

## Beautyrest BR54-0903

# Beautyrest Heated Plush Electric Blanket User Manual

Model: BR54-0903 (Twin, Aqua)

## INTRODUCTION

Thank you for choosing the Beautyrest Heated Plush Electric Blanket. This manual provides essential information for the safe and proper use, care, and maintenance of your new heated blanket. Please read all instructions carefully before use and retain this manual for future reference.

This electric blanket features Secure Comfort Technology, designed to minimize electromagnetic field (EMF) emissions. Its soft, flexible wires and ultra-soft microlight plush fabric ensure comfort and warmth. It offers 20 heat settings and an adjustable 1-10 hour auto shut-off timer for personalized comfort and safety.

## IMPORTANT SAFETY INFORMATION

**WARNING: To reduce the risk of burns, electric shock, fire, or injury, this product must be used in accordance with the following instructions.**

- Do not use with infants, children, incapacitated persons, paraplegics, quadriplegics, diabetics, persons insensitive to heat, or anyone who cannot clearly understand the instructions and/or operate the controls.
- Do not use with a damaged cord or plug.
- Do not use if wet.
- Do not use with other heating devices.
- Do not use if folded, bunched, or balled up.
- Always ensure the controller is uncovered and not placed under the blanket or other bedding.
- This blanket is UL certified and independently tested to meet high safety standards.

## SETUP INSTRUCTIONS

1. **Unpack the Blanket:** Carefully remove the blanket and controller from its packaging. Inspect for any damage.
2. **Position the Blanket:** Lay the heated blanket flat on your bed, ensuring it is spread out evenly

without any folds or wrinkles. The connector for the controller should be positioned at the foot of the bed.

3. **Connect the Controller:** Plug the controller cord into the blanket's connector securely. Ensure a firm connection.

4. **Plug into Power:** Plug the blanket's power cord into a standard 110V-120V @60 Hz electrical outlet.

For Twin and Full sizes, one controller is included. Queen and King sizes come with two controllers.

## OPERATING INSTRUCTIONS

### Controller Features

# CONTROLLER FEATURES

**2 PRONG PLUG  
(US & CANADA ONLY)**

**110V – 120V @60 HZ  
(MAX 160W)**

**12'6" CONTROLLER CORD  
& 6' POWER CORD**

Image: A detailed view of the blanket's controller, highlighting its robust power cord, LED display for heat settings, timer for automatic shut-off, and pre-heat function button.

- **Heavy Duty Insulated Cord:** Ensures durability and safety.
- **20 Heat Setting LED Indicator:** Displays the current heat level.
- **Adjustable 1-10 Hour Auto Shut-Off Timer:** Set the blanket to turn off automatically after a desired duration (in 1-hour increments).
- **Pre-Heat Button:** Activates a 1-hour pre-heat function to warm the blanket quickly.

## Using Your Blanket

1. **Turn On:** Press the power button on the controller. The LED indicator will light up.
2. **Adjust Heat:** Use the '+' and '-' buttons to select your desired heat level from 1 to 20. The blanket delivers heat ranging from approximately 85°F to 105°F, depending on ambient room temperature.
3. **Pre-Heat Function:** Press the 'Preheat' button for a quick warm-up. This function typically runs for one hour.
4. **Set Auto Shut-Off:** Press the 'Sleep' button to cycle through the auto shut-off timer settings (1 to 10 hours). Select the desired duration.
5. **Turn Off:** Press the power button again to turn off the blanket. Always unplug the blanket from the wall outlet when not in use.

## IMPORTANT USAGE GUIDELINES (DOS AND DON'TS)

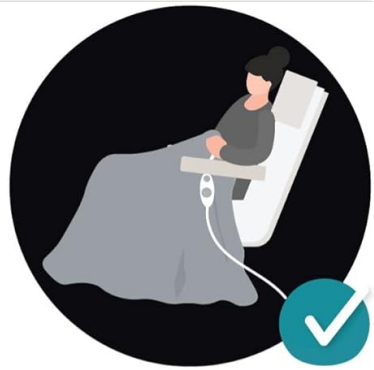

Adhering to these guidelines will ensure safe operation and extend the life of your electric blanket.

