### **What's in the Box:**

- Instruction Manual
- Building Bricks
- Pins
- Pin Driver
- Quick Guide

## **2. SETUP AND ASSEMBLY**

---

Assembly of your JEKCA Cat 12S-M02 sculpture requires careful attention to the provided step-by-step manual. The unique Interlocking Brick-through System ensures a robust and stable final model.

### **Understanding the Interlocking System:**

JEKCA bricks utilize a patented interlocking system where pins are inserted through the bricks to secure them together. This method creates a strong bond, making the sculpture less prone to accidental disassembly.

Image 2.1: Illustration of the JEKCA Patented Interlocking Brick-through Technology.

### **Assembly Steps:**

1. **Prepare Your Workspace:** Ensure you have a clean, well-lit area with enough space to lay out your bricks and follow the instructions.
2. **Follow the Manual:** Refer to the detailed step-by-step assembly manual included in your package. Each step will guide you on which bricks to use and where to place them.
3. **Insert Pins:** After placing bricks as indicated, use the provided pins to secure them. Insert the pin through the designated holes in the bricks.
4. **Lock Pins with Pin Driver:** Once a pin is inserted, use the Pin Driver tool to turn the pin 90 degrees. This action locks the bricks firmly in place, creating a stable connection.

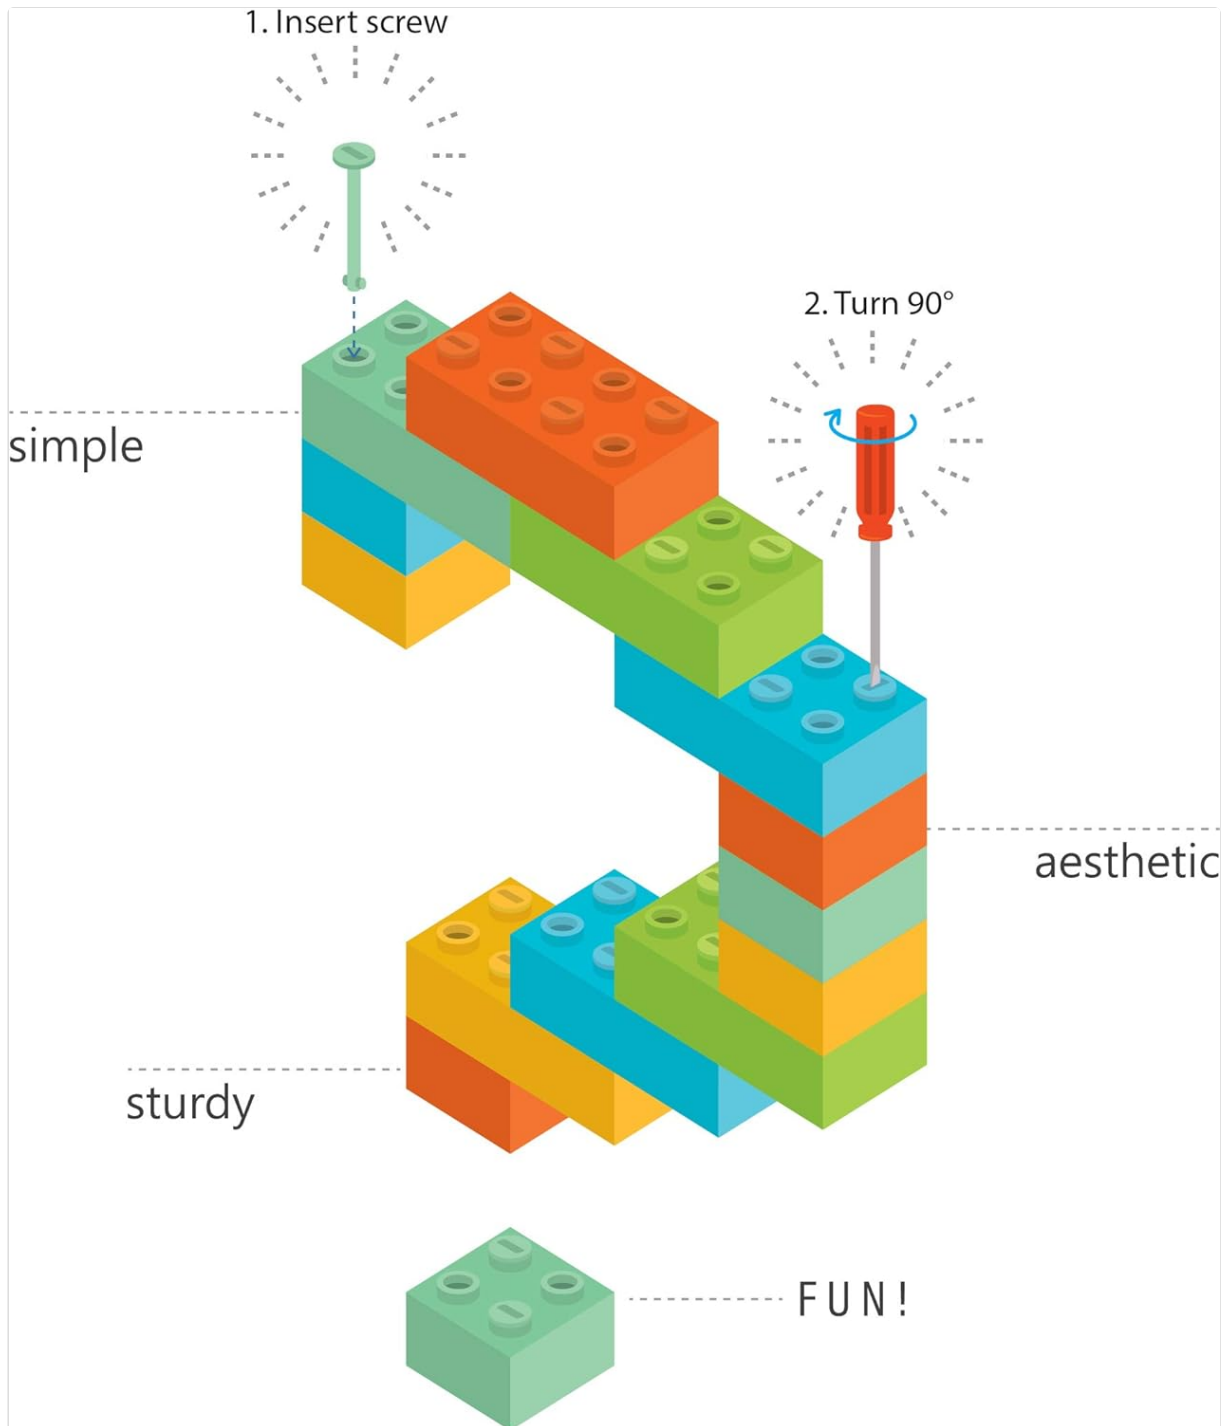

Image 2.2: Step-by-step guide for connecting JEKCA bricks using pins and the pin driver.

Image 2.3: Detailed illustration of inserting and locking a pin with a 90-degree turn.

### Assembly Tips:

- Sort bricks by color and size before starting to streamline the process.
- Double-check each step against the manual to ensure correct placement and orientation.
- Apply firm but gentle pressure when inserting pins and turning with the Pin Driver.

### 3. OPERATING AND DISPLAY

---

Once assembled, your JEKCA Cat 12S-M02 sculpture is ready for display. The interlocking system ensures the model is sturdy and maintains its form, making it suitable for various display environments.

