Cync CLEDA199L2/ST2P

GE CYNC Smart LED Light Bulb A19 Soft White (2-Pack) Instruction Manual

Brand: Cync | Model: CLEDA199L2/ST2P

INTRODUCTION

The Cync Smart LED Light Bulbs provide convenient control over your home lighting. These Soft White A19 bulbs are Bluetooth enabled and compatible with Amazon Alexa and Google Home when paired with a Cync or C by GE Smart Plug Hub (sold separately). Enjoy features like dimming, scheduling, and voice control to create the perfect ambiance in any room.

SETUP

Setting up your Cync Smart LED Light Bulbs is a straightforward process. You can choose to set them up using the Cync App or directly with Amazon Alexa or Google Home.

Initial Installation

1. **Screw in the Bulb:** Carefully screw the Cync Smart LED Light Bulb into a standard E26 medium base socket.
2. **Power On:** Turn on the light switch to provide power to the bulb.

App-Based Setup (Recommended for Full Features)

1. **Download the Cync App:** Download the Cync app from your smartphone's app store (iOS or Android).
2. **Add Devices:** Open the Cync app and follow the on-screen instructions to add your new smart bulbs.
3. **Optional: Connect to Voice Assistant:** To enable voice control and out-of-home control, pair your Cync Smart Light Bulbs with a Cync or C by GE Smart Plug Hub (sold separately) within the Cync app.

Direct Setup with Amazon Alexa or Google Home

For basic control without the Cync app, you can set up your bulbs directly with your voice assistant:

1. **Screw in and Power On:** Install the bulb and turn on the power.
2. **Voice Discovery:** Say, "Alexa, discover my devices" or "Hey Google, discover devices." Your voice assistant should find the new light.
3. **Begin Control:** Once discovered, you can begin using your lights with voice commands.

Connecting Cync Devices to Alexa

Your browser does not support the video tag.

Video: This video provides a step-by-step guide on how to connect your Cync Smart Light Bulbs with Amazon Alexa for voice control and smart home integration.

OPERATING INSTRUCTIONS

Once your Cync Smart LED Light Bulbs are set up, you can enjoy a range of smart features:

- **Dimming:** Adjust the brightness of your Soft White bulbs to create the perfect mood for any occasion using the Cync app or voice commands.
- **Scheduling:** Set schedules for your lights to turn on and off automatically. This can help you save energy and ensure you never come home to a dark house.
- **Scenes:** Create custom lighting scenes for different activities or times of day, such as "Movie Night" or "Everyday Light."
- **Voice Control:** Use Amazon Alexa or Google Home to control your lights with simple voice commands (e.g., "Alexa, turn on living room lights" or "Hey Google, dim bedroom light to 50%").
- **Out-of-Home Control:** Control your lights from anywhere using the Cync app, provided you have a Cync or C by GE Smart Plug Hub (sold separately) for full functionality.

Brighten + Dim

Adjust brightness to create the perfect mood lighting.

Schedule, Set Scenes + Group

Schedule lights to turn lights on and off automatically, create lighting scenes for movie night or bedtime and control multiple bulbs together.

Control Away from Home*

Turn lights on or off from your phone when you're not home.

Hands-Free Voice Control*

Use your voice to adjust brightness and turn lights on and off.

*Out of home and voice control require pairing to a C-Reach Smart Bridge and voice assistant (sold separately)

EASILY SET UP YOUR C BY GE SMART BULBS

①

Download the C by GE app.

②

Screw in your C by GE Smart Bulbs and turn on.

③

Tap the "+" icon and follow the set up instructions in the C by GE app.

To set up voice and out of home control, pair your C by GE Smart Bulbs in the C by GE app with a C-Reach Smart Bridge and a voice assistant (sold separately).

and remote control.

Using Color Lights in a Dynamic Way (General Smart Lighting Concepts)

While these specific bulbs are Soft White, Cync offers full-color bulbs. The principles of creating dynamic lighting scenes apply broadly to smart lighting systems. This video demonstrates how to leverage smart lighting for various moods and occasions.

Your browser does not support the video tag.

Video: This video illustrates how to use Cync color lights to create custom scenes for parties, holidays, movie nights, or everyday lighting, saving your favorite settings for easy access.

Avoiding a Dark House with Smart Lighting

Utilize the scheduling features of your Cync Smart Light Bulbs to ensure your home is always welcoming, even when you're not there. Set your lights to turn on automatically as it gets dark.

Video: This video demonstrates how to use Cync smart switches and plugs to automatically turn on lights around sunset, ensuring you never come home to a dark house.

MAINTENANCE

Cync Smart LED Light Bulbs are designed for long-lasting performance with minimal maintenance.

- **Cleaning:** Ensure the bulb is off and cool before cleaning. Wipe with a soft, dry cloth. Do not use liquid or abrasive cleaners.
- **Life Expectancy:** Based on 3 hours of use per day, these bulbs have an average life of approximately 13.7 years (15,000 hours).
- **Energy Efficiency:** These 9.5-watt LED bulbs provide light output equivalent to a 60-watt incandescent bulb, offering significant energy savings. Estimated yearly energy cost is \$1.14 (based on 3 hrs/day, 11¢/kWh).

Lighting Facts Per Bulb	
Brightness	760 lumens
Estimated Yearly Energy Cost \$1.14	
Based on 3 hrs/day, 11¢/kWh Cost depends on rates and use	
Life	13.7 years
Based on 3 hrs/day	
Light Appearance	
Warm Cool  2700 K	
Energy Used	9.5 watts

TROUBLESHOOTING

- **Bulb Not Responding:** Ensure the light switch is in the ON position. Check your Wi-Fi connection and ensure your smartphone or voice assistant is connected to the same network.
- **Voice Control Issues:** For full voice and out-of-home control with Alexa or Google Home, a Cync or C by GE Smart Plug Hub (sold separately) is required. Ensure your hub is properly set up and connected.
- **Alexa/Google Home Not Discovering Devices:** Try saying, "Alexa, discover my devices" or "Hey Google, discover devices" again. If you've added new lights, moved lights, or added new rooms, you must rediscover devices.
- **App Connectivity Problems:** Ensure your Cync app is updated to the latest version. Restarting your smartphone or the Cync app may resolve minor connectivity issues.
- **Incompatible with Dimmers:** These smart bulbs are dimmable via the app or voice control, but they are not compatible with standard in-wall dimmers. Do not use with photosensors, motion sensors, or timers not integrated with the Cync system.
