recommended for ages 12 and up. Keep out of reach of small children to prevent choking hazards.

ASSEMBLY INSTRUCTIONS

Assembling your 3D Crystal Puzzle requires patience and attention to detail. The pieces are designed to interlock precisely to form the final figures.

Step-by-Step Guide

1. **Unpack and Sort:** Carefully remove all pieces from the packaging. It is recommended to sort the pieces by shape or size if possible, though many pieces may appear similar.

2. **Identify Key Pieces:** Look for the base pieces or any pieces that clearly form the initial structure of the panda or baby panda. Some puzzles may include a small diagram or numbering on the pieces to guide the initial layers.
3. **Interlock Pieces:** Begin interlocking the pieces. The translucent nature of the pieces means you will often need to align them carefully to find the correct fit. Gentle pressure is usually sufficient; avoid forcing pieces together.

CARE AND DISPLAY

Once assembled, your BePuzzled Panda and Baby figures are designed for display. Handle them with care to maintain their integrity.

- Place the completed puzzle on a stable, flat surface.
- Avoid direct sunlight or extreme temperatures, which could potentially affect the plastic over time.
- Keep away from areas where it might be easily knocked over or damaged.

MAINTENANCE

To keep your 3D Crystal Puzzle looking its best, occasional cleaning may be necessary.

- Use a soft, dry cloth to gently wipe away dust.
- For more stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth.
- Avoid abrasive cleaners or harsh chemicals, as these can scratch or damage the plastic.

TROUBLESHOOTING

Pieces Not Fitting

- **Re-examine the Instructions:** Double-check the provided (or online) instructions or diagrams to ensure you are attempting to connect the correct pieces in the right orientation.
- **Gentle Pressure:** Pieces should fit snugly but without excessive force. If a piece does not slide in easily, it may be incorrect or misaligned.
- **Check for Obstructions:** Ensure there are no small debris or plastic burrs preventing a clean fit.
- **Online Solutions:** As mentioned, online step-by-step solutions are available and can be very helpful if you get stuck.
