QDDJYMY ASW-F110AP

QDDJYMY Replacement Lint Filter for SANYO ASW-F110AP Washing Machine Instruction Manual

Introduction

This manual provides instructions for the installation, maintenance, and specifications of the QDDJYMY replacement lint filter designed for SANYO ASW-F110AP washing machines. This filter is a non-original aftermarket part intended to replace the existing lint filter in compatible washing machine models.

Setup and Installation

Before installing the new lint filter, ensure your washing machine is turned off and unplugged from the power source for

safety. Locate the existing lint filter compartment in your SANYO ASW-F110AP washing machine.

1. **Remove the Old Filter:** Carefully open the lint filter compartment and remove the old filter. Dispose of the old filter responsibly.
2. **Inspect the Compartment:** Clean any debris or lint from the filter compartment to ensure a proper fit for the new filter.
3. **Verify Compatibility:** Compare the dimensions and appearance of the new QDDJYMY filter with your original filter. The replacement filter measures approximately 230mm x 217mm x 40mm. Ensure the new filter matches the original in shape and size for correct operation.

Image: Diagram illustrating the dimensions of the replacement lint filter (230mm x 217mm x 40mm).

4. **Insert the New Filter:** Gently slide the new QDDJYMY lint filter into the designated compartment until it clicks securely into place. Ensure it is fully seated and there are no gaps.
5. **Close Compartment:** Close the lint filter compartment door or cover.

After installation, you may plug in and power on your washing machine.

Operating Instructions

The lint filter operates passively during the washing cycle. Its primary function is to capture lint, debris, and small particles from the wash water, preventing them from redepositing onto your clothes or clogging the washing machine's drainage system. No specific user interaction is required during the washing cycle for the filter to function.

Maintenance

Regular maintenance of the lint filter is crucial for optimal washing machine performance and to ensure effective lint removal.

- **Regular Cleaning:** It is recommended to clean the lint filter after every few wash cycles, or at least once a month, depending on usage. To clean, remove the filter as described in the "Setup and Installation" section. Rinse the filter under running water to remove accumulated lint and debris. You may use a soft brush to dislodge stubborn particles.

- **Drying:** Allow the filter to air dry completely before reinserting it into the washing machine.
- **Replacement Cycle:** The lint filter should be replaced every 6 months to 1 year, or sooner if you notice signs of wear, damage, or reduced effectiveness in lint collection. A worn filter may not adequately capture lint, leading to lint remaining on clothes after washing.

Troubleshooting

Problem	Possible Cause	Solution
Lint on clothes after washing	Filter is clogged, damaged, or incorrectly installed.	Clean the filter thoroughly. If damaged, replace it. Ensure it is correctly seated in its compartment.
Filter does not fit into compartment	Incorrect filter model or debris in compartment.	Verify the filter dimensions against your original filter. Clean the compartment of any obstructions.

Problem	Possible Cause	Solution
Water drainage issues	Severely clogged filter contributing to drainage problems.	Clean or replace the filter. If the problem persists, consult your washing machine's manual for further troubleshooting or contact a service technician.

Specifications

Product Name: Replacement Washing Machine Lint Filter

Applicable Model: SANYO ASW-F110AP

Dimensions (Approximate): 230mm x 217mm x 40mm (9.06 x 8.54 x 1.57 inches)

Material: Plastic

Color: White

Package Contents: 2 x Washing Machine Lint Filter

Part Number: 722704449441

Warranty and Support

Information regarding specific warranty terms for this QDDJYMY replacement part is not provided in the product details. For any support inquiries or questions regarding this product, please refer to the retailer or manufacturer's customer service channels where the item was purchased.
