Accutime POK9010

Accutime Kids Pokemon Pikachu Analog Quartz Watch POK9010 Instruction Manual

Model: POK9010

INTRODUCTION

This instruction manual provides essential information for the proper setup, operation, and maintenance of your Accutime Kids Pokemon Pikachu Analog Quartz Watch, model POK9010. Please read this manual thoroughly to ensure optimal performance and longevity of your watch.

Figure 1: Accutime Kids Pokemon Pikachu Analog Quartz Watch, featuring a Pikachu dial and black and yellow silicone strap.

SETUP

1. Setting the Time

1. **Pull out the Crown:** Locate the small knob (crown) on the right side of the watch case. Gently pull it outwards until you feel a click. The second hand may stop moving.
2. **Adjust the Time:** Rotate the crown clockwise or counter-clockwise to move the hour and minute hands to the correct time.
3. **Push in the Crown:** Once the correct time is set, push the crown back into its original position. The second hand will resume movement (if it stopped).

Figure 2: Side view of the watch, highlighting the crown used for time adjustment.

2. Battery Information

The watch comes with one product-specific battery included. This is a quartz watch, and the battery powers its movement. When the watch stops or runs intermittently, the battery may need replacement. It is recommended to have battery replacement performed by a qualified watch technician.

Figure 3: Rear view of the watch case, displaying model number, movement type, and battery specifications (1 X SR626SW (1.5V)).

OPERATING THE WATCH

1. Reading Analog Time

The watch features a classic analog display with three hands:

- **Hour Hand:** The shorter hand indicates the hour.
- **Minute Hand:** The longer hand indicates the minute.
- **Second Hand:** The thin, sweeping hand indicates the seconds.

The dial has clear hour markers and numbers for easy time-telling.

2. Rotating Bezel

The watch is equipped with a rotating bezel. This bezel can be turned to mark elapsed time or for simple timing functions. Align the triangle marker on the bezel with the minute hand to track time from that point.

Figure 4: Watch face highlighting key features including the rotating bezel, soft silicone strap, and durable design.

MAINTENANCE

1. Cleaning

To clean your watch, wipe the case and strap with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish or strap.

2. Battery Replacement

As mentioned in the setup section, the watch uses a specific battery (SR626SW, 1.5V). When the battery needs replacement, it is highly recommended to take the watch to a professional watch repair service. Attempting to replace the battery yourself may void any potential warranty or cause damage to the watch's internal components.

3. Storage

When not in use, store the watch in its original collectible tin box or a soft pouch to protect it from dust and scratches. Avoid exposing the watch to extreme temperatures or direct sunlight for prolonged periods.

TROUBLESHOOTING

- **Watch is not running:** Ensure the crown is fully pushed in. If it is, the battery may need replacement.
- **Time is incorrect:** Follow the 'Setting the Time' instructions in the Setup section to reset the time.
- **Strap discomfort:** Ensure the strap is adjusted correctly and not too tight. The silicone strap is designed for comfort.

SPECIFICATIONS

Feature	Detail
Model Number	POK9010
