Pyle PLUTV41BK

Pyle 2-Way Dual Waterproof Off-Road Speakers

Model: PLUTV41BK

Brand: Pyle

PRODUCT OVERVIEW

The Pyle PLUTV41BK is a 2-way dual waterproof off-road speaker system designed for outdoor vehicles such as ATVs, UTVs, quads, Jeeps, and marine watercraft. These 4-inch speakers deliver 800 Watt MAX power output with full-range stereo sound reproduction, featuring impressive bass response and integrated wiring for quick connection. The marine-grade IP-X5 waterproof construction ensures durability in various weather conditions.

WHAT'S IN THE BOX

Upon unboxing your Pyle PLUTV41BK speaker system, you will find the following components:

- (2) 4-inch ATV/UTV Speakers
- Speaker Connection Wires (6.5 ft.)
- Wire Butt Connectors (16-22 AWG)
- EVA Mounting Pads

Take it **Everywhere you go!**

Perfect for extreme land and water sports use!

SETUP AND INSTALLATION

The Pyle PLUTV41BK speakers are designed for universal mounting on roll-bars or roll-cages, suitable for various off-road and marine vehicles. Follow these steps for proper installation:

1. **Prepare the Mounting Location:** Identify a suitable roll-bar or roll-cage section on your vehicle. Ensure the diameter is between 1.25 to 2.0 inches for optimal fit.
2. **Unbolt the Mounting Bracket:** Carefully unbolt the mounting bracket from the speaker unit.
3. **Slide Buckle with Rubber Pad:** Place the appropriate EVA mounting pads around the roll-bar to ensure a snug fit and prevent scratches. Then, slide the bracket buckle over the padded roll-bar.
4. **Secure the Bracket:** Attach the screw to lock the buckle firmly around the roll-bar. Ensure the speaker is securely fastened and does not wobble.
5. **Connect Speaker Wires:** Securely connect the speaker wires to your audio system. The speakers feature integrated wiring for quick connection. Use the provided 16-22 AWG wire butt connectors if needed for

extending or joining wires.

6. **Power Connection:** Connect the speaker power cable to your vehicle's power source, ensuring proper polarity.

Effortless Installation

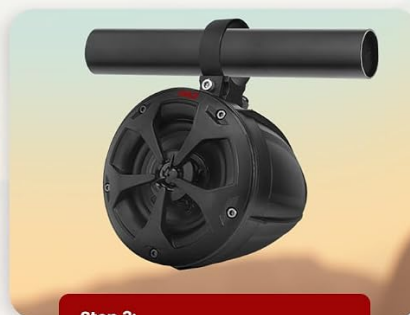

Set up exceptional audio wherever your adventure takes you!

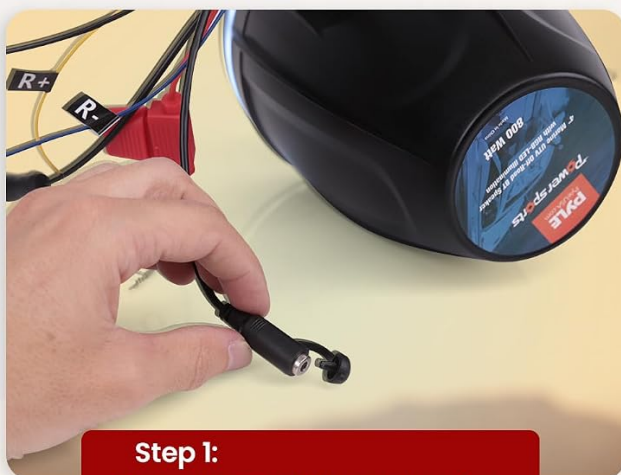

Step 1:
Unbolting the mounting bracket

Step 2:
Slide buckle with rubber pad
attached to bracket stand

Step 3:
Attach screw to lock the buckle

Step 4:
Securely connect the speaker wires,
speaker power cable

Step 5:
Enjoy Your Ride!

