ShiDianYi sequin backdrop

ShiDianYi 4FTx7FT Yellow Glitter Sequin Backdrop

USER MANUAL

Product Overview

The ShiDianYi 4FTx7FT Yellow Glitter Sequin Backdrop is designed to add elegance and sparkle to various events such as weddings, parties, and photo shoots. This backdrop features full dense sequins embroidered on a mesh fabric, ensuring a vibrant and shimmering appearance. Its seamless design and serged edges help prevent sequins from falling, providing a durable and visually appealing background.

Setup Instructions

Setting up your ShiDianYi Sequin Backdrop is straightforward. The backdrop is designed to be hung from a standard backdrop stand or similar support structure. Ensure the support is stable and can bear the weight of the fabric.

1. **Unpack the Backdrop:** Carefully remove the backdrop from its packaging.
2. **Prepare the Stand:** Assemble your backdrop stand according to its manufacturer's instructions. Adjust the width and height to accommodate the 4FT (125cm) wide by 7FT (215cm) height of the backdrop.
3. **Hang the Backdrop:** Drape the top edge of the backdrop over the crossbar of your stand. The backdrop features a seamless design, allowing for a smooth, continuous appearance.
4. **Adjust for Desired Effect:** Allow the fabric to hang naturally. For a fuller look, you may gather the fabric slightly. Ensure the serged edges are visible to prevent any sequin shedding.

EXCELLENT MATERIAL

**Must-Have For Weddings, Parties,
Events, Proms, Home Decoration etc.**

Operating Guidelines

The ShiDianYi Sequin Backdrop is primarily used to create a visually stunning background for photography, events, and decorations. Its vibrant yellow color and shimmering sequins make it ideal for adding a festive and elegant touch.

- **Photography:** Position subjects in front of the backdrop for portraits, product photography, or themed photo booths. The reflective sequins create a dynamic and eye-catching effect.

