Sojag Monaco 10x10 Hardtop Gazebo Instruction Manual

Model: 500-9164053 | Brand: Sojag

1. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before beginning assembly and use of the Sojag Monaco 10x10 Hardtop Gazebo. Failure to follow these instructions may result in injury or damage to the product.

- **Anchoring:** Ensure the gazebo is properly anchored to a solid, level surface to withstand everyday wind and outdoor elements.
- **Snow Accumulation:** Remove any snow accumulation from the gazebo roof promptly to preserve its durability and stability. Heavy snow can cause structural damage.
- **Assembly:** This product is heavy and requires a minimum of three people for safe assembly. Handle all components with care.
- **Tools:** All necessary hardware is included. No special tools are required for assembly.
- **Material Properties:** The gazebo features a premium powder-coated aluminum frame and galvanized steel roof panels, designed to be UV-treated and rust-resistant for long-term outdoor use.

2. SETUP AND ASSEMBLY

The estimated assembly time for the Sojag Monaco 10x10 Hardtop Gazebo is approximately 6 hours with three people. Follow the detailed instructions provided in the separate assembly guide for step-by-step construction. The following points highlight key aspects of the structure.

- **Frame Construction:** The frame is constructed from extruded aluminum, providing enhanced durability and resistance to outdoor elements.
- **Protective Coating:** The aluminum frame is treated with AkzoNobel's Interpon powder coating for maximum scratch and corrosion resistance.
- **Roof Panels:** The roof consists of galvanized steel panels, offering robust protection from sun and rain.
- **Stability:** The design incorporates a wide diameter structure for additional stability and protection.

3. OPERATION

The Sojag Monaco Gazebo is designed to enhance your outdoor living space with comfort and protection.

- **Mosquito Netting:** The gazebo includes PVC-coated mosquito netting to provide an insect-free environment. The netting can be easily deployed or tied back as needed.
- **Air Circulation:** The double roof design not only adds an appealing aesthetic but also improves airflow, contributing to a comfortable environment within the gazebo.

4. MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your Sojag Monaco Gazebo.

- **Cleaning:** Clean the frame and roof panels periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Snow Removal:** During winter months, it is crucial to remove any accumulated snow from the roof to prevent structural stress and potential damage.
- **Inspection:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten as necessary.
- **Winter Covers:** Sojag winter covers are available separately and recommended for extended protection during harsh winter conditions.

5. TROUBLESHOOTING

If you encounter issues with your Sojag Monaco Gazebo, consider the following common solutions:

- **Stability Issues:** Ensure all frame connections are securely fastened and the gazebo is properly anchored to the ground. Uneven ground can also affect stability.
- **Water Accumulation:** Verify that the roof panels are correctly installed and sealed according to the assembly instructions to prevent leaks. Ensure proper drainage around the base.
- **Missing Parts:** If any parts are missing or damaged upon arrival, contact Sojag customer support immediately for assistance.
