To maintain the condition of your Hot Wheels model:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust and dirt. Avoid using harsh chemicals or abrasive materials, as these may damage the paint or decals.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Original packaging or display cases are recommended for long-term preservation.
- **Handling:** Handle the model by its body to avoid bending or breaking smaller parts like mirrors or spoilers.

TROUBLESHOOTING

Most issues with die-cast models are related to physical damage or debris.

- **Wheels not rolling smoothly:** Check for any small debris (e.g., lint, hair) caught in the axles. Gently remove any obstructions. Ensure the wheels are not bent or misaligned.
- **Loose parts:** If any small parts become loose, they may be reattached with a small amount of model-safe adhesive, if appropriate. Exercise caution and consult a professional if unsure.
