OKZU 5000mAh USB Power Bank C0509T Instruction Manual

Model: C0509T

INTRODUCTION

This manual provides detailed instructions for the safe and efficient use of your OKZU 5000mAh USB Power Bank, model C0509T. Please read this manual thoroughly before using the product and retain it for future reference.

PRODUCT OVERVIEW

The OKZU 5000mAh USB Power Bank is a compact and lightweight portable charger designed to provide power to various electronic devices, including smartphones, tablets, and heated clothing. Its slim design makes it easy to carry.

Key Features:

- **Slim and Lightweight:** Weighs only 100g, ultra-thin and compact for easy portability.
- **Compact Size with High Capacity:** 5000mAh capacity, capable of charging an iPhone 13 approximately 1.1 times, a Samsung Note 10 0.7 times, a Huawei P50 0.8 times, and AirPods Pro 6 times.
- **Universal Compatibility:** Compatible with a wide range of devices including iPhone 13/12/11/Pro/Max/XS/XR/X/10/8/7/6 Plus, Samsung Galaxy S7/S7 Edge/S8/S8+/S9/S9+/S10/S10+, Huawei, Android devices, and heated clothing.
- **Smart Safety Protection:** Features a high-quality Li-polymer cell with a multi-protection microchip system, offering protection against overcharge, over-discharge, over-voltage, over-current, and short-circuit.

Package Contents:

- 1 x OKZU 5000mAh Portable Power Bank
- 1 x Micro USB Cable

- 1 x User Manual

Figure 1: Package Contents. The image displays the power bank, a micro USB charging cable, and the user manual, all included in the product packaging.

Figure 2: Slim and Lightweight Design. This image highlights the compact dimensions (3.5 x 2.3 x 0.49 inches) and light weight (100g / 0.22 lb) of the power bank, emphasizing its portability.

Universal Compatibility

Figure 3: Universal Compatibility. The power bank is shown alongside multiple smartphones and a heated jacket, illustrating its ability to charge a wide range of devices.

SETUP

Before first use, fully charge your OKZU Power Bank.

Identifying Ports:

5V/2A 5000mAh Power Bank

Figure 4: Power Bank Ports. This image details the available ports: Lightning input (5V/2A), USB-C input/output (5V/2A), and USB-A output (5V/2A).

1. Charging the Power Bank:

- Connect the provided Micro USB cable to the Micro USB input port on the power bank.
- Connect the other end of the Micro USB cable to a USB wall adapter (not included) or a computer's USB port.
- The LED indicators on the power bank will illuminate to show the charging status. All four LEDs will be solid when fully charged.
- Alternatively, you can use a USB-C cable to charge the power bank via its USB-C input/output port.

OPERATING INSTRUCTIONS

Charging Your Devices:

1. Ensure your power bank is sufficiently charged. Check the LED indicators for the current battery level.
2. Connect your device's charging cable to the appropriate output port on the power bank (USB-A or

USB-C).

3. Connect the other end of the cable to your device.
4. The power bank will automatically begin charging your device. If not, press the power button once to initiate charging.
5. The LED indicators will show the remaining power in the power bank during device charging.

Figure 5: Device Charging Capacity. This image illustrates the approximate number of charges the 5000mAh power bank can provide for different devices.

LED Indicator Guide:

The power bank features four LED indicators to display the remaining battery capacity:

- **4 LEDs Solid:** 75% - 100% charged
- **3 LEDs Solid:** 50% - 75% charged
- **2 LEDs Solid:** 25% - 50% charged
- **1 LED Solid:** 0% - 25% charged (recharge soon)

MAINTENANCE

- Keep the power bank away from water, moisture, and extreme temperatures.
- Avoid dropping or subjecting the power bank to strong impacts.
- Clean the power bank with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use. For long-term storage, it is recommended to charge the power bank to about 50% every three months to maintain battery health.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging.	Cable not connected properly; faulty cable; power source issue.	Ensure cables are securely connected. Try a different charging cable or power adapter. Verify the power source is active.
Device not charging from power bank.	Power bank battery low; incorrect cable; device not compatible; power bank in standby.	Check power bank's LED indicators. Use the correct charging cable for your device. Press the power button on the power bank to activate charging.
Slow charging.	Low output current from power bank; high power consumption by device; cable quality.	Ensure the power bank is fully charged. Use a high-quality charging cable. Avoid using the device heavily while charging.

SPECIFICATIONS

Feature	Detail
Model Number	C0509T
Brand	OKZU
Battery Capacity	5000 mAh
