

BELLISSIMA 31002

Bellissima Imetec My Pro Ceramic P5 3800 Professional Ionic Hair Dryer User Manual

Model: 31002

1. INTRODUCTION

Thank you for choosing the Bellissima Imetec My Pro Ceramic P5 3800 Professional Ionic Hair Dryer. This appliance is designed to provide efficient and gentle hair drying, promoting soft and shiny results through its advanced ceramic and ionic technologies. Please read this manual carefully before use to ensure safe and optimal operation.

2. SAFETY WARNINGS

Important Safety Information:

- Always ensure the appliance is disconnected from the power supply before cleaning or maintenance.
- Do not use this appliance near water, in bathrooms, or over basins containing water.
- If the appliance falls into water, unplug it immediately. Do not reach into the water.
- Keep the appliance away from children.
- Do not block the air inlet or outlet during use. Overheating may occur.
- Regularly check the power cord for damage. If damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- This appliance is for household use only. Do not use outdoors or for commercial purposes.
- Always read the label, warnings, and instructions provided on the product before use.

4. PRODUCT FEATURES

- **Ceramic Technology:** The ceramic heating element generates infrared heat that respects, protects, and hydrates hair during drying. This technology helps reduce frizz and dryness, leaving hair soft and luminous.

TECNOLOGIA CERAMICA

CALORE BUONO CHE RISPETTA,
PROTEGGE E IDRATA I CAPELLI
MENTRE LI ASCIUGA

The hair dryer's ceramic technology ensures gentle heat distribution.

- **Professional AC Motor (2300W):** Equipped with a long-life professional AC motor and 2300W power, this hair dryer provides fast drying and effective styling.

**MOTORE
PROFESSIONALE
POTENZA
2300 W**

The powerful 2300W professional motor ensures quick drying.

- **Ionic Technology:** The integrated ionizer helps maintain the hair's natural hydration, reducing frizz and static for smoother, shinier results.

TECNOLOGIA A IONI

FAVORISCE LA RIDUZIONE
DELL'EFFETTO CRESPO

Ionic technology helps reduce frizz and enhance hair shine.

- **Adjustable Settings:** Features 2 speed settings and 3 temperature settings, plus a cool shot button to set your style.
- **Professional Attachments:** Includes a standard concentrator for precise styling, a ceramic concentrator with micro-ceramic particles for gentle heat, and a professional diffuser for elastic and defined curls.
- **Convenient Design:** Removable filter for easy cleaning, a 3-meter power cord for flexibility, and a hanging loop for storage.

5. SETUP

1. Unpack the hair dryer and all accessories.
2. Ensure the hair dryer is clean and free from any packaging materials.
3. Attach the desired nozzle (concentrator or diffuser) by aligning it with the hair dryer's outlet and pushing it firmly into place.
4. Plug the power cord into a suitable electrical outlet.

6. OPERATING INSTRUCTIONS

Power On/Off:

- To turn on the hair dryer, slide the power switch to the desired speed setting (1 or 2).
- To turn off, slide the power switch to the '0' position.

Adjusting Speed and Temperature:

- Use the speed switch (labeled '1' and '2') to select between low and high airflow.

- Use the temperature switch (labeled '1', '2', '3') to select between low, medium, and high heat settings.

Cool Shot Function:

- Press and hold the cool shot button (snowflake icon) to deliver a burst of cool air. This helps to set your hairstyle and add shine.

The hair dryer's controls for speed, temperature, and cool shot function.

Using Attachments:

- **Concentrator Nozzles:** Use the standard or ceramic concentrator for targeted airflow, ideal for straightening or smoothing hair sections. Direct the airflow down the hair shaft.
- **Diffuser:** Attach the diffuser for gentle drying of curly or wavy hair. It helps to define curls and add volume without disturbing the natural pattern. Place sections of hair into the diffuser bowl and dry gently.

7. MAINTENANCE

Cleaning the Air Filter:

1. Ensure the hair dryer is switched off and unplugged from the power outlet.
2. Locate the removable air filter cover at the rear of the hair dryer.
3. Gently twist or pull the filter cover to remove it.
4. Clean any accumulated dust or hair from the filter using a soft brush or cloth.
5. Rinse the filter under running water if necessary, ensuring it is completely dry before reattaching.
6. Reattach the filter cover by aligning it and twisting or pushing it back into place until secure.

General Cleaning:

- Wipe the exterior of the hair dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Do not immerse the hair dryer in water or any other liquid.

8. TROUBLESHOOTING

If you encounter any issues with your hair dryer, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Hair dryer does not turn on.	No power supply; power cord damaged; internal fault.	Check power outlet. Inspect power cord for damage. If damaged, contact customer support.
Airflow is weak or inconsistent.	Blocked air inlet filter.	Clean the air filter as described in the Maintenance section.
Hair dryer overheats and shuts off.	Blocked air filter; prolonged use; internal safety mechanism activated.	Unplug and allow to cool down. Clean the air filter. Ensure air inlets/outlets are not blocked during use.
Unusual noise or smell.	Internal component issue; foreign object inside.	Immediately unplug the device. Do not use. Contact customer support.

If the problem persists after attempting these solutions, please contact customer support.
