# Canpol Babies Brush and Comb Instruction Manual - Model CB07406A

## 1. INTRODUCTION

---

This instruction manual provides essential information for the safe and effective use of your Canpol Babies Brush and Comb set, Model CB07406A. Designed for newborns and infants, this set includes a brush with soft natural bristles and a comb, ideal for gentle hair care.

Image 1: The Canpol Babies Brush and Comb set, featuring a brush with soft natural bristles and a comb, presented in a blue color suitable for newborns.

## 2. SETUP AND FIRST USE

---

Before first use, it is important to prepare the brush and comb for your baby's hygiene.

1. **Unpack:** Carefully remove the brush and comb from their packaging.
2. **Inspect:** Check both items for any signs of damage or manufacturing defects. Do not use if damaged.
3. **Clean:** Wash the brush and comb thoroughly with warm water and a mild baby-safe soap. Rinse completely to remove all soap residue.
4. **Dry:** Allow the brush and comb to air dry completely before storage or use. Ensure the natural bristles are fully dry to prevent mildew.

## 3. OPERATING INSTRUCTIONS

---

Follow these steps for gentle and effective grooming of your baby's hair.

### Using the Brush:

- Hold the brush comfortably in your hand.
- Gently brush your baby's hair from the scalp outwards. The soft natural bristles are designed to be delicate on your baby's sensitive scalp and fine hair.
- Use light, circular motions to stimulate the scalp and distribute natural oils.

### Using the Comb:

- Hold the comb firmly.
- Carefully comb through your baby's hair, starting from the ends and working your way up to the scalp, to gently detangle.
- Be extra gentle around the fontanelles (soft spots) on your baby's head.

**Important:** Always use these tools with extreme gentleness to avoid irritating your baby's scalp or pulling their hair.

## 4. MAINTENANCE AND CARE

---

Proper cleaning and storage will extend the life of your brush and comb set.

- **Regular Cleaning:** After each use, remove any loose hair from the brush bristles and comb teeth.
- **Deep Cleaning:** Periodically, wash the brush and comb with warm water and a mild baby-safe soap. Pay special attention to the bristles and teeth.
- **Rinsing:** Rinse thoroughly under running water to ensure no soap residue remains.
- **Drying:** Shake off excess water and allow to air dry completely in a well-ventilated area. Avoid direct sunlight or heat, which can damage the natural bristles.
- **Storage:** Store the brush and comb in a clean, dry place away from dust and direct sunlight.

**Do not:** Boil, sterilize in a microwave, or use harsh chemicals to clean the brush and comb, as this can damage the materials, especially the natural bristles.

## 5. TROUBLESHOOTING

---

Here are solutions to common issues you might encounter:

- **Bristles becoming stiff or matted:** This can happen if the brush is not dried properly or if hair products accumulate. Ensure thorough rinsing and air drying after cleaning. Gently comb through the bristles with a fine-tooth comb to separate them.
- **Hair getting stuck in the comb:** Regularly clean the comb by removing trapped hair. If hair is consistently getting stuck, ensure you are combing gently and not forcing through tangles.
- **Unpleasant odor:** If the brush develops an odor, it might be due to incomplete drying or accumulation of residue. Perform a deep clean as described in the Maintenance section and ensure it dries completely in a well-ventilated area.

## 6. SPECIFICATIONS

---

<b>Model Number:</b>	CB07406A
<b>Target Gender:</b>	Unisex
<b>Item Weight:</b>	2.11 ounces
<b>Package Dimensions:</b>	8.62 x 4.65 x 0.94 inches
<b>Batteries Required:</b>	No

## 7. WARRANTY AND SUPPORT

---

For information regarding warranty coverage or product support, please refer to the packaging or contact Canpol Babies customer service directly. Keep your proof of purchase for any warranty claims.
