MAINTENANCE AND CARE

Proper maintenance and care will help preserve the appearance and functionality of your Hot Wheels vehicle over time.

- **Cleaning:** To remove dust and light dirt, gently wipe the vehicle with a soft, dry, lint-free cloth. Do not use harsh chemical cleaners, solvents, or abrasive materials, as these can damage the paint and plastic components.

- **Inspection:** Periodically inspect the vehicle for any loose parts, bent axles, or significant damage. If substantial damage is observed, discontinue use to prevent further breakage or potential hazards.

TROUBLESHOOTING

This section addresses common issues that may arise with die-cast vehicles.

Vehicle Not Rolling Smoothly

- **Check Wheels:** Ensure that no debris, such as hair or lint, is lodged in the axles or wheels. Gently remove any obstructions using tweezers or a small brush.
- **Surface:** Verify that the playing or display surface is clean, flat, and free of irregularities that could impede movement.

Paint Chipping or Scratches

- Minor paint chipping or scratches can occur with normal play and handling. To minimize this, avoid rough surfaces and impacts.
