3. PRODUCT FEATURES

- **Ambient Noise Canceling:** Large earmuffs provide passive noise reduction for an immersive audio experience.
- **High Quality Speakers:** Equipped with 40mm drivers delivering detailed high, medium, and low frequencies.
- **High Sensitivity Microphone:** Flexible 360° rotating microphone designed to capture voice clearly while reducing ambient noise.
- **Ergonomic Design:** Features cozy protein leather ear cushions, a self-adjusting head beam, and a skin-friendly, lightweight construction for extended comfort.
- **Detachable Cat Ears:** The headset includes a pair of removable gel cat ears for customizable aesthetics.
- **In-line Control:** A full-function controller on the cable allows for convenient volume adjustment and microphone muting.

STEREO SURROUND SOUND

Come with immersive audio with wide range,
powerful bass and accurate sound.

4. SETUP GUIDE

1. **Unpacking:** Carefully remove the headset and all accessories from the packaging.
2. **Attaching Cat Ears (Optional):** If desired, gently attach the gel cat ears to the top headband of the headset. They are designed to slide on and off easily.
3. **Connecting to Device:**
 - For devices with a single 3.5mm audio jack (e.g., PS4, Xbox One controller, Nintendo Switch, mobile phones, laptops with combined audio jack): Plug the headset's 3.5mm jack directly into your device's audio port.
 - For devices with separate audio and microphone jacks (e.g., PC desktops): Use the included splitter cable. Connect the headset's 3.5mm jack to the female end of the splitter. Then, plug the pink connector of the splitter into your device's microphone input and the green connector into your device's audio output.

4. **Adjusting Fit:** Place the headset on your head. The self-adjusting head beam will automatically conform to your head size for a comfortable fit.
5. **Positioning Microphone:** Adjust the flexible microphone boom to a comfortable position near your mouth for optimal voice capture.

5. OPERATION

The SOMIC G951s headset features an in-line control box for easy management of audio and microphone functions.

- **Volume Control:** Locate the volume wheel on the in-line control box. Rotate the wheel upwards to increase volume and downwards to decrease volume.
- **Microphone Mute:** Locate the mute switch on the in-line control box. Slide the switch to mute or unmute the microphone. Ensure the switch is in the 'unmuted' position for your voice to be transmitted.

6. COMPATIBILITY

The SOMIC G951s headset is designed for broad compatibility with various gaming and communication devices:

- Xbox One
- Nintendo Switch
- PS4
- PC (desktop and laptop)
- iPad
- iPhone
- Other mobile phones with a 3.5mm jack

MULTI-PLATFORM COMPATIBILITY

PC

PS4/PS5

Xbox One

Switch

Smartphone

7. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your SOMIC G951s headset, follow these care guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the headset. For ear cushions, a slightly damp cloth can be used, but ensure they are completely dry before use. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the headset.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable. The cable is designed to be tangle-free, but proper handling will prevent damage.
- **Detachable Cat Ears:** When removing or attaching the cat ears, do so gently to avoid damaging the headset or the ears themselves.
- **Liquid Exposure:** The headset is not water-resistant. Avoid exposure to liquids to prevent internal damage.

8. TROUBLESHOOTING

If you encounter issues with your SOMIC G951s headset, refer to the following common solutions:

Problem	Possible Cause	Solution
No sound from headset	Volume too low; incorrect connection; device audio settings.	Increase volume using the in-line controller and device settings. Ensure the 3.5mm jack is fully inserted. If using a PC, verify the splitter cable is correctly connected to the audio output jack. Check your device's audio output settings to ensure the headset is selected.
Microphone not working	Microphone muted; incorrect connection; device microphone settings.	Check the in-line mute switch and ensure it is in the 'unmuted' position. If using a PC, verify the splitter cable is correctly connected to the microphone input jack. Check your device's microphone input settings to ensure the headset microphone is selected and not muted in software.
Sound is distorted or unclear	Loose connection; audio source issue; volume too high.	Ensure the 3.5mm jack is securely connected. Test with another audio source or device. Reduce the volume to see if distortion improves.
Headset is uncomfortable after long use	Initial adjustment period; individual fit.	The headset features a self-adjusting head beam and soft ear cushions for comfort. Allow for an adjustment period. Ensure the headset is positioned correctly on your head. Take short breaks during extended use.

If the problem persists after trying these solutions, please contact SOMIC customer support.

9. TECHNICAL SPECIFICATIONS

Specification	Detail
Model Name	G951S
Item Model Number	SC-G951S-PINK
Connectivity Technology	Wired (3.5mm Jack)
Audio Driver Size	40 Millimeters

Specification	Detail
Frequency Range	20Hz-22kHz
Noise Control	Sound Isolation
Microphone	Included, Noise Cancellation, Flexible 360° rotating
Control Type	Wired in-line controller (Volume, Mic Mute)
