Franke ATL-PO-304

Franke Atlas NEO Pull Out Stainless Faucet User Manual

Model: ATL-PO-304

INTRODUCTION

Thank you for choosing the Franke Atlas NEO Pull Out Stainless Faucet. This manual provides detailed instructions for the installation, operation, and maintenance of your new kitchen faucet. Please read this manual thoroughly before installation and use to ensure proper function and longevity of the product. Keep this manual for future reference.

SAFETY INFORMATION

- Always turn off the main water supply before beginning any installation or maintenance.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, during installation.
- Ensure all connections are secure and leak-free before restoring water supply.
- If you are unsure about any part of the installation process, consult a qualified plumber.

SETUP AND INSTALLATION

The Franke Atlas NEO faucet is designed for single-hole deck mount installation. Follow these steps carefully:

1. **Prepare the Installation Area:** Clear the sink area and ensure the mounting hole is clean and free of debris.
2. **Mount the Faucet:** Insert the faucet body into the mounting hole. From underneath the sink, secure the faucet using the provided mounting hardware (washer and nut). Tighten firmly but do not overtighten.
3. **Connect Water Supply Lines:** Connect the hot and cold water supply lines from the faucet to your home's water supply. Use appropriate wrenches and ensure all connections are watertight.
4. **Install the Pull-Out Hose:** Feed the pull-out hose through the faucet body and connect it to the spray head. Attach the counterweight to the hose at the recommended position to ensure smooth retraction.
5. **Test for Leaks:** Slowly turn on the main water supply and check all connections for any signs of leaks. Run water through the faucet for a few minutes to flush out any debris.

OPERATING INSTRUCTIONS

The Franke Atlas NEO features a single lever handle and a convenient pull-out sprayer for versatile use.

- **Water Flow and Temperature Control:** The single lever handle controls both water flow and temperature.
 - Lift the lever to increase water flow.
 - Move the lever left for hot water and right for cold water.
- **Pull-Out Sprayer Function:**

- Gently pull the spray head from the spout to extend the hose.
- The spray head offers a linear swivel motion for ease of use.
- After use, guide the spray head back into the spout until it clicks securely into place. The counterweight will assist in smooth retraction.

MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your stainless steel faucet.

- **Regular Cleaning:** Clean the faucet regularly with a soft cloth and mild soap and water. Rinse thoroughly and dry to prevent water spots.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, scouring pads, or cleaners containing ammonia, bleach, or acids, as these can damage the stainless steel finish.
- **Aerator Maintenance:** If water flow becomes restricted, the aerator may be clogged. Unscrew the aerator from the spray head, clean any debris, and reattach.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Low Water Flow	Clogged aerator; partially closed shut-off valves; debris in supply lines.	Clean aerator; ensure shut-off valves are fully open; flush supply lines.
Leaks at Connections	Loose connections; damaged O-rings or washers.	Tighten connections; inspect and replace O-rings or washers if damaged.
Spray Head Does Not Retract Fully	Improperly positioned counterweight; obstruction under sink.	Adjust counterweight position; clear any obstructions.

Problem	Possible Cause	Solution
Water Temperature Issues	Incorrect hot/cold supply line connection; water heater issues.	Verify supply line connections; check water heater settings.

SPECIFICATIONS

Feature	Detail
Brand	Franke
Model Name	Atlas Neo
Item Model Number	ATL-PO-304
