## BALI OUTDOORS 42in Tile Tabletop Design

# BALI OUTDOORS Fire Pit Table Instruction Manual

Model: 42in Tile Tabletop Design (ASIN: B07JFSKSSF)

## IMPORTANT SAFETY INFORMATION

---

**WARNING:** For outdoor use only. Improper installation, adjustment, alteration, service or maintenance can cause injury or property damage. Read the installation, operating and maintenance instructions thoroughly before installing or servicing this equipment.

- Keep flammable materials away from the fire pit. Maintain a safe distance from combustible surfaces.
- Never leave the fire pit unattended while in operation.
- Ensure proper ventilation. Do not operate in an enclosed space.
- Always connect and disconnect the propane cylinder outdoors in a well-ventilated area.
- Check for gas leaks using a soapy water solution before each use. Bubbles indicate a leak.
- Do not store a spare LP-gas cylinder under or near this appliance.
- Children and pets should be kept away from the fire pit.
- Allow the fire pit to cool completely before moving or storing.
- This product is CSA certified, indicating it meets safety standards for gas-fired appliances.

*For detailed safety guidelines, refer to the full safety manual provided with your product.*

## PRODUCT OVERVIEW

---

The BALI OUTDOORS 42-inch Tile Tabletop Fire Pit Table is designed to provide warmth and a functional surface for outdoor living spaces. It features a 2-in-1 design, allowing it to function as both a fire pit and a practical table.

### Key Features:

- **2-in-1 Design:** Combines a fire pit with a functional tabletop, suitable for dining or holding beverages.
- **Durable Construction:** Features a premium quality solid steel frame and a stainless steel burner for longevity.
- **Ceramic Tile Tabletop:** A beautiful and sturdy real ceramic tabletop provides a safe surface and is easy to clean.
- **High Heat Output:** Delivers up to 60,000 BTU, providing ample heat for outdoor gatherings.

- **Pulse Ignition System:** Enables easy and reliable lighting with effortless flame adjustment.
- **Integrated Propane Storage:** Designed to conceal a standard 20-lb propane tank (not included) within the table structure.
- **Included Accessories:** Comes with a cover lid and 15 lbs of decorative blue glass stones.

## SETUP AND ASSEMBLY

---

The BALI OUTDOORS Fire Pit Table is designed for easy assembly, typically taking less than 30 minutes with basic tools.

### Before You Begin:

- Unpack all components and verify against the parts list in your product manual.
- Ensure you have the necessary tools (e.g., screwdriver, wrench).
- Choose a flat, stable, and non-combustible surface for assembly and operation.

### Assembly Steps (General):

1. Attach the side panels to the main frame using the provided hardware.
2. Secure the base and top frame components.
3. Install the burner assembly into the tabletop opening.
4. Place the ceramic tiles around the burner opening on the tabletop.
5. Carefully place the blue glass stones into the burner pan.

6. Connect the gas hose from the burner to the propane tank regulator.
7. Place the propane tank inside the designated compartment (tank not included).

## OPERATING INSTRUCTIONS

---

### Connecting the Propane Tank:

1. Ensure the control knob on the fire pit is in the "OFF" position.
2. Connect the regulator hose to the propane tank valve. Hand-tighten firmly.
3. Open the propane tank valve slowly.
4. Perform a leak test using soapy water on all connections. Bubbles indicate a leak. If a leak is detected, close the tank valve, tighten connections, and retest. Do not operate if a leak persists.

### Igniting the Fire Pit:

1. Ensure the propane tank valve is fully open.
2. Push and turn the control knob to the "LOW" position.
3. Press and hold the igniter button until the burner ignites. You may hear a clicking sound.
4. Once ignited, continue to hold the control knob in for 10-15 seconds to allow the thermocouple to heat up.
5. Release the control knob. If the flame extinguishes, repeat the ignition process.
6. Adjust the flame height by rotating the control knob between "LOW" and "HIGH" as desired.

### Shutting Down the Fire Pit:

1. Turn the control knob to the "OFF" position.
2. Close the valve on the propane tank.
3. Allow the fire pit and glass stones to cool completely before covering or storing.

# Produces 60,000 BTU of Heat

## MAINTENANCE

---

- **Cleaning:** The ceramic tabletop can be wiped clean with a damp cloth and mild detergent. For the steel frame, use a soft cloth and mild soap. Avoid abrasive cleaners.
- **Burner Maintenance:** Periodically inspect the burner and burner ports for blockages (e.g., spider webs, debris). Use a soft brush or compressed air to clear any obstructions.
- **Glass Stones:** The blue glass stones can be rinsed with water to remove dust or debris. Ensure they are completely dry before placing them back in the burner pan.
- **Covering:** Use the provided cover lid when the fire pit is not in use to protect it from weather elements and debris.
- **Storage:** When not in use for extended periods, store the fire pit in a cool, dry place, preferably covered. Disconnect and store the propane tank separately in a well-ventilated area.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Burner does not ignite.	<ul style="list-style-type: none"> <li>No gas flow.</li> <li>Igniter not sparking.</li> <li>Air in gas line.</li> <li>Thermocouple not heating.</li> </ul>	<ul style="list-style-type: none"> <li>Check propane tank level and ensure valve is open.</li> <li>Check igniter battery (if applicable) and electrode for damage.</li> <li>Purge air by holding control knob for longer.</li> <li>Ensure flame is directly on thermocouple.</li> </ul>
Low flame or irregular flame.	<ul style="list-style-type: none"> <li>Low propane pressure.</li> <li>Burner ports blocked.</li> <li>Excess flow safety device activated.</li> </ul>	<ul style="list-style-type: none"> <li>Check propane tank level.</li> <li>Clean burner ports.</li> <li>Turn off fire pit and propane tank, wait 5 minutes, then restart slowly.</li> </ul>
Gas odor detected.	<ul style="list-style-type: none"> <li>Gas leak.</li> </ul>	<ul style="list-style-type: none"> <li>Immediately turn off gas supply. Perform leak test. Do not operate if leak persists. Contact qualified service person.</li> </ul>