#### Display Recommendations:

- Place the sculpture on a flat, stable surface to prevent accidental falls.
- Avoid direct sunlight or extreme temperatures to preserve the color and integrity of the plastic bricks.
- Keep out of reach of small children and pets to prevent damage or choking hazards due to small parts.

### 4. MAINTENANCE

---

To keep your JEKCA sculpture looking its best, occasional cleaning is recommended.

#### Cleaning Instructions:

- Use a soft, dry cloth or a soft-bristled brush to gently remove dust.
- For more stubborn dirt, lightly dampen a cloth with water and mild soap, then gently wipe the affected areas. Avoid harsh chemicals or abrasive cleaners.
- Ensure the sculpture is completely dry before returning it to display.

### 5. TROUBLESHOOTING

---

If you encounter any issues during assembly or with the finished product, refer to the following common solutions.

#### Common Issues and Solutions:

- **Bricks not fitting together:** Ensure you are using the correct bricks for the step and that they are oriented correctly. Check for any debris in the brick holes.
- **Pins not locking:** Make sure the pin is fully inserted before attempting to turn it 90 degrees with the Pin Driver. If resistance is met, do not force it; re-check brick alignment.
- **Sculpture feels unstable:** Review previous steps in the manual to ensure all pins are correctly inserted and locked. The JEKCA system is designed for sturdiness, so instability usually indicates an assembly error.
- **Missing or damaged parts:** Carefully check all packaging. If parts are genuinely missing or damaged, please contact JEKCA customer support for assistance.

### 6. SPECIFICATIONS

---

Specification	Detail
---------------	--------

Model Number	ST19CA12-M02
Product Dimensions	18.7 x 4.17 x 10.98 inches
Item Weight	2.33 pounds
Number of Pieces	Over 1460
Recommended Age	14 years and up
Manufacturer	JEKCA Limited