Keep Controller  
Uncovered

Keep Blanket  
Spread Out Evenly

Keep Cord Loose,  
Not Twisted & Pinched

## DOS/DON'TS

Don't Lay on  
Top of the Blanket to Prevent  
Damage to Internal Coils

Don't Ballup Your  
Blanket While On

Don't Fold your  
Blanket While On

Image: This visual guide provides essential safety and usage instructions, showing how to properly spread the blanket, keep cords untangled, and avoid common mistakes like folding or balling up the blanket while in use.

### DO:

- Keep the controller uncovered and in a well-ventilated area.
- Spread the blanket out evenly on the bed.
- Keep the power cord loose and untwisted to prevent pinching or damage.

### DON'T:

- Lay on top of the blanket directly, especially if it's folded or bunched, to prevent damage to internal coils.
- Ball up your blanket while it is turned on.
- Fold your blanket while it is turned on.
- Pinch or crimp the heating wires.

- Use pins or other metallic objects with the blanket.

## MAINTENANCE AND CARE

Proper care ensures the longevity and performance of your heated blanket.

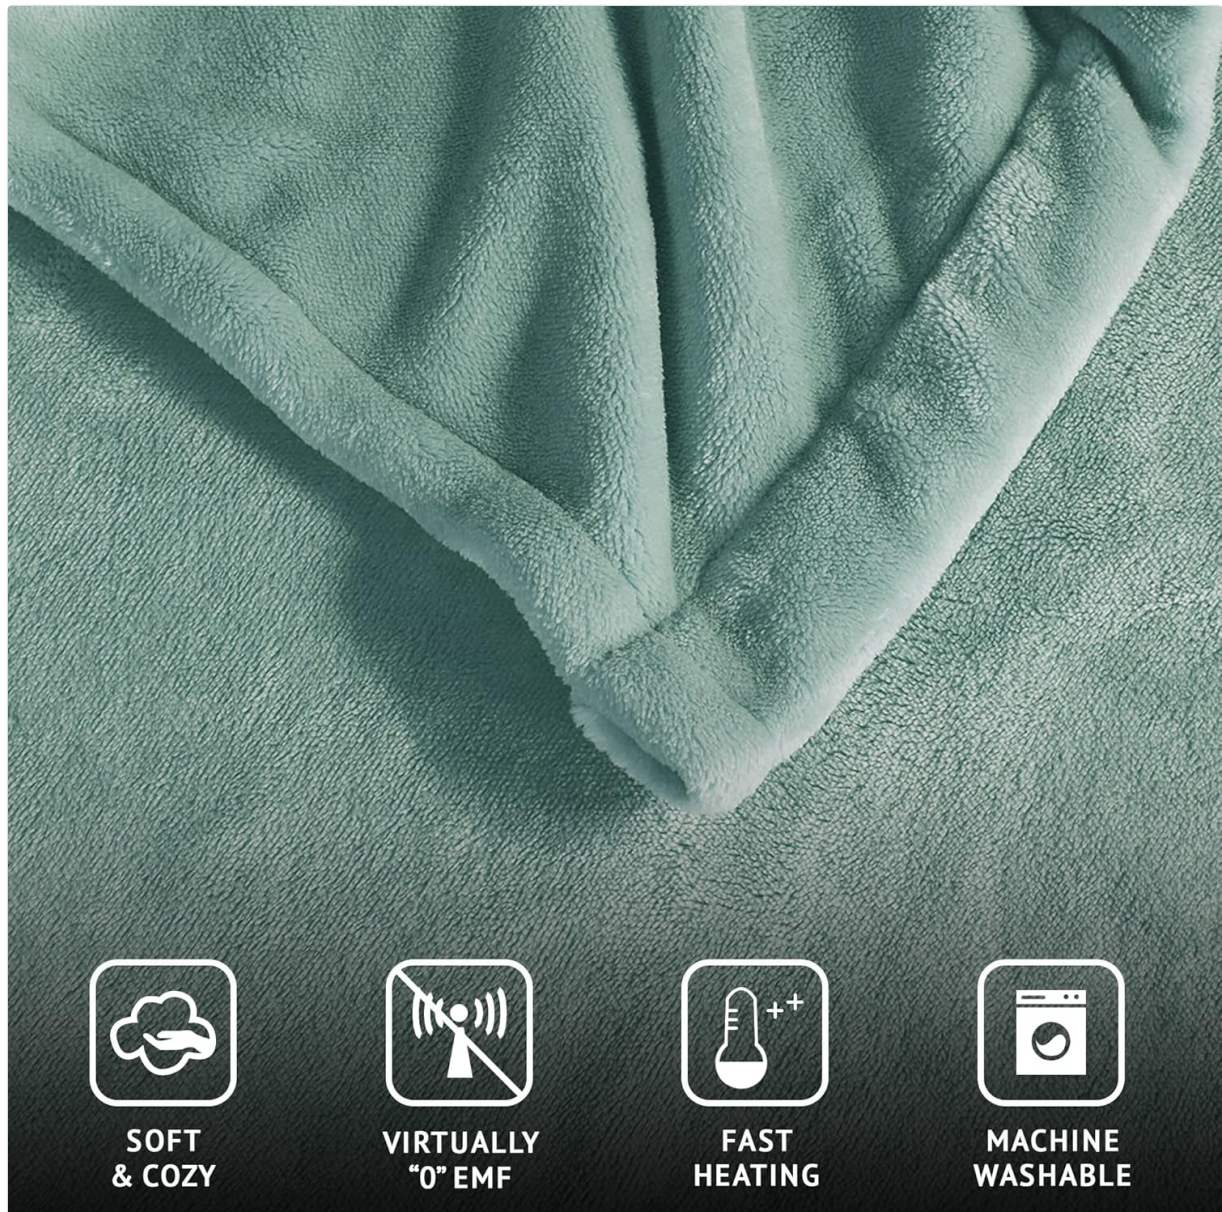

Image: This graphic highlights the primary benefits of the blanket, including its machine washable feature.

### Washing Instructions:

1. **Disconnect:** Always disconnect the controller(s) from the blanket and unplug from the wall outlet before washing.
2. **Pre-soak (Optional):** For best results, pre-soak the blanket for 15 minutes in mild soap and cold water.
3. **Machine Wash:** Machine wash on the 'delicate' or 'gentle' cycle in cold water (maximum 86°F / 30°C). Do not bleach.
4. **Rinse:** Rinse in fresh, cold water on the 'delicate' or 'gentle' cycle.