Image: A visual guide illustrating the five steps for effortless installation: unbolting the mounting bracket, sliding the buckle with rubber pad, attaching the screw to lock the buckle, securely connecting speaker wires, and finally, enjoying the ride.

Note: Some users have reported challenges with mounting on specific roll-bar sizes (e.g., 1.25" or Jeep roll-bars) even with the provided pads. Custom solutions like additional rubber strips or longer bolts may be required for a secure fit in such cases.

OPERATING INSTRUCTIONS

Once installed and connected, the Pyle PLUTV41BK speakers are ready for use. These passive speakers require an external amplifier or head unit to produce sound.

- **Power On:** Turn on your connected audio source (e.g., marine stereo, ATV head unit).
- **Adjust Volume:** Control the volume directly from your audio source.

- **Sound Quality:** The 2-way full-range design provides clear audio with impressive bass response.

MAINTENANCE

The Pyle PLUTV41BK speakers are built with marine-grade waterproof construction (IP-X5 rated) and weatherproof housing, designed to withstand harsh outdoor environments. To ensure longevity and optimal performance:

- **Regular Cleaning:** Periodically wipe down the speaker housing with a damp cloth to remove dirt, dust, and salt residue, especially after exposure to marine or muddy conditions. Avoid abrasive cleaners.
- **Inspect Connections:** Occasionally check all wiring connections to ensure they remain secure and free from corrosion.
- **Avoid Submersion:** While waterproof, these speakers are not designed for continuous submersion. Avoid prolonged exposure to standing water.

Built to Conquer the Elements

Weather Resistant Grill

TROUBLESHOOTING

If you encounter issues with your Pyle PLUTV41BK speakers, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No Sound Output	◦ Loose or incorrect wiring. ◦ Audio source not powered on or volume too low. ◦ Faulty audio source or amplifier.	◦ Check all speaker wire connections to the amplifier/head unit. Ensure correct polarity. ◦ Verify the audio source is on and volume is turned up. ◦ Test with a different audio source or amplifier if possible.

Problem	Possible Cause	Solution
Distorted Sound	◦ Volume too high, causing clipping. ◦ Improper impedance matching with amplifier. ◦ Damaged speaker cone or tweeter.	◦ Reduce the volume on your audio source. ◦ Ensure your amplifier is compatible with 4 Ohm speakers. ◦ Inspect speaker cones and tweeters for visible damage.
Mounting Issues (Speakers not secure)	◦ Roll-bar diameter not within specified range (1.25" - 2.0"). ◦ EVA mounting pads not providing sufficient grip. ◦ Mounting bolts not long enough or stripped.	◦ Ensure roll-bar diameter is compatible. ◦ Use additional rubber shims or custom padding for a tighter fit. ◦ Replace mounting bolts with longer ones if necessary, ensuring proper threading.
Missing Parts from Box	◦ Packaging error.	◦ Contact Pyle customer support or your retailer with proof of purchase.

SPECIFICATIONS

Feature	Detail
Brand	Pyle
Model Name	4" Marine Utv Off-Road Speakers
Speaker Type	Outdoor, Passive Speakers
Power Output	800 Watt MAX
Marine Grade Waterproof Rating	IP-X5
Speaker Size	4 Inches (Each)
Woofer Type	Polypropylene Cone, Butyl Rubber Surround
Tweeter Type	Neodymium Dome (0.5 Inches)
Frequency Response	85Hz-20kHz
Impedance	4 Ohm
Magnet Type	20 oz. Circuit
Mid-Woofer Voice Coil Type	1.0", Aluminum

Feature	Detail
Sensitivity	90 dB +/- 2 dB @ 1M/1W
Universal Mounting Brackets Roll-Bar / Roll-Cage Diameter	1.25 ~ 2.0 -inches
Speaker Dimensions (with Bracket)	5.6 x 8.4 x 7.3 -inches (Each)
Item Weight	4.4 Pounds
