GLOBE ELECTRIC 89763

GLOBE ELECTRIC 89763 LED Color Changing Night Light User Manual

Model: 89763

PRODUCT OVERVIEW

The GLOBE ELECTRIC 89763 LED Color Changing Night Light is designed to provide a soft, color-changing illumination, ideal for bedrooms and other indoor spaces. Its automatic color transition creates a soothing ambiance.

SAFETY INFORMATION

- Read all instructions before use.
- For indoor use only.
- Do not expose to water or excessive moisture.
- Do not attempt to disassemble or modify the device.
- Keep out of reach of children.
- Ensure the power outlet is easily accessible for disconnection.

SETUP

1. Unpacking:

Carefully remove the night light from its packaging. Inspect for any damage.

2. **Placement:**

Select a standard 120V AC wall outlet in the desired indoor location. Ensure the outlet is clear of obstructions.

3. **Connection:**

Plug the night light directly into the wall outlet. The device is designed for direct plug-in operation.

OPERATING INSTRUCTIONS

The GLOBE ELECTRIC 89763 LED Color Changing Night Light features automatic operation.

1. **Automatic Activation:**

The night light is equipped with a light sensor. It will automatically turn on when the ambient light in the room is low and turn off when the room is sufficiently lit.

2. **Color Changing Feature:**

Once activated, the LED will automatically cycle through a variety of colors, providing a continuous color-changing effect. There are no manual controls for color selection or mode changes.

MAINTENANCE

The GLOBE ELECTRIC 89763 LED Color Changing Night Light requires minimal maintenance.

• **Cleaning:**

Before cleaning, unplug the night light from the wall outlet. Use a soft, dry cloth to wipe the exterior surface. Do not use abrasive cleaners, solvents, or immerse the device in water.

• **Bulb Replacement:**

The LED light source is integrated and not user-replaceable. The LED is designed for long-lasting performance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Night light does not turn on.	Not plugged in securely.	Ensure the night light is firmly plugged into a working electrical outlet.
Night light does not turn on.	Room is too bright.	The light sensor detects ambient light. Ensure the room is dark enough for the night light to activate automatically.
Colors are not changing.	This model has an automatic color-changing feature.	No action required. The colors will cycle automatically. If no light is emitted, refer to "Night light does not turn on" solutions.
