4. MAINTENANCE

Proper care will ensure the longevity and clarity of your mDesign storage bin.

4.1 Cleaning Instructions

- Clean the bin with mild soap and water.
- Use a soft cloth or sponge to avoid scratching the plastic surface.
- Rinse thoroughly with clean water.
- Dry completely with a soft, lint-free cloth.

4.2 Important Care Notes

- **DO NOT** place the bin in a dishwasher, as high temperatures can cause warping or damage to the plastic.
- Avoid using abrasive cleaners or scouring pads, which can scratch the surface.

5. TROUBLESHOOTING

Here are solutions to common issues you might encounter with your storage bin.

5.1 Bins Stuck Together

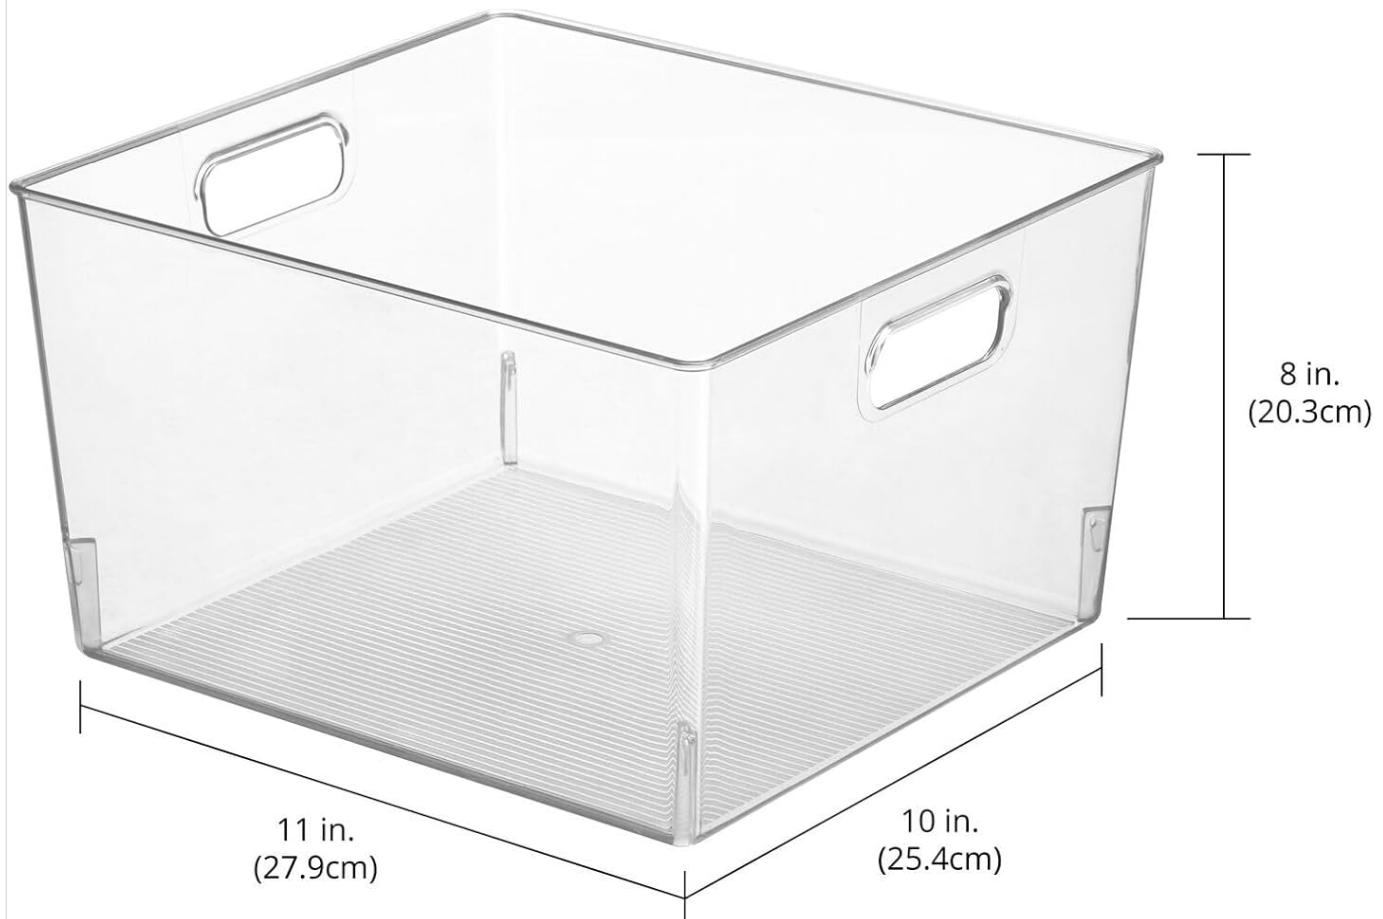

- Occasionally, multiple bins may become tightly nested during shipping.
- To separate, gently twist the bins while pulling them apart. Avoid excessive force to prevent cracking.
- If extremely stubborn, try applying a small amount of warm, soapy water to the edges where they meet, which may help reduce friction.

5.2 Items Not Fitting as Expected

- While the outer dimensions are 12" x 10" x 8" high, the internal bottom dimensions are 11.2" x 9.2" due to the tapered design.
- Always measure your specific items against the internal dimensions to ensure a proper fit, especially for flat items like scrapbook paper or large notebooks.
