EMKE Nano Folding Shower Screen 110 x 140 cm Instruction Manual

PRODUCT OVERVIEW

This manual provides detailed instructions for the installation, operation, and maintenance of your EMKE Nano Folding Shower Screen, model DE-NFBSS11E. This shower screen is designed for bathtubs, offering a practical and elegant solution for splash protection.

Key features include:

- **Dimensions:** 110 x 140 cm (width x height), with an adjustable width range of 110-111 cm.
- **Nano Technology:** Features 6 mm ESG transparent safety glass with a double-sided nano-coating to reduce dirt adhesion and facilitate cleaning.
- **Splash Protection:** A frameless design with rubber seals positioned under and between the glass panels ensures effective water splash prevention.
- **180° Folding and Lifting Mechanism:** The screen can be folded and rotated 180 degrees, allowing for flexible left or right-hand installation. The integrated lifting function minimizes noise during operation and extends the lifespan of the rubber seals.

INSTALLATION INSTRUCTIONS

Before beginning installation, ensure you have all components (glass panels, seals, screws, wall profiles) and necessary tools. Always wear appropriate safety gear, including gloves and eye protection. It is recommended to have two people for installation due to the weight and size of the glass panels.

Preparation

1. Unpack all components and check for any damage or missing parts.
2. Clean the installation area on the wall and bathtub rim.
3. Determine the desired installation direction (left or right) based on your bathroom layout.

Passen Sie die Installationsrichtung an die tatsächlichen Bedürfnisse an

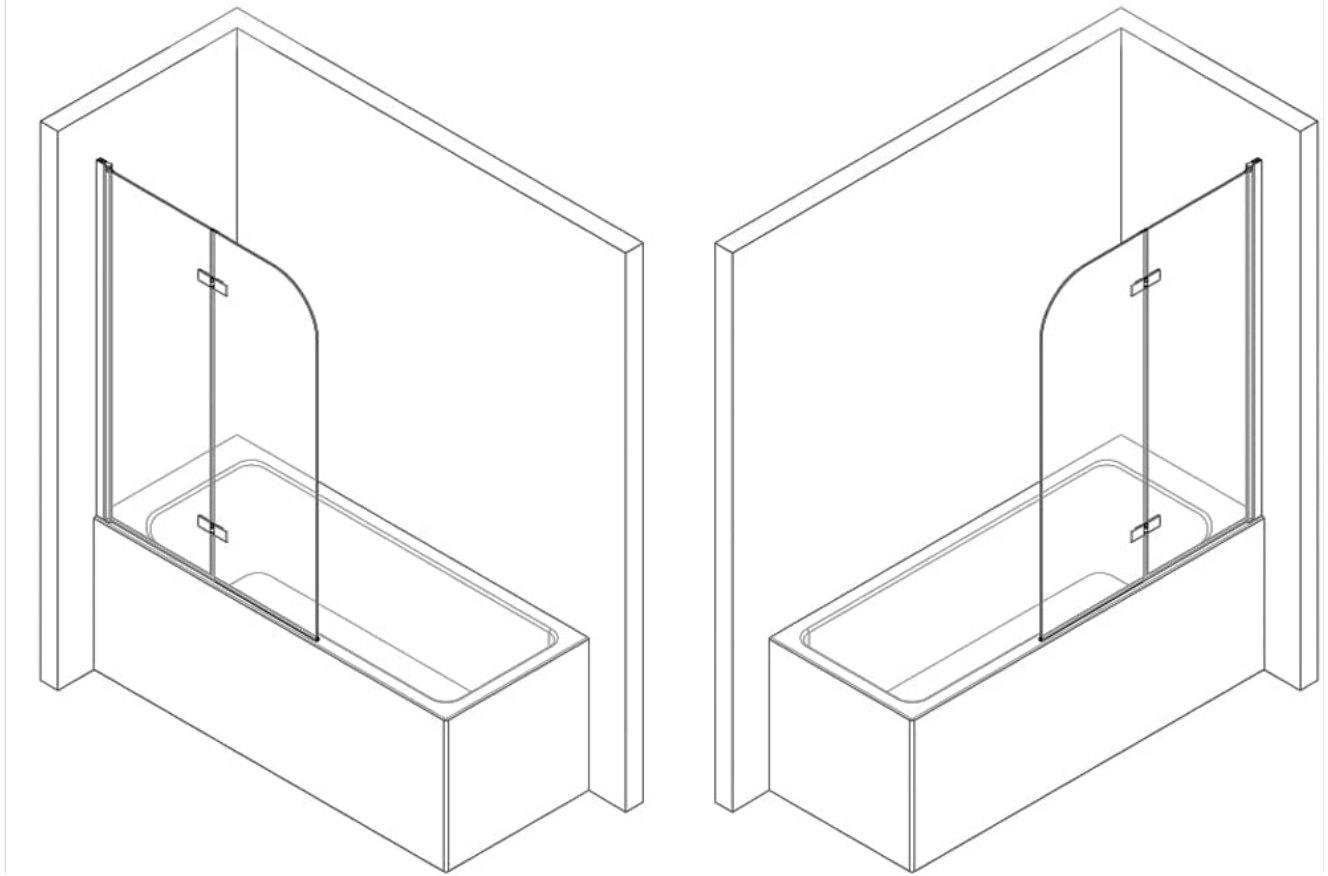

Figure 2: Adjust the installation direction to actual needs (left or right installation).

