Swimline 90531

Swimline Giant Soccer Ball Inflatable Pool Float User Manual

Model: 90531

1. INTRODUCTION

Thank you for purchasing the Swimline Giant Soccer Ball Inflatable Pool Float. This manual provides important information regarding the setup, operation, maintenance, and safety of your new inflatable float. Please read this manual thoroughly before use and retain it for future reference.

The Swimline Giant Soccer Ball Inflatable Pool Float is designed for recreational use in swimming pools. It features a durable vinyl construction and a large 60 x 60 inch inflated size, suitable for one adult or child aged 4 years and up.

2. SAFETY INFORMATION

WARNING: This is not a life-saving device. Do not leave children unattended while device is in use. Use only under competent supervision. Do not over-inflate or use high-pressure air to inflate. Do not use in open water or strong currents. Keep away from fire and sharp objects.

- Always supervise children when they are in or near water.
- Ensure the float is fully inflated before use.
- Do not jump or dive onto the float.
- Avoid contact with sharp objects or abrasive surfaces that could puncture the vinyl.
- Do not use in windy conditions or where strong currents are present.
- This product is intended for use in swimming pools only.

3. SETUP

3.1 Unpacking

Carefully remove the Swimline Giant Soccer Ball Inflatable Pool Float from its packaging. Inspect the float for any signs of damage or punctures. If any damage is found, do not proceed with inflation and contact customer support.

3.2 Inflation

The float is equipped with a Boston valve for easy inflation and deflation. A motorized air pump (not included) is recommended for fast and efficient inflation.

1. Locate the inflation valve on the float.
2. Open the valve cap.
3. Insert the nozzle of your air pump into the valve.
4. Inflate the float until it is firm to the touch but not rigid. Do not over-inflate, as this can damage the seams. The float should have some give when pressed.
5. Once inflated, quickly close the valve cap to prevent air leakage. Ensure the cap is securely sealed.

Figure 3.1: The Swimline Giant Soccer Ball Inflatable Pool Float. This image shows the float's design, which is a large white and blue soccer ball pattern with the word "GOAL!!!" prominently displayed.

4. OPERATING INSTRUCTIONS

4.1 Using the Float

Once fully inflated, the Swimline Giant Soccer Ball Inflatable Pool Float is ready for use in a swimming pool.

- Gently place the float onto the surface of the water.
- Carefully climb onto the float, distributing your weight evenly.
- The float is designed for lounging and relaxation. Avoid standing, jumping, or rough play on the float.

- Always ensure there is adequate space around the float to prevent collisions with pool edges or other swimmers.

Figure 4.1: The Swimline Giant Soccer Ball Inflatable Pool Float in a pool. The float is white and blue with "GOAL!!!" written on it, floating on clear blue water.

Figure 4.2: A person relaxing on the Swimline Giant Soccer Ball Inflatable Pool Float. The float is large enough to comfortably accommodate an adult.

5. MAINTENANCE

5.1 Cleaning

To clean your float, wipe it down with a damp cloth and mild soap. Rinse thoroughly with clean water and allow it to air dry completely before deflating and storing.

5.2 Storage

Proper storage will extend the life of your inflatable float.

1. Ensure the float is completely dry before deflating.
2. Open the inflation valve and allow all air to escape. You can gently press on the float to assist deflation.
3. Fold the deflated float neatly to prevent creases and damage.

4. Store the float in a cool, dry place, away from direct sunlight and extreme temperatures. Keep it away from sharp objects and pests.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Float loses air quickly	Valve not properly sealed, small puncture, or seam leak.	Ensure valve cap is tightly closed. Check for punctures by submerging the inflated float in water and looking for bubbles. If a small puncture is found, a vinyl repair kit (not included) may be used. For seam leaks, contact customer support.
Difficulty inflating	Valve obstruction, pump not powerful enough, or valve not fully open.	Ensure the valve is clear of debris and fully open. Use a motorized air pump for best results.
Float appears misshapen	Uneven inflation or over-inflation.	Deflate slightly and re-inflate evenly. Ensure not to over-inflate.

7. SPECIFICATIONS

Model: 90531

Product Name: Giant Soccer Ball Inflatable Pool Float

Brand: Swimline

Material: Heavy Duty PVC Vinyl

Inflated Dimensions: Approximately 60 x 60 inches (152 x 152 cm)

Recommended Age: 4 years and up

ASIN: B07J3FQKFC

8. WARRANTY AND SUPPORT

For warranty information or technical support, please contact Swimline customer service. Keep your purchase receipt as proof of purchase.

Swimline Customer Service: Please refer to the contact information provided on the product packaging or the official Swimline website for the most current support details.
