Baseus B07HQ8GXDG

Baseus Gaming Headset Instruction Manual

Model: B07HQ8GXDG

Introduction

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Baseus Gaming Headset. Please read this manual thoroughly before using the product to ensure proper functionality and to maximize your gaming experience.

Product Features

The Baseus Gaming Headset is designed with several features to enhance your audio experience:

- **High Sound Quality Speakers:** Engineered to deliver clear and immersive audio for gaming and multimedia.
- **Noise Cancellation:** Helps reduce ambient distractions for focused audio.
- **Soft Memory Earmuffs:** Protein leather earcups with memory foam provide comfort for extended wear.
- **Adjustable Headband:** Features telescopic regulation for a customizable and secure fit.
- **Flexible Microphone:** An adjustable microphone ensures clear voice pickup for communication.
- **LED Lighting:** Integrated LED lights add a visual element when powered via USB.
- **In-line Volume Control:** Conveniently located control for quick audio adjustments.
- **Universal Compatibility:** Designed to work with a wide range of devices.

Package Contents

The Baseus Gaming Headset package typically includes:

- Baseus Gaming Headset (Model B07HQ8GXDG)
- 3.5mm Audio Splitter Cable (for separate audio and mic jacks)
- User Manual (this document)

Note: An Xbox One adapter may be required for full functionality with some Xbox One controllers and is not included.

Setup Instructions

1. Connecting the Headset

The headset features a main 3.5mm audio plug, a USB plug for LED lighting, and a 3.5mm splitter cable for devices requiring separate audio and microphone inputs.

Image: Headset connections including 3.5mm plug, splitter, and USB for LED.

For Devices with a Single 3.5mm Audio Jack (e.g., PS4, Nintendo Switch, Laptops, Cellphones, Tablets):

1. Plug the main 3.5mm audio plug of the headset directly into the device's 3.5mm audio jack.
2. If you wish to use the LED lighting, plug the USB cable into an available USB port on your device or a USB power adapter.

For PCs with Separate Audio and Microphone Jacks:

1. Connect the main 3.5mm audio plug of the headset to the provided 3.5mm splitter cable.
2. Plug the green connector from the splitter cable into your PC's audio output jack (usually marked with a headphone icon).
3. Plug the red connector from the splitter cable into your PC's microphone input jack (usually marked with a microphone icon).
4. Plug the USB cable into an available USB port on your PC for the LED lighting.

For Xbox One:

1. An Xbox One Stereo Headset Adapter (not included) may be required for older Xbox One controllers. Newer controllers typically have a 3.5mm jack.
2. Plug the main 3.5mm audio plug of the headset into the 3.5mm jack on your Xbox One controller or the headset adapter.
3. Plug the USB cable into an available USB port on the Xbox console or a USB power adapter for LED lighting.

2. Adjusting for Comfort

- Gently extend or retract the headband on both sides to fit your head comfortably.
- Position the soft memory earmuffs over your ears for optimal sound and comfort.

Operating Instructions

Volume Control

The headset features an in-line volume control wheel located on the cable. Rotate the wheel up to increase volume and down to decrease volume.

Microphone Usage

The microphone is flexible and can be adjusted to your preferred position for clear voice pickup. Ensure the microphone is positioned close to your mouth for optimal communication.

LED Lighting

The LED lights on the earcups will illuminate when the USB cable is connected to a powered USB port. There is no separate switch to turn off the LED lights; they are powered directly by the USB connection.

Image: Headset with active LED lighting.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the headset. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables to prevent damage.
- **Earmuffs:** The soft memory earmuffs are designed for durability, but avoid sharp objects that could puncture the material.

Troubleshooting

No Sound or Low Volume:

- Ensure the 3.5mm audio plug is fully inserted into the device's audio jack.
- Check the in-line volume control wheel on the headset cable and adjust it to a higher level.
- Verify the volume settings on your connected device (PC, console, phone).
- If using the splitter cable, ensure both green (audio) and red (mic) plugs are correctly inserted into the corresponding jacks on your PC.
- Test the headset with another device to rule out a device-specific issue.

Microphone Not Working:

- Ensure the microphone is positioned correctly and not muted (if your device has a mute function).
- For PCs, ensure the red microphone plug of the splitter cable is correctly inserted into the microphone input jack.
- Check the microphone input settings on your device (e.g., Windows Sound Settings, console audio settings).
- For Xbox One, confirm that an appropriate adapter is being used if necessary, and that controller settings are configured for headset mic input.

LED Lights Not Illuminating:

- Ensure the USB cable is securely plugged into a powered USB port.
- Try a different USB port or a different USB power source.

Specifications

Feature	Detail
Brand	Baseus
Model	B07HQ8GXDG
