Conair FB90X

Conair Pedicure Foot Spa Bath

INSTRUCTION MANUAL

PRODUCT OVERVIEW

The Conair Heat Sense Pedicure Foot Spa Bath is designed to provide a soothing and invigorating foot massage experience in the comfort of your home. It features heat sense technology to warm water, massaging foot rollers, and relaxing bubbles. Included accessories are a pumice stone and nail brush for comprehensive foot care.

Key Features:

- Invigorating bubbles for a soothing foot bath.
- Heat Sense technology warms water up to 104°F (40°C) and maintains temperature for 10-15 minutes.
- Two manual foot massage rollers to relieve and refresh feet.
- Convenient toe-touch controls for easy operation.
- Extra deep basin to accommodate various foot sizes.
- Non-slip feet for stability during use.
- Bonus pumice stone and nail brush accessories included.

SAFETY INFORMATION

Please read all instructions before using this appliance. When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- Always unplug the foot spa when not in use.
- Do not use if you have any medical conditions that could be affected by heat or water. Consult your doctor if you have any concerns.
- Be careful when handling hot water.
- Keep the power cord away from water to prevent electrical shock.
- Do not use if the cord is damaged.
- Always follow the manufacturer's instructions for use and care.
- Do not stand in the foot spa. Use only while seated.
- Never drop or insert any object into any opening.
- Do not operate under a blanket or pillow. Excessive heating can occur and cause fire, electric shock, or injury to persons.

SETUP

Before first use, ensure the unit is clean and free of debris. Place the foot spa on a firm, level surface to prevent spills.

1. Fill the foot tub basin with water. Do not overfill; ensure water level is below the maximum fill line.
2. Plug the device into a standard electrical outlet.
3. Ensure the power cord is positioned safely and not in contact with water.

comfort your feet with invigorating bubbles and calming heat

OPERATING INSTRUCTIONS

Once the foot spa is filled and plugged in, you can begin your relaxing experience.

1. **Activate Heat and Bubbles:** Use the convenient toe-touch control button located on the top of the unit to activate the heat sense technology and release invigorating bubbles. The water will begin to warm up to 104°F (40°C). Note that it may take up to 30 minutes to reach the maximum temperature, which is then maintained for 10-15 minutes.
2. **Utilize Massaging Rollers:** Gently move your feet back and forth over the two manual foot massage rollers located at the bottom of the basin. These rollers are designed to provide targeted relief to the soles and arches of your feet.
3. **Accessory Use:** For additional foot care, the included pumice stone can be used to gently exfoliate rough skin, and the nail brush can be used for cleaning nails. These accessories can be used while your feet are in the spa or after soaking.

MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity and hygiene of your foot spa.

1. **Draining:** After each use, unplug the unit and carefully pour out the water from the basin.
2. **Cleaning:** Wipe down the interior and exterior surfaces of the foot spa with a damp cloth and mild detergent. Rinse thoroughly to remove any soap residue. Do not immerse the entire unit in water.
3. **Storage:** Store the foot spa in a cool, dry place, away from direct sunlight and moisture. Ensure the unit is completely dry before storing.

TROUBLESHOOTING

If you encounter any issues with your Conair Foot Spa, please refer to the following common problems and solutions:

- **Unit does not turn on:**
 - Ensure the power cord is securely plugged into a working electrical outlet.

- Check if the outlet is receiving power (test with another appliance).
- **No bubbles:**
 - Verify that the toe-touch control for bubbles is activated.
 - Ensure the water level is appropriate and not too high or too low.
- **Water is not heating:**
 - Confirm the heat function is activated via the toe-touch control.
 - Allow sufficient time (up to 30 minutes) for the water to reach the desired temperature. The unit maintains temperature, it does not continuously heat.

If problems persist, please refer to the Warranty and Support section for further assistance.
