Brabantia Stackable Laundry Box 35L User Manual

Model: B07J495ZP3

INTRODUCTION

Thank you for choosing the Brabantia Stackable Laundry Box. This manual provides essential information for the proper setup, operation, and maintenance of your new laundry box. Designed for efficiency and convenience, this 35-liter rectangular laundry box offers a smart solution for laundry sorting and storage, especially in spaces where floor area is limited.

Its unique design features both a top lid and a front opening, allowing for easy loading and unloading of laundry. The sturdy yet lightweight construction, combined with integrated grips, ensures effortless transport. When stacked, these boxes create an organized system for separating different types of laundry.

SETUP

The Brabantia Stackable Laundry Box is designed for quick and easy setup. It arrives in a folded state for compact storage and shipping.

1. **Unfold the Box:** Carefully remove the laundry box from its packaging. Gently unfold the fabric walls until the box forms its rectangular shape.
2. **Insert the Base:** The box includes a rigid base insert. Place this insert at the bottom of the box to provide stability and maintain

its shape.

3. **Position the Lid:** Place the lid securely on top of the box. The lid is designed to fit snugly, providing a clean and enclosed appearance.

Figure 2: Unfolding the laundry box and inserting the base for structural integrity.

OPERATING INSTRUCTIONS

The Brabantia Stackable Laundry Box offers versatile options for adding and removing laundry.

Adding Laundry

- **Top Opening:** For larger items or a quick drop, lift the entire lid to access the full opening of the box.

Figure 3: Placing laundry into the box by lifting the top lid.

- **Front Opening:** For smaller items or when boxes are stacked, use the convenient front flap. Gently pull the flap down to create an opening for depositing laundry.

Figure 4: Depositing laundry through the front access flap.

Removing Laundry

- To remove laundry, you can either lift the top lid or utilize the front opening. The front opening is particularly useful for easily transferring clothes directly into a washing machine without needing to lift the entire box.

Figure 5: Transferring laundry from the box directly into a washing machine.

Stacking and Transport

- **Stacking:** Multiple Brabantia Stackable Laundry Boxes can be stacked on top of each other to create a vertical sorting system, maximizing floor space. Ensure the boxes are aligned properly for stability.

Figure 6: Demonstrating how multiple laundry boxes can be stacked to save space.

- **Transport:** The laundry box features sturdy, lightweight grips on the sides, making it easy to carry a full load of laundry to your washing machine or other locations.

Figure 7: A person carrying the laundry box using the integrated side grips.

MAINTENANCE

To ensure the longevity and hygiene of your Brabantia Stackable Laundry Box, follow these maintenance guidelines:

- **Cleaning:** The fabric exterior can be spot cleaned with a damp cloth and mild detergent. Avoid harsh chemicals or abrasive cleaners, as these may damage the material. Allow to air dry completely before use.
- **Ventilation:** To prevent odors, especially when storing damp items, it is recommended to occasionally leave the top lid or front flap open to allow for air circulation.
- **Storage:** When not in use, the box can be folded flat for compact storage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Box does not hold its shape.	Base insert not properly placed.	Ensure the rigid base insert is fully extended and flat at the bottom of the box.
Unpleasant odor develops.	Lack of ventilation; damp clothes stored.	Empty the box regularly. Leave the top lid or front flap open periodically to allow air circulation. Ensure clothes are not excessively damp before placing them in the box. Clean the interior if necessary.
Front flap feels loose.	Repeated use may cause slight loosening.	Gently adjust the flap's position. The design is intended for easy access, and minor looseness is generally not a functional issue.
Boxes are unstable when stacked.	Improper alignment or uneven load.	Ensure each box is placed squarely on the one below it. Distribute laundry evenly within each box to maintain balance. Avoid stacking more than recommended.

SPECIFICATIONS

Model: B07J495ZP3

Brand: Brabantia

Capacity: 35 Liters

Color: Green

Material: Fabric

Product Dimensions (L x W x H): 14.57" x 14.57" x 17.52" (37cm x 37cm x 44.5cm)
