Artemide Tizio Table Lamp User Manual

Model: Classic Incandescent (Part No. 784862011113)

1. Introduction

The Artemide Tizio Table Lamp, designed by Richard Sapper, is an iconic lighting fixture renowned for its innovative design and functional flexibility. This classic incandescent model provides focused task lighting through a sophisticated system of counterweights and adjustable arms, allowing for precise light positioning. Its elegant black finish and robust construction make it a timeless addition to any workspace or living area.

This manual provides comprehensive instructions for the safe and efficient setup, operation, and maintenance of your Artemide Tizio Table Lamp. Please read all instructions carefully before use.

2. Setup and Installation

Follow these steps to set up your Artemide Tizio Table Lamp:

1. **Unboxing:** Carefully remove all components from the packaging. Inspect for any signs of damage. Retain packaging for future transport or storage.
2. **Placement:** Choose a stable, flat, and level surface for the lamp. Ensure there is sufficient space for the lamp's arms to extend and adjust freely without obstruction.
3. **Assembly (if required):** The Tizio lamp's unique design involves a balanced arm system. While largely pre-assembled, ensure all pivot points and connections are secure. The base is designed to rotate 360 degrees.
4. **Power Connection:** Insert the power plug into a standard, grounded electrical outlet (120V AC, 60Hz). The lamp incorporates an integral low voltage transformer within its base.

Figure 2: The Tizio lamp positioned on a surface, illustrating its potential for compact arrangement.

3. Operating Instructions

The Artemide Tizio lamp offers intuitive control and precise adjustability:

- **Power On/Off and Intensity Control:** Locate the 2-intensity on/off switch on the lamp's base. Press the switch once for the first intensity setting, press again for the second (brighter) intensity, and a third time to turn the lamp off.
- **Adjusting the Arms:** The lamp features fully adjustable, balanced electrical conductor arms. Gently grasp the lamp

head or the arms and move them to your desired position. The counterweight system will maintain the lamp's balance and the head's parallel orientation to the table.

- **Adjusting the Head:** The die-cast aluminum head can be adjusted to direct the light beam precisely where needed.
- **Rotating the Base:** The lamp's base can rotate 360 degrees, allowing you to pivot the entire lamp without moving its footprint on the surface.

