ZoneFly 8541988568

ZoneFly Condensation Collector Cup Replacement User Manual

For Instant Pot DUO, ULTRA, and LUX Series (5, 6, 8 Quart Models)

1. INTRODUCTION

The ZoneFly Condensation Collector Cup is a replacement component designed to effectively collect condensation and excess liquid that may be released from your Instant Pot during the cooking process. This ensures a cleaner cooking environment and helps maintain the integrity of your appliance.

Image 1.1: Two ZoneFly Condensation Collector Cups, with one demonstrating proper installation on an Instant Pot.

2. PRODUCT COMPATIBILITY

This condensation collector cup is specifically designed for use with various Instant Pot models. Please verify your Instant Pot model and size before installation to ensure proper fit and function.

2.1 Compatible Models:

- Instant Pot DUO Series (5 Quart, 6 Quart, 8 Quart)
- Instant Pot ULTRA Series (5 Quart, 6 Quart, 8 Quart), including Ultra 60
- Instant Pot LUX Series (5 Quart, 6 Quart, 8 Quart), including LUX80
- Specific models: DUO60, DUO80, DUO89

2.2 Incompatible Models:

- All Instant Pot 3 Quart models
- Instant Pot LUX 8 Quart (specific fitment issues reported for some LUX 8qt models, please check shape)
- Instant Pot DELUX models

DOES NOT FIT 3quart MODEL- PLEASE TAKE NOTE

DESIGNED FOR:

Instant Pot DUO 6 quart and 8 quart

Instant Pot Ultra 6 quart and 8 quart

Instant Pot LUX 6 quart and 8 quart

3. SETUP AND INSTALLATION

Follow these steps to correctly install the condensation collector cup on your Instant Pot:

1. Locate the condensation collector slot at the rear of your Instant Pot. This slot is typically found near the bottom of the appliance's main body.
2. Align the top edge of the condensation collector cup with the guides present on the cooker's slot. The cup is designed to slide into place.
3. Gently press the cup inwards until it is securely seated in the slot. Ensure it feels firm and does not easily dislodge.

Install the condensation collector at the rear of the cooker by aligning the top of the collector with the guides on the cooker and press in.

Image 3.2: The Instant Pot with the condensation collector cup properly installed in a kitchen environment.

4. OPERATING PRINCIPLE

During pressure cooking or other functions, steam and moisture are generated within the Instant Pot. As the steam condenses, any excess liquid that drips from the lid or rim of the pot is directed into the condensation collector cup, preventing it from pooling on your countertop or inside the appliance's base.

Designed to collect liquid that may be released from the pot

5. MAINTENANCE AND CLEANING

Regular cleaning of the condensation collector cup is essential to maintain hygiene and prevent odors. The cup is designed for easy removal and cleaning.

5.1 Cleaning Instructions:

- Carefully remove the condensation collector cup from its slot at the rear of the Instant Pot.
- Empty any collected liquid.
- Wash the cup with warm, soapy water. A small brush may be used to clean any crevices.
- Alternatively, the cup is dishwasher safe for convenient cleaning.
- Ensure the cup is completely dry before re-installing it.

The ZoneFly Condensation Collector Cup is made from BPA-free, non-toxic plastic, ensuring safety for food contact and durability.

7. TROUBLESHOOTING

While the ZoneFly Condensation Collector Cup is designed for a precise fit, minor issues can sometimes occur.

7.1 Common Issues and Solutions:

- **Cup does not fit or is loose:** Double-check the compatibility section (Section 2) to ensure your Instant Pot model and size are listed as compatible. Verify that the cup is aligned correctly with the guides before pressing it into place. Ensure no debris is obstructing the slot.
- **No liquid collected:** This is normal if your cooking process does not generate significant condensation. If you suspect an issue, ensure the cup is installed correctly and that the Instant Pot lid gasket is properly seated, as a faulty gasket could cause steam to escape elsewhere.

8. WARRANTY AND SUPPORT

Specific warranty information for the ZoneFly Condensation Collector Cup is not provided in this manual. For any product-related inquiries, support, or warranty claims, please contact ZoneFly directly through their official channels or the retailer from whom the product was purchased.
