

Ralbay A065-83cm-Heike-3000K

Ralbay 30W 32.6-inch Black Warm White LED Bathroom Vanity Light Fixture Instruction Manual

Model: A065-83cm-Heike-3000K

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Ralbay 30W 32.6-inch Black Warm White LED Bathroom Vanity Light Fixture. Please read these instructions carefully before installation and retain them for future reference. This fixture is designed for indoor use in bathrooms, dressing rooms, and other suitable areas, offering a modern aesthetic and efficient warm white illumination.

IMPORTANT SAFETY INFORMATION

- **WARNING:** Always cut off power at the fuse or circuit breaker before installation, cleaning, or servicing.
- This product is designed for 110-260V AC power. Ensure correct wiring connections (N, L, and Earth).
- The fixture is IP44 waterproof, suitable for damp locations like bathrooms, but not for direct water immersion.
- Installation should be performed by a qualified electrician or a person with sufficient knowledge of electrical wiring.
- Do not attempt to modify the fixture. Any modifications may void the warranty and pose safety risks.
- Keep packaging materials away from children.

PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- Ralbay LED Vanity Light Fixture (1 unit)
- Mounting Bracket (1 unit)
- M4 Screws (quantity as needed for installation)
- Drop-in Anchors (quantity as needed for installation)
- Wire Connectors (quantity as needed for installation)
- Instruction Manual (this document)

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Ralbay
Model Number	A065-83cm-Heike-3000K
Dimensions	32.6"L x 1.42"W x 5.5"H (83cm L x 3.6cm W x 14cm H)
Power	30 Watts
Voltage	110-260V
Light Source	Integrated LED
Color Temperature	3000K (Warm White)
Brightness	3900 Lumens
Material	Aluminum, Acrylic Shade
Finish	Black
Water Resistance	IP44 (Water Resistant)
Installation Type	Wall Mount
Special Features	Instant On, Not Dimmable
Lifespan	Up to 50,000 hours

SETUP AND INSTALLATION

Before beginning, ensure the power is turned off at the circuit breaker. This fixture is designed for direct wiring to a standard US junction box.

1. **Prepare the Mounting Bracket:**
- Drill two holes into the wall at the desired mounting location. Insert drop-in anchors into the drilled holes. Secure the mounting bracket to the wall using the provided M4 screws.

WARNING! CUT OFF POWER AT FUSE OR CIRCUIT BREAKER

1. Drilling 2 holes and mounting drop-in anchor. Fixing the mounting bracket with M4 screws

A

B

2. Connection to 110/220V ac power. Pay attention to side of N, L & to earth should be correct.

C

3. Finally, fix the lamp to bracket with supplied screws.

D

Your installation is now complete. Return power to the outlet box and test the light fixture.

Image: Step-by-step diagram for mounting the bracket (Part A of diagram).

2. Wire Connections:

Connect the fixture's wires to the reserved house wiring. Ensure the Neutral (N), Live (L), and Earth (Ground) wires are correctly matched and secured with wire connectors. This fixture is compatible with 110-220V AC power.

4. Final Test:

Once the installation is complete, return power to the circuit breaker and test the light fixture to ensure it functions correctly.

OPERATING INSTRUCTIONS

The Ralbay LED Vanity Light Fixture is designed for simple operation via your existing wall switch.

- **Turning On/Off:** Use the standard wall switch connected to the fixture to turn the light on or off.
- **Light Output:** The fixture provides a consistent 3000K warm white light at 3900 lumens. It is **not dimmable**.
- **Instant On:** The LED light provides instant illumination without any warm-up time.

MAINTENANCE

To ensure the longevity and optimal performance of your light fixture, follow these maintenance guidelines:

- **Cleaning:** Before cleaning, ensure the power is turned off. Wipe the fixture with a soft, dry, or slightly damp cloth. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish or acrylic shade.

- **Bulb Replacement:** This fixture uses integrated LED technology and does not require bulb replacement. The LEDs are designed to last up to 50,000 hours.
- **Inspection:** Periodically inspect the wiring and mounting for any signs of wear or looseness. If any issues are found, consult a qualified electrician.

TROUBLESHOOTING

If you encounter issues with your light fixture, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture; loose wiring; faulty wall switch.	Check the circuit breaker and wall switch. Ensure all wire connections are secure. If the problem persists, consult a qualified electrician.
Light flickers.	Loose wiring; incompatible dimmer switch (this fixture is not dimmable).	Check wire connections. Ensure no dimmer switch is being used with this non-dimmable fixture.
Light is too dim or too bright.	This fixture is not dimmable and provides a fixed brightness.	No adjustment is possible for brightness. Ensure the fixture's specifications meet your lighting needs before purchase.
