice scoop to remove ice from the basket. If the ice is not removed, it will slowly melt and the water will return to the reservoir for future ice production.
6. **Add Water Indicator:** If the "Add Water" indicator light illuminates, the water reservoir is low. Refill with water to continue ice production.
7. **Turn Off:** Press the "POWER" button to turn off the ice maker when not in use.

Maintenance

Regular cleaning and maintenance will ensure optimal performance and longevity of your ice maker.

- **Daily Cleaning:** After each use, drain any remaining water from the reservoir. Wipe the interior with a soft cloth and mild detergent, then rinse thoroughly.

- **Monthly Deep Cleaning:** For thorough cleaning, mix a solution of water and vinegar (or a mild descaling agent) and run a few ice-making cycles with this solution (do not consume this ice). Then, drain and rinse the unit multiple times with fresh water.
- **Exterior Cleaning:** Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the ice maker for an extended period, ensure it is completely dry inside and out. Store in a cool, dry place.

Troubleshooting

Before contacting customer support, please refer to the following table for common issues and their solutions:

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; unit not plugged in; ambient temperature too high.	Fill water reservoir; ensure unit is plugged in; move to a cooler location.
"Add Water" light is on.	Water level is low.	Add potable water to the reservoir.
"Ice Full" light is on.	Ice basket is full.	Remove ice from the basket.
Ice cubes are too small or cloudy.	Water temperature too high; air bubbles in water.	Use colder water; ensure proper ventilation.
Unit is noisy.	Normal operation sounds (compressor, water pump); unit not level.	Ensure unit is on a level surface. If noise is excessive, contact support.

Specifications

Attribute	Detail
Brand	Frigidaire
Model Name	frigidaire ice maker
Model Number	EFIC206-SILVER
Capacity	1.2 Kilograms (Ice Basket)
Wattage	200 watts
Refrigerant	R410a
Item Weight	18.56 pounds
Package Dimensions	15 x 14.25 x 11 inches
Installation Type	Countertop
Color	Silver - See Through Lid
UPC	090952167418

Warranty and Support

This Frigidaire ice maker is a renewed product. Please refer to the specific warranty terms provided at the time of purchase for details regarding coverage and duration. For technical assistance, troubleshooting beyond this manual, or to inquire about replacement parts, please contact the retailer or the authorized service center. Keep your purchase receipt as proof of purchase for any warranty claims.