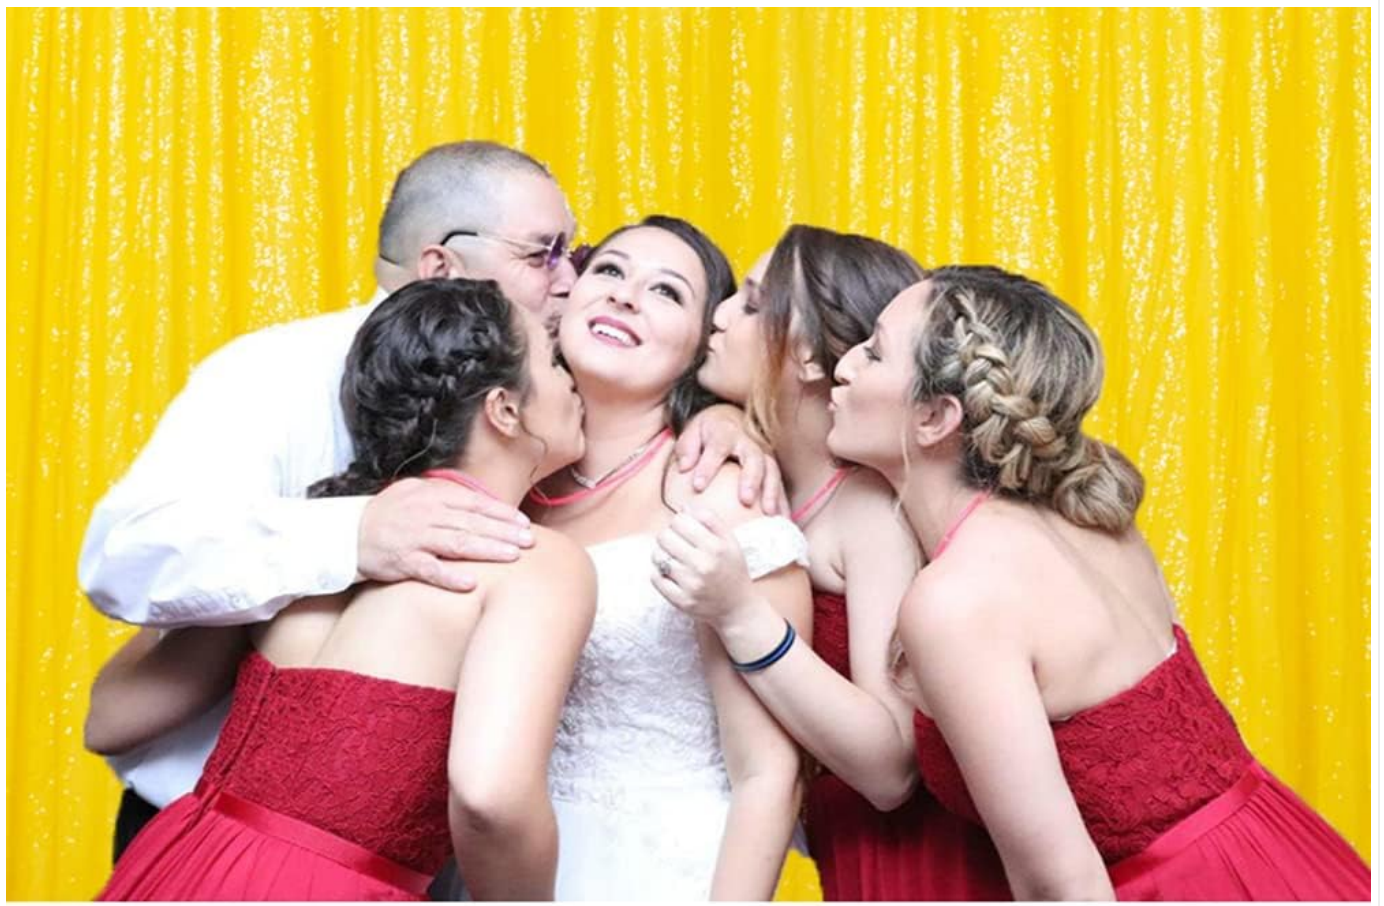

- **Event Decoration:** Use the backdrop to define a specific area, such as a dessert table, gift station, or main stage at parties, weddings, or baby showers.
- **Lighting Considerations:** Experiment with different lighting setups to enhance the sparkle of the sequins. Direct lighting can create a more intense shimmer, while diffused lighting offers a softer glow.

**We Only Produce High-Quality Products as
Your Events Are Very Important !**

Maintenance

Proper care will extend the life and maintain the appearance of your sequin backdrop. Follow these guidelines for cleaning and storage:

- **Cleaning:** The backdrop should be hand washed. Use cold water and a mild detergent if necessary.
- **Drying:** Do not tumble dry. Hang the backdrop to air dry completely.
- **Ironing:** Do not iron the sequin fabric directly. High heat can damage the sequins. If wrinkles are present, a steamer on a low setting from a distance may be used with extreme caution, or allow gravity to smooth them out while hanging.
- **Bleaching:** Do not bleach. Bleaching agents can damage the fabric and alter the color of the sequins.

- **Storage:** Store the backdrop in a cool, dry place, away from direct sunlight. Folding neatly can help prevent excessive creasing.

Sizes are in FT and listed as Width x Height

Troubleshooting

While the ShiDianYi Sequin Backdrop is designed for quality, here are solutions to common observations:

Issue	Possible Cause / Solution
Backdrop appears "see-through"	Although designed with high-density sequins, very bright backlighting or specific angles might reveal some transparency. To mitigate this, consider placing a solid, opaque fabric (e.g., a white or matching color sheet) behind the sequin backdrop, especially if used in brightly lit environments or for close-up photography.
Sequins are shedding	The backdrop features serged edges to minimize sequin loss. Minor shedding upon initial unpacking is normal. If excessive shedding occurs, ensure the backdrop is not being pulled or snagged. Avoid harsh handling or machine washing.
Wrinkles or creases present	Wrinkles can occur from folding during storage or shipping. Hang the backdrop for a period to allow gravity to naturally smooth out creases. A garment steamer can be used carefully on a low setting, keeping a safe distance from the fabric to avoid direct heat contact with sequins.

Specifications

Attribute	Detail
Brand	ShiDianYi
Model Number	sequin backdrop
ASIN	B07JVMB12N
Color	Yellow
Size	4FTx7FT (84 x 48 x 0.01 inches)
Item Weight	9.6 ounces
Material	Sequin mesh fabric
Manufacturer	ShiDianYiDirect
Date First Available	December 8, 2017
