

## EUG EUG 600D+ Bluetooth Android (SP-07)

# EUG Portable WiFi Wireless Projector User Manual

Model: EUG 600D+ Bluetooth Android (SP-07)

Brand: EUG

## INTRODUCTION

---

This manual provides comprehensive instructions for the setup, operation, and maintenance of your EUG Portable WiFi Wireless Projector. Designed for home theater, outdoor movies, and gaming, this projector features an integrated Android OS, WiFi, and Bluetooth connectivity, offering a versatile entertainment experience. Please read this manual thoroughly before using the projector to ensure proper operation and to maximize its lifespan.

## SAFETY INFORMATION

---

To ensure safe operation and prevent damage, observe the following precautions:

- Do not block ventilation openings. Ensure adequate space around the projector for proper airflow.
- Do not expose the projector to rain, moisture, or extreme temperatures.
- Use only the power adapter supplied with the projector.
- Avoid looking directly into the projector lens when the lamp is on, as the bright light can cause eye strain.
- Do not attempt to disassemble or modify the projector. Refer all servicing to qualified personnel.
- Keep the projector away from water and other liquids.

## PACKAGE CONTENTS

---

Verify that all items are present in your package:

- 1 x EUG Projector
- 1 x AV Signal Cable
- 1 x HDMI Cable
- 1 x Remote Control
- 1 x User Manual (this document)
- 1 x Power Cable

## PRODUCT OVERVIEW

---

### Physical Appearance and Portability

The EUG projector is designed for portability, easily fitting in one hand. Its compact size makes it convenient for transport and setup in various locations.

## EUG 2018 Model **600D+** Portable Projector

## EYE PROTECTION, A HEALTHIER WAY OF WATCHING

Avoid direct light by diffuse reflectance imaging  
Protect your eyes from TV's strong light

**LED**  
Light Source

**5000 Hours**  
Lamp Life

### LOW FAN NOISE

The fan noise is lower than other basic LED projector, which will not influence you during watching movies or games.

### CLEARER AND BRIGHTER PICTURE QUALITY

1024x600 native resolution, max support 1080p to makes brighter and colorful images.

### DUAL FAN COOLING

Cooling system is more efficient, which you could use projector longer each use.

No worry about overheating problem anymore, letting you enjoy the most of viewing experience.

The optimal projection size ranges from 29 to 130 inches, with a corresponding throw distance of 0.7 to 3.3 meters (3.54 to 12.33 feet). Adjust the projector's position to achieve the desired screen size.

## Up To 130 "Large Scree,Much Larger Than Your TV

The projector can be set up for rear projection, mounted to the ceiling, or simply placed on a desk, offering flexibility for various environments.

### Initial Power-On and Adjustments

1. Connect the power cable to the projector and a power outlet.
2. Press the power button on the projector or remote control to turn it on.
3. Adjust the **Manual Focus** ring on the lens until the image is clear and sharp.
4. Use the **Vertical Keystone** correction feature ( $\pm 15^\circ$ ) to correct distorted images if the projector is not perfectly perpendicular to the screen.

### OPERATING INSTRUCTIONS

---

#### Input Source Selection

After powering on, select your desired input source from the main menu. Options include HDMI 1, HDMI 2, USB, VGA, and AV. Use the remote control to navigate the menu.

#### Android OS Navigation

The projector runs on an integrated Android OS. Use the remote control or a connected mouse/keyboard to navigate the interface. You can download and install applications from the pre-installed app store (e.g., HappyCast, Play Store) or directly from APK files.

## Wireless Connectivity (WiFi & Bluetooth)

- **WiFi:** Go to Settings > Network & Internet > Wi-Fi to connect to your wireless network. This enables internet browsing and online streaming.
- **Bluetooth:** Go to Settings > Connected devices > Pair new device to connect Bluetooth speakers, headphones, or input devices.

## Screen Mirroring

### Enjoy Screen Share

Support Miracast and Airplay Wireless Display  
Send your Video and Photos to Big Screen  
Watch Movies, Enjoy Music and Play Games on the Big Screen.

The projector supports Miracast, AirPlay, and DLNA for wireless screen mirroring from compatible mobile devices. This allows you to project videos, photos, and games directly from your smartphone or tablet to the large screen.

