- **Cabinet does not fit around pedestal:** Verify the dimensions of your sink's pedestal against the cabinet's U-shaped

cutout (8.75"L x 7.5"W). Some pedestals may be wider at the base or have an unusual shape that prevents a flush fit.

- **Doors do not close properly or have a gap:** Ensure all hinges are securely fastened and aligned. Adjust hinges if necessary to correct door alignment. Check that the magnetic catches are properly installed and functioning.
- **Wobbling or instability:** Confirm that all assembly screws are fully tightened. Ensure the cabinet is placed on a flat, level surface.
