SETUP

1. Unboxing and Components

Upon opening the package, ensure all components are present:

- Razer Raiju Mobile Gaming Controller
- USB-C to USB-A charging cable
- Headphones (as per product specifications)

2. Charging the Controller

Before initial use, fully charge the controller. Connect the USB-C end of the charging cable to the controller's USB-C port and the USB-A end to a powered USB port (e.g., computer, wall adapter). The LED indicator will show charging status.

3. Connecting to an Android Device

The Razer Raiju Mobile supports both Bluetooth wireless and wired connections.

Bluetooth Connection:

1. Ensure the controller is charged.
2. Turn on the controller by pressing the Home button.

3. Activate Bluetooth on your Android device.
4. On your Android device, search for available Bluetooth devices and select "Razer Raiju Mobile".
5. Pair the devices. The LED indicator on the controller will confirm a successful connection.

Wired Connection:

1. Connect the controller to your Android device using a compatible USB-C to USB-C cable (not included, or use the provided cable with an adapter if your phone has USB-A).
2. Ensure your Android device supports USB OTG (On-The-Go) for wired controller input.

4. Adjusting the Phone Mount

The integrated phone mount allows for optimal viewing angles. Gently pull the top part of the mount upwards to extend it, then place your Android smartphone securely within the clamps. Adjust the angle as needed for comfortable gaming.

5. Mobile App Configuration

Download the Razer Raiju Mobile app from the Google Play Store to customize button mappings, adjust sensitivity, and configure other settings for a personalized gaming experience.

OPERATING THE CONTROLLER

Button Layout and Features

The Razer Raiju Mobile features an ergonomic design with a comprehensive button layout for precise control.

- **Razer Mecha-Tactile Action Buttons:** Provide a soft cushioned touch with tactile feedback for responsive inputs.
- **Multi-Function Buttons:** Additional buttons (M1, M2, L3, R3) can be customized via the mobile app for expert control.
- **Hair Trigger Mode:** Engage this mode for reduced travel distance on the main triggers (L1, R1, L2, R2), allowing for faster actuation in competitive gaming.
- **Adjustable Phone Mount:** Securely holds your Android device for optimal viewing.

MAINTENANCE

Cleaning

To clean your controller, use a soft, dry cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the surface and internal components.

Storage

Store the controller in a cool, dry place away from direct sunlight and extreme temperatures. When not in use for extended periods, ensure the controller is fully charged before storage to maintain battery health.

Battery Care

The controller contains a rechargeable battery. To prolong battery life, avoid fully discharging the battery frequently. Charge the controller regularly, even if not in constant use.

TROUBLESHOOTING

Problem	Solution
Controller does not power on.	Ensure the controller is fully charged. Connect it to a power source using the provided USB cable.
Cannot connect via Bluetooth.	• Ensure Bluetooth is enabled on your Android device. • Make sure the controller is in pairing mode. • Forget the device from your Android's Bluetooth settings and attempt to pair again. • Try restarting both the controller and your Android device.
Buttons are unresponsive or delayed.	• Check battery level. • Ensure no physical obstructions are affecting button presses. • If using Bluetooth, try a wired connection to rule out wireless interference. • Reset the controller (refer to manufacturer's instructions for specific reset procedure, usually a small pinhole button).
Phone mount does not hold phone securely.	Ensure the phone is centered and fully seated within the adjustable clamps. Avoid using overly thick phone cases that may prevent proper seating.
