KADAMS Digital Bathroom Shower Kitchen Clock Timer

Model: B07J5XVFPK | Brand: KADAMS

WELCOME TO YOUR KADAMS CLOCK TIMER MANUAL

This manual provides comprehensive instructions for the setup, operation, and maintenance of your KADAMS Digital Bathroom Shower Kitchen Clock Timer. Please read through this guide carefully to ensure optimal performance and longevity of your device.

KEY FEATURES

- **Efficient Time Management:** LCD touch display for daily schedule tracking.
- **Water Resistant & Versatile:** IP24 rating suitable for bathrooms, kitchens, homes, and offices.
- **Countdown Timer & 12/24-Hour Clock:** Displays time and functions as a waterproof shower countdown timer with alarm capabilities up to 99 minutes.
- **Temperature & Humidity Monitoring:** Monitors temperature (0C-50C / 32F-122F) and humidity (20%-95%), with Celsius/Fahrenheit switch.
- **Flexible Installation:** Three methods – stand, wall mount, or suction cup – for placement on vanity benches, desks, walls, mirrors, and more.

SETUP GUIDE

Battery Installation

Your KADAMS Clock Timer requires 2 AAA batteries (not included). To install:

1. Locate the battery compartment on the back of the unit.

2. Open the battery cover.
3. Insert 2 AAA batteries, ensuring correct polarity (+/-).
4. Close the battery cover securely.

Placement Options

The KADAMS Clock Timer offers multiple versatile placement options:

- **Stand:** Use the integrated fold-out stand for tabletop placement on vanity benches, desks, or shelves.
- **Suction Cup:** Attach the included suction cup to smooth, non-porous surfaces like mirrors or glass. Ensure the surface is clean and dry for optimal adhesion.
- **Wall Mount (Keyhole):** Utilize the keyhole slot on the back for hanging on a screw or nail.
- **Magnetic Pad:** The clock can be attached to magnetic surfaces, such as refrigerators, using its magnetic backing.

Stick Anywhere, Time Anywhere Magnetic Pads for Easy Placement

OPERATING YOUR KADAMS CLOCK TIMER

Setting Time (12/24-Hour Format)

To set the time and switch between 12-hour and 24-hour (military) formats:

1. On the back of the unit, locate the 'TIME' button.
2. Press the 'TIME' button once quickly to toggle between 12-hour (AM/PM) and 24-hour formats.
3. To adjust the time, press and hold the 'TIME' button until the digits flash. Use the '+' and '-' buttons (often integrated with the 10 and 1 minute timer buttons) to set the hours and minutes. Press 'TIME' again to confirm each setting.

Using the Countdown Timer

The countdown timer can be set for up to 99 minutes.

1. **Add Minutes:** Press the '10' button to add 10 minutes to the timer. Press the '1' button to add 1 minute.
2. **Start/Pause:** The timer starts automatically after a few seconds of inactivity or by pressing a

timer button again. Press any timer button to pause the countdown.

3. **Clear Timer:** Press the 'CLEAR' button to reset the timer to zero.

4. **Alarm:** An audible alarm will sound when the countdown reaches zero.

Temperature and Humidity Display

The clock continuously displays the indoor temperature and humidity. The temperature can be switched between Celsius (C) and Fahrenheit (F).

1. To switch temperature units, locate the C/F button on the back of the unit and press it.
2. The humidity is displayed as a percentage (RH).

MAINTENANCE

Cleaning

To clean your KADAMS Clock Timer, wipe it gently with a soft, damp cloth. Do not use abrasive cleaners or immerse the unit in water.

Battery Replacement

When the display dims or functions become erratic, it is time to replace the batteries. Follow the battery installation steps outlined in the Setup Guide. Always use fresh AAA batteries and dispose of old batteries responsibly.

TROUBLESHOOTING

| Issue | Possible Cause / Solution |
|-------|---------------------------|
|-------|---------------------------|

| Issue | Possible Cause / Solution |
|---|--|
| Display is dim or blank. | Batteries are low or incorrectly installed. Replace with fresh AAA batteries, ensuring correct polarity. |
| Clock resets to factory settings or beeps non-stop. | This may indicate a power issue or internal malfunction. Ensure batteries are fresh and properly seated. If the issue persists, contact customer support. Avoid direct water spray on the unit, even though it is water-resistant. |
| Timer buttons are unresponsive or trigger accidentally. | Ensure your fingers are dry when using the touch-sensitive buttons. Excessive water on the screen may cause unintended inputs. Clean the screen surface. |
| Suction cup is not holding. | Ensure the surface is clean, dry, and smooth (non-porous). Press firmly to remove air bubbles. For best results, moisten the suction cup slightly before application. |
| Temperature/Humidity readings seem inaccurate. | Allow the unit to stabilize in its environment for at least 30 minutes. Ensure it is not placed near direct heat sources, vents, or in direct sunlight. |

PRODUCT SPECIFICATIONS

| Feature | Detail |
|-------------------|---|
| Model | B07J5XVFPK |
| Brand | KADAMS |
| Display Type | LCD |
| Power Source | 2 x AAA Batteries (not included) |
| Item Weight | 134 Grams |
