Simple Houseware CO-001-3

Simple Houseware Stackable 3-Tier Can Organizer Rack

Model: CO-001-3

INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your Simple Houseware Stackable 3-Tier Can Organizer Rack. Designed for efficient storage, this rack helps organize canned goods, soda cans, or mason jars in your pantry, cabinet, or countertop.

IMPORTANT SAFETY INFORMATION

- **Do not overload the rack.** Ensure it is properly supported and stable before use.
- Always follow the manufacturer's guidelines for weight limits and proper installation.
- Ensure the rack is placed on a flat, stable surface to prevent tipping.
- When stacking multiple units, ensure plastic clips are securely fastened.

IMPORTANT: Check Before Purchasing: This is a large-sized product. Dimensions: 11.5" D x 17" W x 13.75" H. It requires at least 12" D x 17.5" W x 16" H of space for optimal fit and functionality.

ENSURE IT FITS

PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Metal Frame (Pre-assembled, foldable)
- 6 x Movable Plastic Dividers
- 4 x Anti-slip Rubber Feet
- Plastic Clips (for stacking, if applicable)

ASSEMBLY INSTRUCTIONS

The Simple Houseware Can Organizer Rack is designed for quick and easy assembly without the need for tools or hardware. The process typically takes about one minute.

1. **Unfold the Frame:** Carefully unfold the metal frame until it forms the three-tiered structure. Ensure all sections lock into place.
2. **Attach Rubber Feet:** Place the four anti-slip rubber feet onto the bottom corners of the rack. This provides stability and protects surfaces.

- 3. Insert Dividers:** Position the 6 movable plastic dividers into the desired slots on each tier. These dividers help separate different can sizes and prevent rolling.
- 4. Stacking (Optional):** If you have multiple units and wish to stack them, align the top unit's feet with the designated slots on the bottom unit. Secure them using the provided plastic clips.

OPERATION AND USAGE

This can organizer is designed for convenient access and efficient rotation of your canned goods.

- **Loading Cans:** Place cans onto the top of each angled shelf. The cans will roll forward automatically.
- **First-In-First-Out (FIFO):** When you remove a can from the front, the next can in line will roll forward, ensuring older cans are used first.
- **Adjustable Dividers:** Utilize the movable plastic dividers to customize the width of each lane, accommodating various can or jar sizes (recommended can diameter 2-4 inches, height 2.3-5 inches).
- **Capacity:** Each rack can hold up to 36 standard-sized cans.

MAINTENANCE

To ensure the longevity and cleanliness of your can organizer:

- **Cleaning:** Wipe the metal frame and plastic dividers with a dry cloth as needed. Avoid abrasive cleaners that may damage the finish.
- **Inspection:** Periodically check the rack for any signs of wear or damage. Ensure all connections and clips (if stacked) remain secure.
