

Leitz 80040000

Leitz IQ Office Pro P5+ Micro Cut Shredder

Model: 80040000

1. INTRODUCTION

The Leitz IQ Office Pro P5+ Shredder is designed for secure and efficient document destruction in office environments. Featuring advanced micro-cut technology, it ensures a high level of security for your confidential information. This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your shredder.

2. SAFETY INFORMATION

General Safety Precautions

- Read all instructions before use.
- Keep hands, hair, loose clothing, and ties away from the paper entry slot.
- Keep children and pets away from the shredder.
- Do not insert more sheets than specified (7-8 sheets A4, 70-80 gsm).
- Do not shred metal objects, plastic cards, or adhesive labels unless explicitly stated as compatible. This shredder is designed for paper, staples, and paper clips.
- Empty the waste bin regularly to prevent jams.

Electrical Safety

- Ensure the power outlet matches the voltage requirements of the shredder.
- Do not use the shredder if the power cord is damaged.
- Unplug the shredder before moving, cleaning, or performing maintenance.
- Avoid placing the shredder near water or in damp environments.

3. PRODUCT OVERVIEW

Key Features

- **Micro Cut Security (DIN P5+):** Shreds documents into tiny 2x5mm particles for enhanced security.
- **High Capacity:** Shreds up to 7-8 sheets of A4 paper (70-80 gsm) per pass.
- **Large Waste Bin:** 30-liter removable bin holds up to 350 shredded sheets.
- **Anti-Jam Technology:** Automatically reverses if too much paper is inserted, preventing jams.
- **Quiet Operation:** Designed for a calm working environment.
- **Extended Run Time:** Operates continuously for up to 4 hours (240 minutes).
- **Intuitive Touch Controls:** Easy-to-use interface for simple operation.

Image: Close-up view of the shredder's control panel with touch buttons and the fine micro-cut shredded paper in the bin.

4. SETUP

Unpacking

1. Carefully remove the shredder from its packaging.
2. Remove any protective materials or plastic bags.
3. Ensure all components are present, including the shredder unit and waste bin.

Image: The Leitz IQ Office Pro P5+ Shredder next to its instruction manual, indicating the contents of the package.

Placement

- Place the shredder on a flat, stable surface.
- Ensure there is adequate space around the shredder for ventilation and easy access to the waste bin.
- Position the shredder near a power outlet.

Power Connection

1. Insert the waste bin securely into the shredder unit.
2. Plug the power cord into a grounded electrical outlet.
3. The shredder is now ready for operation.

5. OPERATING INSTRUCTIONS

Shredding Documents

1. Ensure the shredder is plugged in and the waste bin is correctly inserted.
2. Turn on the shredder using the power button on the control panel.
3. Insert up to 7-8 sheets of A4 paper (70-80 gsm) into the paper entry slot. The shredder will automatically start shredding.
4. The shredder can also handle small staples and paper clips.
5. For optimal performance and quiet operation, consider using Leitz pre-lubricated paper.

Image: The shredder with visual indicators for its 7-sheet capacity and 30-liter waste bin, highlighting its efficiency.

Anti-Jam Technology

The Leitz IQ Office Pro P5+ Shredder features advanced anti-jam technology. If too much paper is inserted, the shredder will automatically reverse to clear the jam. Remove the excess paper and re-insert a smaller quantity.