5. **Tumble Dry:** Tumble dry on low heat for 5-10 minutes. Remove while damp and gently stretch to original size.

6. **Air Dry:** Drape over a clothesline or shower rod to air dry completely. Ensure the blanket is thoroughly dry before reconnecting the controller or storing.

**Storage:**

When not in use, store the blanket in its original bag or a breathable storage container in a cool, dry place. Avoid placing heavy objects on top of the blanket to prevent damage to the internal wiring.

**TROUBLESHOOTING**

If your electric blanket is not operating correctly, please refer to the following common issues and solutions before contacting customer support.

Problem	Possible Cause	Solution
Blanket not heating or controller not turning on.	Loose connection, power outage, or controller malfunction.	Ensure the controller is securely plugged into both the blanket and the wall outlet. Check the power source. Unplug and re-plug the controller.
Controller displays an error code (e.g., E2).	Internal wiring issue, blanket bunched/folded, or controller fault.	Unplug the controller from the wall and the blanket. Let it rest for a few minutes. Ensure the blanket is spread flat. Reconnect and try again. If the error persists, contact customer support.
Blanket feels too warm or not warm enough.	Heat setting is too high/low, or ambient room temperature.	Adjust the heat setting using the '+' and '-' buttons. Remember that the blanket's perceived warmth can be affected by room temperature.

**SPECIFICATIONS**

Model Number	BR54-0903
Size	Twin (84 inches L x 62 inches W)
Color	Aqua
Material	100% Microlight Plush Polyester
Heat Settings	20 Levels
