Frigidaire EFIC120-BLKSS-SC

Frigidaire Portable Compact Ice Maker

Model: EFIC120-BLKSS-SC

Brand: Frigidaire

Introduction

Your Frigidaire Portable Compact Ice Maker is designed to provide fresh ice quickly and conveniently. Ideal for home use, parties, or any occasion where extra ice is needed, this machine offers efficient ice production in a compact design.

Product Features

- **Large Capacity:** Produces up to 26 pounds of clear ice cubes per day, with a reservoir located beneath the ice basket.

Image: The ice maker highlighting its 26 lbs daily capacity and the option for two ice cube sizes.

- **Efficient & Easy to Use:** Makes perfectly squared ice cubes in less than 6 minutes and stores up to 2.2 lbs at a time. User-friendly electronic controls ensure quick and straightforward operation.

Image: A hand interacting with the digital control panel of the ice maker.

- **Versatile Ice Sizes:** Choose between two different ice cube sizes to suit your preference.
- **Modern Design:** Features a sleek stainless steel finish and a large transparent window, allowing you to monitor ice production.

Image: A full view of the black stainless steel ice maker.

- **Intuitive Functionality:** The digital control panel indicates when the ice bin is full or when the water reservoir is empty. Once ice is ready, an indicator light flashes, and the ice falls into the provided ice bucket.

Setup

1. **Unpacking:** Carefully remove the ice maker from its packaging. Ensure all packing materials are removed.
2. **Placement:** Place the ice maker on a flat, stable surface away from direct sunlight and heat sources. Ensure adequate ventilation around the unit.
3. **Initial Cleaning:** Before first use, clean the interior of the ice maker. Remove the ice basket and wash it with mild detergent and warm water. Wipe the interior with a soft, damp cloth. Rinse thoroughly and dry.
4. **Water Fill:** Open the top lid and fill the water reservoir with potable water up to the 'MAX' fill line. Do not overfill.

Operating Instructions

1. **Power On:** Plug the ice maker into a grounded electrical outlet. Press the 'ON/OFF' button to turn on the unit. The 'POWER' indicator light will illuminate.
2. **Select Ice Size:** Press the 'SELECT' button to choose between 'S' (Small) or 'L' (Large) ice cube sizes. The corresponding indicator light will illuminate.
3. **Ice Production:** The ice maker will begin producing ice. The first batch may take slightly longer. Subsequent batches will be ready in approximately 6-9 minutes.
4. **Ice Full/Add Water Indicators:** The 'ICE FULL' indicator will light up when the ice basket is full. The unit will pause ice production until ice is removed. The 'ADD WATER' indicator will light up when the water reservoir is low. Refill the reservoir to resume ice production.
5. **Dispensing Ice:** Use the provided ice scoop to remove ice from the basket. The ice basket can also be lifted out for easier access.

Image: The ice maker with its lid open, revealing the ice basket filled with ice and the included scoop.

Maintenance

- **Daily Cleaning:** After each use, drain any remaining water from the reservoir and wipe the interior with a soft cloth. Wash the ice basket and scoop with mild soap and water.
- **Deep Cleaning:** For thorough cleaning, especially if you notice mineral buildup or unusual odors, perform a deep clean every 2-4 weeks depending on usage and water hardness. Refer to the official User Manual (PDF) for detailed descaling instructions.

Troubleshooting

- **Ice Maker Not Producing Ice:**
  - Check if the 'ADD WATER' indicator is on. If so, refill the water reservoir.
  - Ensure the unit is plugged in and powered on.
  - Verify the ambient temperature is within the recommended operating range (typically 50°F - 90°F / 10°C - 32°C).
- **'ICE FULL' Indicator On, But Basket Not Full:**

- Ice may be blocking the sensor. Gently move the ice around in the basket.
- Ensure the ice basket is properly seated.

- **Ice Cubes are Small or Clumped:**
  - Ensure the water temperature is cold. Using colder water can improve ice quality.
  - Clean the unit to prevent mineral buildup affecting ice formation.

Specifications

Feature	Detail
Product Dimensions	15"D x 11"W x 14.5"H
Capacity	26 Pounds (ice production per day)
Wattage	1000 watts
Model Name	EFIC120-BLKSS-SC
Manufacturer	Frigidaire
Country of Origin	China