To use screen mirroring, ensure both your mobile device and the projector are connected to the same WiFi network. Select the appropriate mirroring app on the projector (e.g., HappyCast) and follow the on-screen instructions on your mobile device.

## Media Playback via USB

Insert a USB drive into the USB port. The projector's media player will automatically detect the drive, allowing you to browse and play supported video, audio, and image files. It supports external hard drives up to 1TB.

## MAINTENANCE

---

### Cleaning

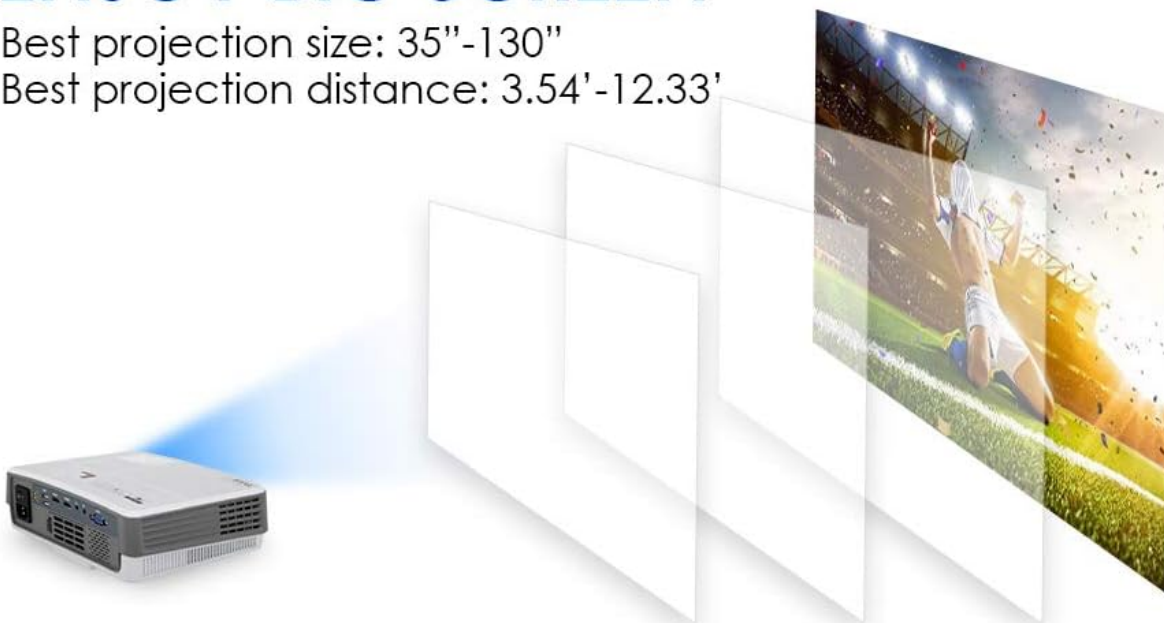

- Use a soft, dry cloth to clean the projector's exterior.
- For the lens, use a lens cleaning cloth and specialized lens cleaning solution. Do not use abrasive cleaners.
- Regularly clean the ventilation grilles to prevent dust buildup, which can affect cooling performance.

### Lamp and Cooling System

## ENJOY BIG SCREEN

Best projection size: 35"-130"

Best projection distance: 3.54'-12.33'

**± Vertical Keystone**

**Manual Focus**

The projector utilizes an LED light source with an estimated lifespan of over 50,000 hours, significantly reducing the need for lamp replacement. It features a third-generation cooling system with Maglev fans and dual copper heat dissipation tubes to ensure efficient and quiet operation, preventing overheating.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No image on screen	Power cable disconnected; incorrect input source selected; lens cap on.	Check power connection; select correct input source (HDMI, USB, VGA, AV); remove lens cap.
Image is blurry	Focus not adjusted; projector too close/far from screen.	Adjust the manual focus ring; reposition the projector within the recommended throw distance.
Image is trapezoidal	Projector not perpendicular to screen.	Adjust the vertical keystone correction.
No sound	Volume too low; external audio device not connected properly; incorrect audio output selected.	Increase volume; ensure external speakers/headphones are connected correctly; check audio settings in Android OS.
WiFi/Bluetooth connection issues	Incorrect password; device out of range; interference.	Re-enter password; move device closer; reduce interference from other electronics.
