# Artemide Pirce LED Suspension Lamp User Manual

Model: 784862011083

## INTRODUCTION

---

Thank you for choosing the Artemide Pirce LED Suspension Lamp. This manual provides essential information for the safe installation, operation, and maintenance of your new lighting fixture. The Pirce lamp is a sophisticated LED suspension lamp, designed to provide elegant and efficient illumination for indoor spaces.

## SAFETY INFORMATION

---

Please read all safety instructions carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- **Professional Installation:** Installation should only be performed by a qualified electrician in accordance with all local and national electrical codes.
- **Power Disconnection:** Always disconnect power at the circuit breaker before installing, cleaning, or servicing

the fixture.

- **Voltage Compatibility:** Ensure the supply voltage (120-277V) matches the lamp's requirements.
- **Fixture Integrity:** Do not modify the fixture in any way. Any modifications will void the warranty and may create a safety hazard.
- **Indoor Use Only:** This lamp is designed for indoor use only. Do not expose to moisture or extreme temperatures.
- **Handling:** Handle the lamp with care to avoid damage to the delicate components.
- **Cleaning:** Use a soft, dry cloth for cleaning. Do not use abrasive cleaners or solvents.

## PACKAGE CONTENTS

---

Verify that all components are present before beginning installation:

- Artemide Pirce LED Suspension Lamp fixture
- Ceiling canopy with mounting hardware
- Suspension cables (pre-attached or separate)
- Installation instructions (this manual)

## SETUP AND INSTALLATION

---

This section outlines the general steps for installing your Pirce LED Suspension Lamp. Due to the complexity and electrical nature, professional installation is highly recommended.

### 1. Preparation:

- Turn off power at the main circuit breaker.
- Unpack all components and inspect for any damage.
- Ensure the mounting surface is structurally sound and can support the weight of the fixture.

### 2. Mounting the Canopy:

- Attach the mounting bracket to the junction box in the ceiling using the provided screws.
- Connect the electrical wires (live, neutral, ground) from the ceiling to the corresponding wires on the canopy, following standard electrical wiring practices.
- Secure the canopy to the mounting bracket.

### 3. Adjusting Suspension Length:

- Carefully uncoil the suspension cables.
- Adjust the length of the suspension cables to achieve the desired hanging height. Most models allow for adjustment by pushing a pin or collar at the canopy connection point. Ensure the lamp hangs level.

### 4. Attaching the Fixture:

- Connect the fixture's electrical wires to the wires extending from the canopy, if not already pre-wired.
- Carefully lift and secure the lamp fixture to the suspension cables and canopy, ensuring all connections are firm and secure.

### 5. Final Check:

- Verify all connections are tight and secure.
- Ensure the lamp is properly aligned and stable.

- Restore power at the circuit breaker.

## OPERATING INSTRUCTIONS

The Artemide Pirce LED Suspension Lamp is designed for simple operation.

- **Power On/Off:** The lamp is controlled by a standard wall switch connected to the circuit.
- **Dimming:** This model features 2-wire dimmable control. Ensure you use a compatible dimmer switch

designed for LED lighting to achieve optimal dimming performance and avoid flickering. Consult a qualified electrician if you are unsure about dimmer compatibility.

- **Instant On:** The LED light source provides instant illumination upon activation.

## MAINTENANCE

The Pirce LED Suspension Lamp requires minimal maintenance to ensure its longevity and aesthetic appeal.

- **Cleaning:**
  - Before cleaning, ensure the lamp is turned off and has cooled down.
  - Gently wipe the lamp's aluminum and metal surfaces with a soft, dry, lint-free cloth.
  - For stubborn marks, a slightly damp cloth with mild soap can be used, followed immediately by a dry cloth. Avoid excessive moisture.
  - Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **LED Light Source:** The integrated LED light source is designed for a long lifespan and is generally not user-replaceable. If the LED fails, contact a qualified technician or Artemide customer support for service.
- **Inspection:** Periodically inspect the suspension cables and electrical connections for any signs of wear or damage. If any issues are observed, disconnect power and contact a qualified electrician.

## TROUBLESHOOTING

If you encounter issues with your Artemide Pirce LED Suspension Lamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lamp does not turn on.	<ul style="list-style-type: none"><li>◦ No power to the fixture.</li><li>◦ Loose wiring connection.</li><li>◦ Faulty switch or dimmer.</li></ul>	<ul style="list-style-type: none"><li>◦ Check circuit breaker and wall switch.</li><li>◦ Turn off power and check all wire connections.</li><li>◦ Test the switch/dimmer with another device or replace if faulty.</li></ul>
Lamp flickers or dims inconsistently.	<ul style="list-style-type: none"><li>◦ Incompatible dimmer switch.</li><li>◦ Loose wiring.</li></ul>	<ul style="list-style-type: none"><li>◦ Ensure dimmer is LED-compatible (2-wire dimmable). Replace if necessary.</li><li>◦ Turn off power and check all wire connections.</li></ul>
Lamp hums or buzzes.	<ul style="list-style-type: none"><li>◦ Incompatible dimmer switch.</li><li>◦ Electrical interference.</li></ul>	<ul style="list-style-type: none"><li>◦ Replace dimmer with a high-quality LED-compatible dimmer.</li><li>◦ Consult an electrician to check for electrical interference in the circuit.</li></ul>

If the problem persists after attempting these solutions, please contact Artemide customer support or a qualified electrician.

## SPECIFICATIONS

Key technical specifications for the Artemide Pirce LED Suspension Lamp:

- **Model:** 784862011083
- **Lamp Type:** Integrated LED
- **Lamp Wattage:** 28W
- **Color Temperature:** 2700K
- **Color Rendering Index (CRI):** >90Cri
- **Control Type:** Dimmable 2-Wire
- **Input Voltage:** 120-277V
- **Delivered Lumens:** 3160Lm
- **Material:** Aluminum, Metal
- **Finish Type:** Painted
- **Light Fixture Form:** Close to Ceiling (Suspension)
- **Indoor/Outdoor Usage:** Indoor
- **Special Feature:** Instant On
- **Power Source:** Corded Electric
- **Mounting Type:** Floor Mount *(Note: This specification from the source may refer to the overall product line or a misclassification. For a suspension lamp, it implies ceiling mounting.)*
- **Shade Material:** Glass *(Note: The primary material is Aluminum/Metal, Glass might refer to a specific component or lens.)*
- **Manufacturer:** Artemide
- **UPC:** 784862011083
