GT OMEGA GTO-APEXWS-FAN

GT OMEGA APEX Wheel Stand Instruction Manual

Model: GTO-APEXWS-FAN

[Overview](#) [Setup](#) [Operation](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

PRODUCT OVERVIEW

The GT OMEGA APEX Wheel Stand is engineered for maximum rigidity and stability, providing an immersive and flex-free racing experience. Its robust Y-frame structure and adjustable wheel and pedal plates ensure optimal performance.

- **Incredible Stability:** Designed with a robust Y-frame structure for maximum rigidity, ensuring a stable and immersive racing experience.
- **Foldable and Compact:** A perfect solution for limited spaces, easily foldable without removing your equipment.
- **Versatile Adjustment Options:** Offers adjustable height and angle for the wheel plate, and adjustable inclination for the pedal plate, ensuring maximum comfort.
- **Complete Sim Racing Package:** Ready for immediate use, including a shifter mount and an Apex chair link for enhanced compatibility and stability.
- **Wide Compatibility:** Pre-drilled to accommodate racing wheels from MOZA, Logitech, Thrustmaster, and Fanatec.

SETUP INSTRUCTIONS

The GT OMEGA APEX Wheel Stand arrives partially assembled. Follow these steps for complete setup and initial configuration.

1. Unpacking and Initial Assembly

- Carefully remove all components from the packaging.
- Identify the main frame, wheel plate, pedal plate, shifter mount, and chair link.
- The stand is largely pre-assembled. Minor assembly involves attaching the wheel plate, pedal plate, and shifter mount using the provided tools and hardware.

CONÇU POUR UNE STABILITÉ MAXIMALE

Le APEX Wheel Stand dévoile sa structure en acier robuste avec un design incliné optimisé pour la durabilité et le confort ergonomique.

Image: A detailed view of the GT OMEGA APEX Wheel Stand's robust steel structure, highlighting its stability features and general assembly.

2. Attaching Your Racing Peripherals

The APEX Wheel Stand is pre-drilled for direct compatibility with a wide range of racing wheels and pedals. This includes popular models from MOZA, Logitech (G923, G29, G920), Thrustmaster (T300, T500, TX, TH8A), and Fanatec.

- **Wheel Base:** Secure your steering wheel base to the wheel plate using the appropriate screws and mounting points.
- **Pedals:** Attach your pedal set to the pedal plate. Ensure all connections are tight for optimal stability during use.
- **Shifter:** Mount your gear shifter to the dedicated shifter support. This support can typically be mounted on either the left or right side.

UN PACK COMPLET POUR LE SIM RACING

Le Wheel Stand Apex est prêt à l'emploi pour te garantir une expérience de course fluide et immersive dès la sortie de la boîte. Le Wheel Stand Apex inclut une fixation Chair Link et un support pour levier de vitesse, pour encore plus de compatibilité et de stabilité.

3. Chair Link Attachment

The included Apex chair link helps prevent your gaming chair from rolling backward during intense racing sessions, providing additional stability. Attach it to the rear of the wheel stand and position your chair's wheels into the designated slots.

OPERATION AND ADJUSTMENTS

The APEX Wheel Stand offers versatile adjustment options to suit various user preferences and setups.

1. Wheel Plate Height and Angle Adjustment

- Loosen the adjustment knobs or bolts on the main frame that secure the wheel plate.
- Adjust the wheel plate to your desired height and angle for comfortable steering.
- Once positioned, securely tighten all knobs/bolts to ensure stability.

CARACTÉRISTIQUES CLÉS

GT Omega®

CONFIGURATION ENTIÈREMENT RÉGLABLE

Hauteur et angle réglables pour le plateau du volant et le support des pédales, conçus pour s'adapter confortablement à différentes tailles de pilote et positions d'assise.

Support volant réglable

Montage gauche/droite

Fixation de chaise inclus

3. Folding for Storage

The APEX Wheel Stand is designed to be foldable for compact storage without needing to remove your equipment.

- Ensure all peripherals are securely mounted.
- Loosen the main folding mechanisms (usually large hand screws or quick-release levers).
- Carefully fold the stand into its compact position.
- Secure the stand in its folded state using any provided locking pins or straps.

PLIABLE ET PEU ENCOMBRANT

Son cadre léger et sa fonction pliable font de ce support volant la solution idéale si tu manques de place mais que tu veux un stand fiable pour ton sim racing

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your GT OMEGA APEX Wheel Stand.

- **Cleaning:** Wipe down the stand with a soft, damp cloth to remove dust and grime. Avoid abrasive cleaners that could damage the finish.
- **Fastener Check:** Periodically check all bolts, screws, and adjustment knobs to ensure they are tight. Loose fasteners can affect stability and performance.
- **Inspection:** Inspect the frame for any signs of wear, damage, or corrosion. Address any issues promptly to prevent further deterioration.
- **Storage:** When not in use, especially for extended periods, store the stand in a dry, temperate environment to prevent rust or material degradation.

TROUBLESHOOTING

This section addresses common issues you might encounter with your APEX Wheel Stand.

Problem	Possible Cause	Solution
Stand feels unstable or wobbly.	Loose fasteners; uneven surface; incorrect assembly.	Ensure all bolts and adjustment knobs are securely tightened. Place the stand on a flat, level surface. Re-check assembly steps.
Difficulty folding or unfolding the stand.	Adjustment mechanisms are too tight; obstruction.	Loosen the quick-release levers or hand screws sufficiently. Check for any cables or peripherals obstructing the folding mechanism.
Peripherals (wheel/pedals) are not securely mounted.	Incorrect screws used; mounting holes not aligned; screws not tightened enough.	Use the correct screws for your specific peripheral model. Ensure the peripheral is aligned with the pre-drilled holes before tightening. Tighten all screws firmly.
Scratches on the paintwork after adjustment.	Normal wear from metal-on-metal contact during adjustments.	This can be a natural occurrence with adjustable metal components. It does not affect the structural integrity. Consider applying protective tape to contact points if desired.

PRODUCT SPECIFICATIONS

- Model Number:** GTO-APEXWS-FAN
- Dimensions (L x W x H):** 81 x 14.5 x 58 cm (31.9 x 5.7 x 22.8 inches)
- Weight:** Approximately 16.58 kg (36.55 lbs)
- Compatibility:** Pre-drilled for MOZA, Logitech (G923, G29, G920), Thrustmaster (T300, T500, TX, TH8A), and Fanatec racing peripherals.
- Material:** Robust steel construction.
- Features:** Foldable design, adjustable wheel plate height and angle, adjustable pedal plate inclination, included shifter mount, included chair link.
- Date First Available:** April 10, 2019