2+1^{*} YEAR

GUARANTEE

^{*} by registering

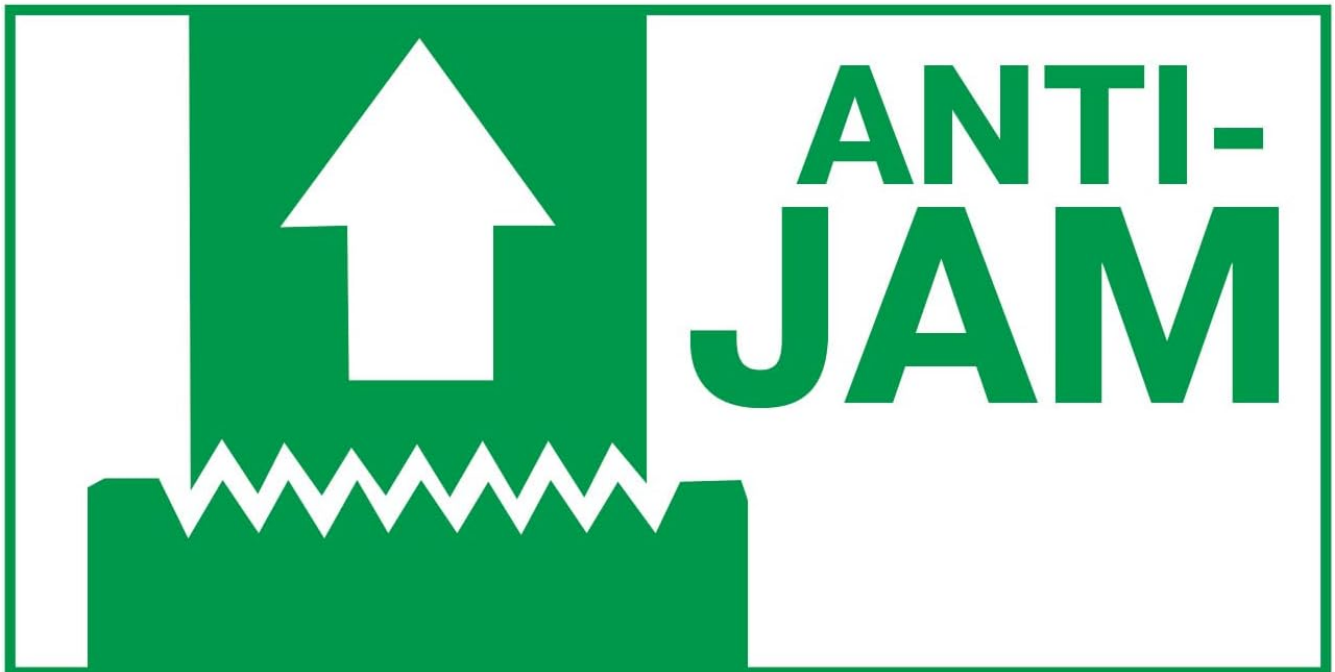

Image: Graphic illustrating the Anti-Jam feature and the 2+1 year guarantee offered with the shredder.

Emptying the Waste Bin

1. When the waste bin is full, the shredder will stop operating.
2. Pull out the removable waste bin from the front of the shredder.
3. Dispose of the shredded paper.
4. Reinsert the waste bin firmly until it clicks into place. The shredder will then be ready for use again.

6. MAINTENANCE

Cleaning

- Always unplug the shredder before cleaning.
- Wipe the exterior of the shredder with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Periodically clean the paper entry area to remove any paper dust or debris.

Lubrication

To maintain optimal performance and extend the life of your shredder, it is recommended to lubricate the cutting blades regularly. Use shredder oil or lubrication sheets specifically designed for paper shredders. Follow the instructions provided with the lubrication product.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Shredder does not turn on.	Not plugged in; Waste bin not fully inserted; Overheat protection activated.	Check power connection; Ensure bin is correctly seated; Allow shredder to cool down for 30-60 minutes.
Paper jam.	Too much paper inserted; Paper not inserted straight.	Use the reverse function to clear the jam; Remove excess paper; Insert fewer sheets straight into the slot.
Shredder stops during operation.	Waste bin is full; Overheat protection activated.	Empty the waste bin; Allow shredder to cool down.
Shredder is noisy.	Needs lubrication.	Lubricate the cutting blades with shredder oil.

8. SPECIFICATIONS

Feature	Detail
Model Number	80040000
Brand	Leitz
Cut Type	Micro Cut
Security Level	DIN P5+
Shred Size	2x5mm
Sheet Capacity	7-8 sheets (A4, 70-80 gsm)
Waste Bin Capacity	30 Liters

Feature	Detail
Continuous Run Time	240 minutes (4 hours)
Compatible Materials	Paper documents, staples, paper clips
Dimensions (HxLxP)	58.9 x 40.6 x 32 cm
Weight	22 kg
Material	Plastic

June 2017
Terms of warranty for products from Esselte AS

The following conditions, which describe the requirements and the extent of our warranty service, do not affect your legal rights, especially the seller's warranty obligations caused by the sales contract with the end consumer. These warranty conditions are valid for all the enclosed mentioned products, worldwide bought, of the company Esselte AS.

1. Warranty period and start of the warranty

The warranty starts with date of purchase and lasts for 3 years, please see the list in this document for all our products and there respective warranty.

Benefits that we render due to this warranty do not affect an extension of the warranty time.

2. Content and extent of the warranty

Product defects that are due to material or production faults will be eliminated by the choice of Esselte AS through either repair or replacement delivery of necessary against an equivalent product, having the same or comparable quality.

In case of a replacement delivery the belongings of the related product will be transferred to Esselte AS. The warranty does not allow any claims for compensation beyond towards Esselte AS.

3. Conditions and use of the warranty

The warranty applies e.g. in accordance of the valid safety regulations respectively the enclosed user manual (important use as well as incorrect operation or treatment of the product e.g. not using cutters/blade/trimmer staples or use of wrong kind of staples for staplers) stapling plates or exceeding the allowed max. loading capacity of the OfficePro staplers and counters for the sale of a ring binder products, the punching of e.g. clip files etc. with the hole punches, the insert of extraneous materials in the lamination machines instead of the common lamination foil.

Product faults have to be complained immediately after detection and within the warranty time at the dealer, where the product has been purchased. Alternatively, demands out of this warranty can be made on Esselte AS at the following contact details:

Esselte AS
Bismarstr. 82Z
9581 Oels
Telephone: +47 21 61 11 00
Email: kundservice@esselte.com

4. Limitation of the warranty

The 3-year warranty is limited to lower each files and registers on the mechanics.

The punching pieces of the perforator 3382 are excluded from the 30-year warranty.

The warranty is not valid in case of faults, that are causally induced by:

a) Incorrect installation e.g. in accordance of the valid safety regulations respectively the enclosed user manual (important use as well as incorrect operation or treatment of the product e.g. not using cutters/blade/trimmer staples or use of wrong kind of staples for staplers) stapling plates or exceeding the allowed max. loading capacity of the OfficePro staplers and counters for the sale of a ring binder products, the punching of e.g. clip files etc. with the hole punches, the insert of extraneous materials in the lamination machines instead of the common lamination foil.

b) External influences e.g. transportation damages, which are not covered by us.

c) Executed repairs or changes in a product, which have not been executed from Esselte AS or an authorized customer service.

d) Non-observance of the care and cleaning work according to manual, e.g. no or not enough oiling/trimming of the punching stamps of the hole punches or missing or insufficient cleaning of the rolls of the lamination machines by means of cleaning rollers.