Mounting Steps

1. **Measure and Mark:** Carefully measure the installation area. Refer to the dimension diagram for precise measurements.
2. **Attach Wall Profile:** Position the wall profile against the wall, ensuring it is level. Mark the drilling points. Drill holes and secure the wall profile using appropriate screws and wall plugs.
3. **Install Glass Panels:** Carefully insert the first glass panel into the wall profile. Attach the hinges to connect the second glass panel. Ensure all connections are secure.
4. **Apply Seals:** Install the rubber seals along the bottom edge of the glass panels and between the panels to ensure a watertight fit.
5. **Final Adjustments:** Check the alignment and smooth operation of the folding mechanism. Adjust as necessary.

OPERATION

The EMKE Nano Folding Shower Screen is designed for ease of use and space-saving functionality.

Folding Mechanism

The shower screen features a 180-degree folding mechanism. This allows you to fold the glass panels inwards or outwards, providing flexibility and maximizing space when the shower is not in use. Gently push or pull the panels to fold them.

Kann innen und außen um 180 ° gefaltet werden, um Platz zu sparen

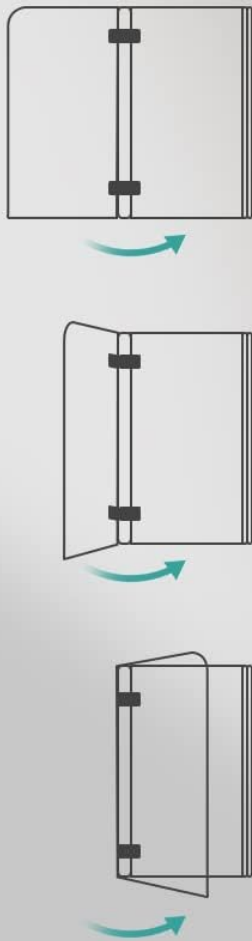

Figure 4: The shower screen can be folded inwards and outwards by 180° to save space.

Lifting Mechanism

The integrated 4mm lift and lower mechanism ensures smooth operation and protects the bottom seals from wear. When opening or closing the screen, the panels slightly lift, reducing friction and noise. This mechanism automatically engages during movement.

MAINTENANCE AND CARE

Proper maintenance will ensure the longevity and pristine appearance of your EMKE Nano Folding Shower Screen.

Cleaning the Glass

The 6 mm ESG transparent safety glass features a double-sided nano-coating. This coating significantly reduces dirt adhesion and creates a pearlescent effect, making cleaning easier. For daily cleaning, simply wipe the glass with a soft cloth and warm water after each use. For more thorough cleaning, use a mild, non-abrasive glass cleaner. Avoid harsh chemicals, abrasive sponges, or scouring agents, as these can damage the nano-coating and the glass surface.

Maintaining Seals and Hinges

Regularly inspect the rubber seals for any signs of wear or damage. Clean them with mild soap and water to prevent mold buildup. The hinges and metal components should be wiped clean with a soft, damp cloth. Do not use abrasive cleaners on metal parts.

TROUBLESHOOTING

If you encounter any issues with your shower screen, please refer to the following common solutions:

- **Water Leakage:** Check if the rubber seals are properly installed and free from damage. Ensure the wall profile is securely fastened and sealed with silicone if necessary.
- **Stiff Folding Mechanism:** Clean the hinges and ensure no debris is obstructing the movement. A small amount of silicone spray (safe for plastics and metals) can be applied to the moving parts if needed, but avoid contact with glass.
- **Glass Appears Dirty:** Even with nano-coating, hard water spots can occur. Use a specialized glass cleaner for hard water stains if regular cleaning is insufficient.

For persistent issues not resolved by these steps, please contact customer support.

PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	DE-NFBSS11E
Product Dimensions (L x W x H)	6 x 110 x 140 cm
Weight	23 kilograms
Material	Tempered Glass
Glass Thickness	6 Millimeters
Finish Type	Glossy
Color	Chrome
Door Style	Folding Doors
Number of Doors	2
Number of Panels	2
Installation Type	Freestanding
Components Included	Glass, Seal, Screws, Wall Profile
Country of Origin	China

WARRANTY INFORMATION

Your EMKE Nano Folding Shower Screen comes with a**2-year worry-free warranty**. This warranty covers manufacturing defects and ensures the product meets quality standards under normal use. Please retain your proof of purchase for any warranty claims.

The warranty does not cover damage resulting from improper installation, misuse, accidental damage, or normal wear and tear.

CUSTOMER SUPPORT

Should you require assistance with installation, operation, or have any questions regarding your EMKE Nano Folding Shower Screen, please do not hesitate to contact EMKE customer support. Refer to the contact information provided with your purchase or visit the official EMKE website for support details.
