# Reaper Bones USA 77534 Tombstones Instruction Manual

25mm Heroic Scale Fantasy Miniatures

## INTRODUCTION

---

The Reaper Bones USA 77534 Tombstones are a set of 25mm heroic scale fantasy miniatures designed for various tabletop gaming and hobby applications. These unpainted polymer models are ready for customization and can be integrated into dioramas, game boards, or used as standalone pieces to enhance your gaming experience.

## PRODUCT CONTENTS

---

Each package of Reaper Bones USA 77534 Tombstones contains the following:

- **7 Miniature Tombstones:** A variety of unique tombstone designs.
- **Integral Bases:** Each miniature is cast with its own base for stability.
- **Polymer Material:** Made from durable, unpainted Bones polymer.

# Tombstones

# 77534

May require assembly

## SETUP AND ASSEMBLY

---

Your Reaper Bones Tombstones are supplied unpainted, and some minor assembly may be required depending on the specific miniature designs. The Bones polymer material is highly compatible with cyanoacrylate adhesives (commonly known as super glue) for any necessary assembly.

### Assembly Steps:

1. Carefully remove miniatures from their packaging.
2. Identify any parts that need to be joined.
3. Apply a small amount of cyanoacrylate adhesive to the joining surfaces.
4. Press the parts together firmly and hold until the glue sets.

## PAINTING INSTRUCTIONS

---

Reaper Bones miniatures are designed to be painted directly out of the box without the need for priming. The polymer material readily accepts paint, making them ideal for hobbyists.

### Recommended Painting Process:

- **Clean Miniatures:** Before painting, gently wash the miniatures with mild soap and water to remove any mold release agents or dust. Rinse thoroughly and allow to air dry completely.
- **Apply Paint:** Use acrylic paints, such as Reaper's Master Series Paints, which are formulated to adhere well to the Bones material. Apply thin, even coats to build up color.
- **Durability:** The paint adheres strongly to the Bones material, providing a durable finish suitable for regular tabletop use.

## MAINTENANCE AND STRAIGHTENING PARTS

---

Due to the flexible nature of the Bones polymer material, thinner parts may occasionally appear slightly bent. This is normal and can be easily corrected.

### Straightening Bent Parts:

1. **Prepare Hot Water:** Heat water to boiling or near-boiling temperature.
2. **Immerse Miniature:** Hold the affected miniature with tongs or place it in a colander. Carefully dip the bent part into the hot water for at least one to two minutes.
3. **Reposition:** Remove the miniature from the hot water. While the material is still warm and pliable, gently reposition the bent part to its desired straight shape.
4. **Set Shape:** Immediately immerse the miniature into a bowl of ice water for at least one minute. This will rapidly cool the polymer and set it in the new position.

## SAFETY INFORMATION

---

Please observe the following safety guidelines when using this product:

- **Hot Water Caution:** Exercise extreme caution when handling boiling or near-boiling water. The Bones material will become hot when immersed. Use tongs or appropriate protective gear.
- **Age Recommendation:** This product is recommended for individuals aged 14 years and up. It is not suitable for young children due to small parts and potential choking hazards.
- **Adhesive Safety:** If using cyanoacrylate adhesives, follow the manufacturer's safety instructions, including proper ventilation and avoiding skin contact.

## SPECIFICATIONS

| <b>Manufacturer</b>                 | Reaper Miniatures    |
| <b>Manufacturer Recommended Age</b> | 14 years and up      |

## TROUBLESHOOTING

---

- **Bent Miniatures:** If any miniature parts appear bent, refer to the 'Maintenance and Straightening Parts' section for detailed instructions on how to correct their shape using hot and cold water.
- **Paint Adhesion Issues:** If paint does not adhere properly, ensure the miniatures are clean and free of any residue. While priming is generally not required for Bones material, a very light coat of primer designed for plastics can be used if adhesion issues persist.

## WARRANTY AND SUPPORT

---

Specific warranty information for this product is not provided in this manual. For further assistance, product inquiries, or to report any issues, please contact Reaper Miniatures customer support directly through their official website or authorized retailers. Please have your product model number (77534) available when contacting support.
