## Nautica T91801

# Nautica Men's Quick Dry J-Class Sailboat Print Swim Trunk User Manual

Model: T91801

## INTRODUCTION

This manual provides essential information for the use and care of your Nautica Men's Quick Dry J-Class Sailboat Print Swim Trunk. Designed for comfort and quick drying, these swim trunks are suitable for various aquatic activities and casual wear.

### Key Features:

- Quick-dry fabrication for enhanced comfort.
- Elastic waistband with drawstring for a secure and adjustable fit.
- Equipped with side pockets, a back pocket, and an interior coin pocket for convenient storage.
- Features an all-over J-Class sailboat print design.

## SETUP AND FIRST USE

Upon receiving your swim trunks, it is recommended to try them on to ensure the correct fit. Adjust the drawstring at the waistband for optimal comfort and security. No complex setup is required for this product.

## OPERATING INSTRUCTIONS

---

These swim trunks are designed for use in and out of water.

- **Wearing:** Pull the swim trunks up and adjust the elastic waistband using the drawstring to achieve a snug yet comfortable fit.
- **Storage:** Utilize the side pockets for easy access to small items. The back pocket and interior coin pocket provide additional secure storage options.
- **Quick Dry Feature:** The quick-dry fabric allows the trunks to dry rapidly after water exposure, enhancing comfort and reducing drying time.

## MAINTENANCE AND CARE

Proper care will extend the life and maintain the appearance of your Nautica swim trunks.

## Washing Instructions:

- **Machine Wash:** Wash in cold water with similar colors.
- **Detergent:** Use a mild detergent. Avoid harsh chemicals or bleach, as these can damage the fabric and print.
- **Drying:** Tumble dry on low heat or hang dry in a shaded area to preserve fabric integrity and color.
- **Ironing:** If necessary, iron on a low setting. Do not iron directly on any printed areas.

The swim trunks are made from 100% Polyester for both the body and lining, a material known for its durability, quick-drying properties, and resistance to shrinking and fading when cared for correctly.

## TROUBLESHOOTING

Most issues with swim trunks relate to fit or care.

- **Incorrect Fit:** If the swim trunks do not fit as expected, ensure the drawstring is properly adjusted. Refer to the size chart if available, or consider exchanging for a different size.
- **Fading or Damage:** Ensure care instructions are followed precisely. Exposure to harsh chemicals (e.g., strong chlorine, certain sunscreens) or excessive heat during washing/drying can cause damage or fading.
- **Material Pilling:** While polyester is resistant, excessive friction or improper washing can sometimes lead to pilling. Wash inside out and avoid abrasive surfaces.

## SPECIFICATIONS

Feature	Detail
Model Number	T91801
