4. SETUP AND USAGE

The Sntieecr Iron Display Stands require minimal setup. Follow these steps for proper use:

1. **Unfold the Stand:** Gently pull the two main support arms apart until the stand forms a stable triangular base. Ensure the back support leg is fully extended.
2. **Position the Item:** Place your desired item (e.g., plate, picture frame, book) onto the front two hooks of the stand. The back support leg will lean against the item, providing stability.
3. **Adjust for Stability:** For optimal stability, ensure the item's weight is evenly distributed. If displaying a heavier item, use a larger stand.

5. MAINTENANCE

To maintain the appearance and longevity of your Sntieecr Iron Display Stands:

- Wipe with a soft, dry cloth to remove dust.
- Avoid using abrasive cleaners or harsh chemicals, as these may damage the finish.
- Store in a dry place when not in use to prevent rust.

6. TROUBLESHOOTING

If you encounter issues with your display stands, consider the following:

- **Stand is unstable:** Ensure the stand is fully unfolded and placed on a flat, level surface. Verify that the item being displayed is not too heavy or unevenly weighted for the stand's size.
- **Item slides off:** Check that the item is properly seated on the front hooks and leaning against the back support. For very smooth items, consider adding small non-slip pads (not included) to the contact points.
