VIVO DESK-KIT-2E1B

VIVO Electric 63 x 32 in Standing Desk Instruction Manual

Model: DESK-KIT-2E1B | Brand: VIVO

Product Overview

The VIVO Electric Standing Desk (Model DESK-KIT-2E1B) offers a versatile and ergonomic workspace solution. Designed for seamless transitions between sitting and standing, this desk features a powerful electric motor, a spacious 63 x 32 inch desktop, and a memory controller for personalized height adjustments. Its robust all-steel construction ensures stability and durability for various office setups.

Key Features

- **Instant Active Standing:** Transition effortlessly from sitting to standing positions, promoting better posture and energy levels throughout your workday.
- **Spacious 3-Piece 63" Top:** A large 63.1” x 31.5” (28” at center) particle board desktop provides ample space for multiple monitors, office supplies, and personal items. Note: All three sections of the desktop must be used for proper assembly and stability.
- **Powerful Electric Motor:** Smooth and quiet height adjustments from 25.3” to 51” are powered by a reliable electric

motor, supported by strong 3-stage legs for extended height range.

- **Strong Frame Support:** Constructed with all-steel components, the desk frame supports up to 176 lbs, ensuring maximum stability for heavy equipment.
- **Memory Controller:** The intuitive touch-screen controller allows you to save customizable memory settings for your preferred sitting and standing heights. It also includes helpful timer reminders to encourage movement.

Setup and Assembly

The VIVO Electric Standing Desk requires assembly. It is recommended to follow the detailed instructions provided in the user manual (PDF document available for download) for a smooth setup process. All necessary tools for assembly are included with the product.

Important Assembly Notes:

- The desk is shipped in two separate boxes; the desktop and the frame components may arrive on different days.
- Ensure the desktop sections are correctly aligned before securing them to the frame.
- Properly route all cables through the integrated cable management holes for a neat and organized workspace.

Operating Instructions

The VIVO Electric Standing Desk features an intuitive touch-screen control panel for easy height adjustments and personalized settings.

Control Panel Overview:

Figure 5: A close-up view of the desk's touch-screen control panel, featuring up/down arrows, memory preset buttons (1, 2, 3), and a timer (T) button.

Adjusting Height:

- Use the **Up (▲)** and **Down (▼)** arrow buttons to manually adjust the desk height. The current height will be displayed on the LED screen.

Memory Presets:

- The controller allows you to save up to three preferred height settings.
- To save a height: Adjust the desk to your desired height. Press the **"M"** button, then press the corresponding number button (**1**, **2**, or **3**) until the display confirms the setting is saved.
- To recall a saved height: Simply press the corresponding number button (**1**, **2**, or **3**). The desk will automatically move to the saved position.

Timer Reminders:

- The timer feature can remind you to change your working position (e.g., from sitting to standing).

- To activate the timer: Press the **"T"** button repeatedly to cycle through half-hour increments (0.5h, 1.0h, 1.5h, 2.0h). The timer is set when the display stops flashing and a small light on the top right of the control panel illuminates.
- When the timer expires, a beep will sound, reminding you to adjust your position.
- To deactivate the timer: Press the **"T"** button until the height is displayed and the small light turns off.

Power Save Mode:

- The control panel will enter a power save mode when idle for over 10 minutes, turning off the display.
- To reactivate the display: Press any button on the control panel.

Maintenance

To ensure the longevity and optimal performance of your VIVO Electric Standing Desk, regular maintenance is recommended.

- **Cleaning:** Wipe the desktop surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the laminated finish.
- **Weight Capacity:** Do not exceed the maximum weight recommendation of 176 lbs (80 kg) to prevent damage to the motor and frame.
- **Cable Management:** Periodically check and organize cables to prevent tangling or damage, ensuring smooth operation of the desk's moving parts.
- **Duty Cycle:** Follow the recommended duty cycle guidelines to prevent motor overheating. Avoid continuous operation for extended periods.

Troubleshooting

If you encounter any issues with your VIVO Electric Standing Desk, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Desk not moving / No power	Power cable disconnected, power save mode active.	Ensure all power cables are securely connected. Press any button on the control panel to exit power save mode.
Desk stops mid-movement / Error code	Overload, motor overheating, or obstruction.	Reduce weight on the desk. Allow motor to cool down. Check for any obstructions under the desk and remove them. Perform a factory reset if necessary (refer to full user manual).

Problem	Possible Cause	Solution
Desk is wobbly	Loose screws, uneven floor, or excessive weight.	Ensure all assembly screws are tightened. Adjust the leveling feet on the desk legs to compensate for uneven flooring. Reduce weight if exceeding capacity.
Memory presets not working	Incorrect saving procedure.	Follow the "Memory Presets" instructions carefully to save your desired heights.

For more detailed troubleshooting steps or persistent issues, please consult the full user manual or contact VIVO customer support.