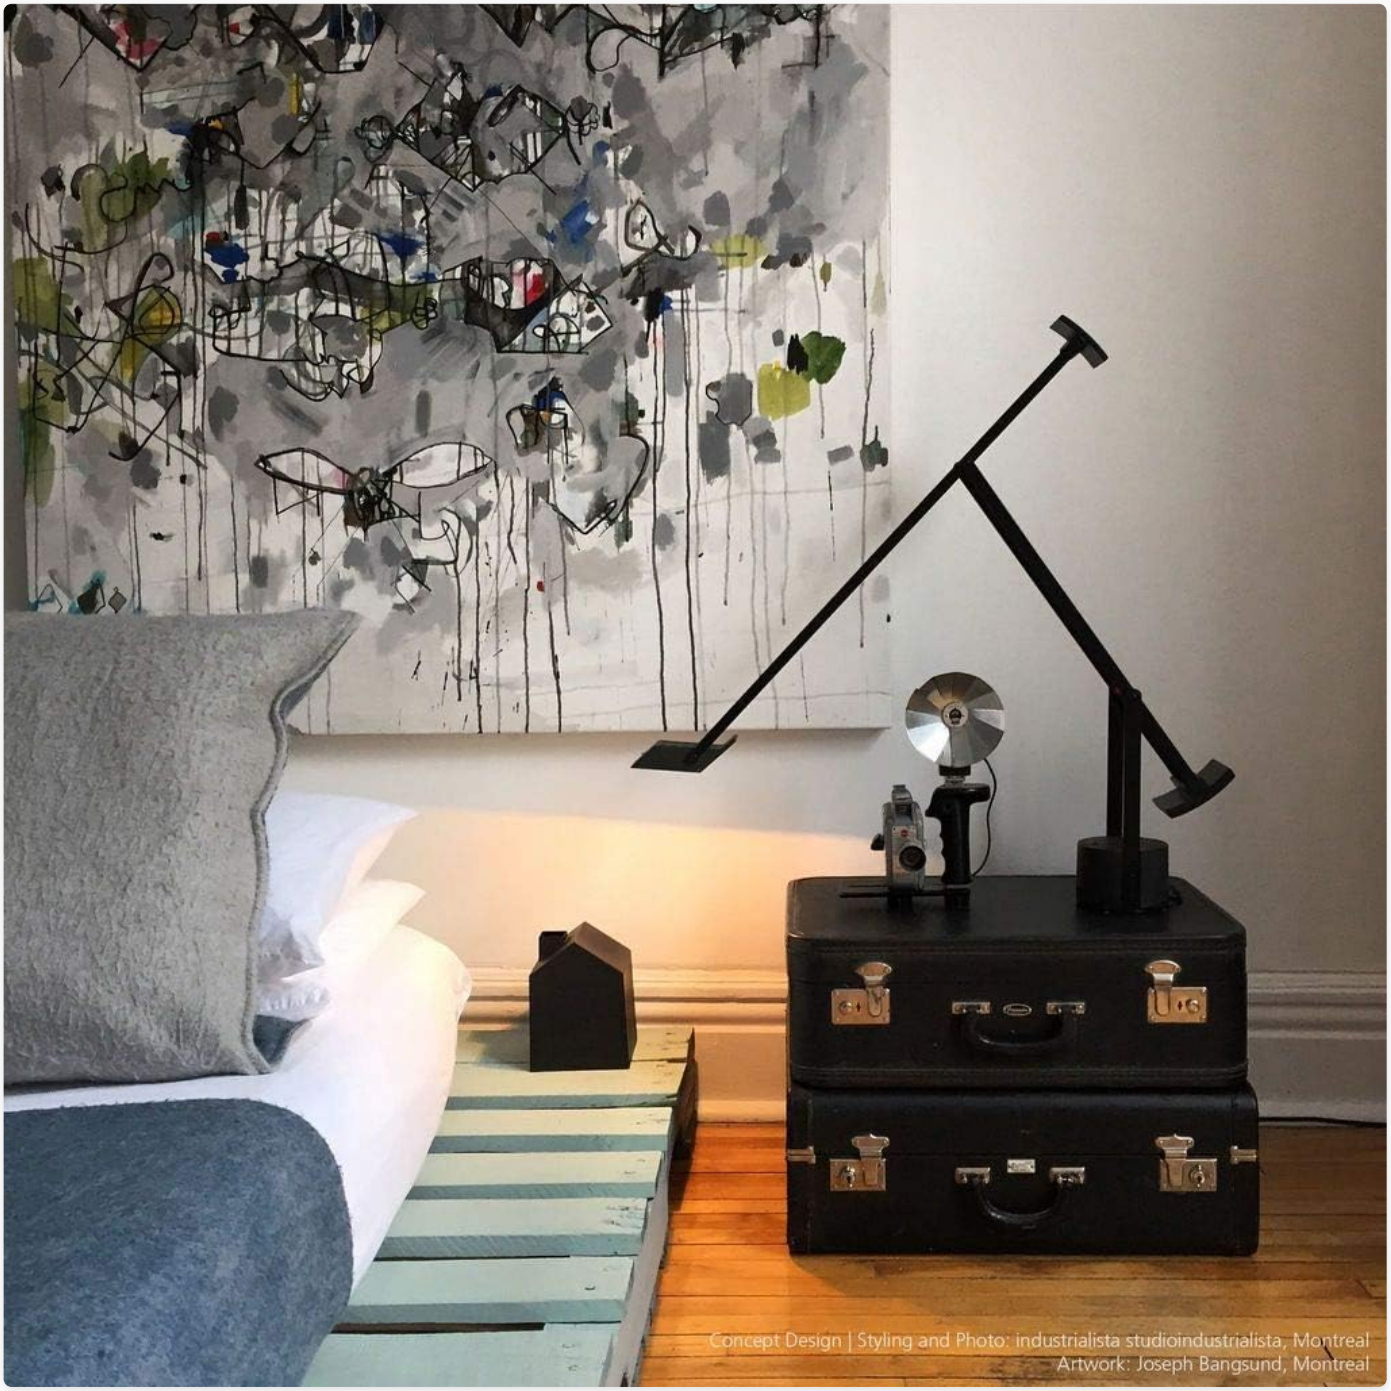

Figure 3: The Tizio lamp in a practical application, highlighting its versatility for task lighting.

4. Maintenance

Proper maintenance ensures the longevity and optimal performance of your Tizio lamp:

- **Cleaning:**
  - Always unplug the lamp before cleaning.
  - Dust the lamp with a soft, dry, lint-free cloth.

- For more thorough cleaning, use a slightly damp cloth with mild soap, then wipe dry immediately. Avoid abrasive cleaners, solvents, or polishes, as they may damage the finish.
- Clean the protective glass lens regularly to ensure maximum light output.

- **Bulb Replacement:**
  - **Bulb Type:** The lamp uses one 35W 12V GY6.35 halogen lamp.
  - **Safety First:** Ensure the lamp is unplugged and has cooled down completely before attempting to replace the bulb. Halogen bulbs can become very hot.
  - **Procedure:** Carefully remove the protective glass lens. Gently pull the old bulb straight out from its socket. When inserting the new bulb, avoid touching the glass part with bare hands, as oils can reduce bulb life. Use a clean cloth or tissue. Push the new bulb firmly but gently into the socket. Replace the protective glass lens.
- **Arm System:** The balanced arm system is designed for smooth operation. Avoid forcing the arms into positions beyond their natural range of motion.

5. Troubleshooting

If you encounter issues with your Artemide Tizio Table Lamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Lamp does not turn on.	No power, switch in OFF position, faulty bulb, loose connection.	• Check if the power cord is securely plugged into a working outlet. • Ensure the 2-intensity switch is pressed to an ON position. • Inspect the bulb; replace if burnt out (refer to Maintenance section). • Verify all lamp connections are secure.
Light flickers or is dim.	Loose bulb, incorrect bulb type, power fluctuation, bulb nearing end of life.	• Ensure the bulb is securely seated in its socket. • Confirm you are using the correct 35W 12V GY6.35 halogen bulb. • Try plugging the lamp into a different outlet. • Replace the bulb if it is old or frequently flickering.
Arms are stiff or difficult to adjust.	Dust or debris in pivot points, mechanical obstruction.	• Gently clean the pivot points and arm joints with a soft, dry cloth. • Ensure no external objects are obstructing the arm's movement. • Do not apply lubricants unless specifically recommended by the manufacturer.

If the problem persists after attempting these solutions, please contact Artemide customer support.

6. Specifications

Feature	Detail
Design	Richard Sapper
Model	Tizio Classic Incandescent
Part Number	784862011113
Lamping	1 x 35W 12V GY6.35 Halogen Lamp (included)
Dimensions (Classic)	30.75"W x 26"H; 46.875" max height; Base: 4.25"D
Material	Aluminum, Glass, Steel
Finish Type	Polished
Color	Black

Feature	Detail
Power Source	Corded Electric
Voltage	12 Volts
Switch Type	Push Button (2-intensity)
Item Weight	0.16 ounces (approx. 4.54 grams)
Certification	ETL, UL
Indoor/Outdoor Usage	Indoor
