2. SAFETY INFORMATION

- Exercise caution when opening the package to avoid injury from sharp objects.
- Do not exceed the maximum load capacity of 300KG (approximately 660 pounds) for the bed frame.
- Avoid jumping or concentrating weight on a single point of the bed frame, as this may cause damage.
- Be careful around movable parts during assembly and use to prevent injury.
- Ensure all connections are securely tightened before use.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Semi-Double Bed Frame (1 unit)
- Low Rebound Pillow (1 unit)
- Pillow Covers (2 units: 1 Air Cotton, 1 Cool Touch Cotton)

- Assembly Hardware (screws, bolts, Allen wrench, etc.)
- Instruction Manual (this document)

4. ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward. For best results, we recommend two people for assembly and clearing a spacious area. An Allen wrench is typically included, but additional tools may facilitate the process.

1. Unpack all components and verify against the package contents list.
2. Attach the side rails to the headboard and footboard using the provided hardware. Ensure all bolts are finger-tightened initially.
3. Install the central support beams and legs.
4. Place the steel slats onto the frame. Ensure they are evenly spaced and secured.
5. Once all parts are in place, fully tighten all bolts with the Allen wrench. Do not overtighten.
6. Attach the foot caps to the bottom of the bed legs to protect your floor.

5. OPERATING INSTRUCTIONS

5.1 Bed Frame Usage

- Place your mattress directly on the steel slat support system. A box spring is not required.
- The 18cm wide headboard shelf provides convenient storage for small items such as smartphones, tablets, glasses, watches, or books. The rear of the shelf features a fall-prevention design to keep items secure.
- Utilize the integrated 2-port power outlet on the headboard for charging electronic devices or powering small lights. The slide-type cover helps prevent dust accumulation.
- The 32cm clearance under the bed frame offers ample space for storage boxes, clothing, or bedding, helping to keep your room tidy. This height also allows for easy cleaning, including access for robotic vacuum cleaners.

5.2 Pillow Usage

- The low rebound memory foam pillow is designed for comfort and support.
- Choose between the Air Cotton cover for a soft, comfortable feel or the Cool Touch Cotton cover for a cooler sensation, depending on your preference.

6. MAINTENANCE

6.1 Bed Frame Care

- Wipe the steel frame and MDF board surfaces with a dry cloth to remove dust and dirt. Avoid abrasive cleaners.
- Regularly check all bolts and connections to ensure they remain tight. Retighten if necessary.
- The steel construction is rust-resistant and designed to prevent mold, offering better durability than wood in humid conditions. The mesh structure promotes airflow, effectively dissipating moisture.

▶ 耐荷重約300KG

Image 6.1: The bed frame's mesh structure ensures excellent breathability, preventing moisture buildup and supporting a load of up to 300KG.

6.2 Pillow Care

- The pillow covers are washable. Follow the care instructions on the label for best results.
- The memory foam core should not be washed. Spot clean only if necessary.

7. TROUBLESHOOTING

- **Squeaking Noises:** If the bed frame makes squeaking noises, check all bolts and connections. Tighten any loose hardware. Ensure the mattress is properly seated on the slats.
- **Loose Support Bars:** If support bars pop out of place, re-seat them firmly. Ensure the frame is on a level surface.
- **Missing Parts:** If any parts are missing upon delivery, contact VECELO customer support immediately for assistance.
- **Power Outlet Malfunction:** If the 2-port outlet is not working, check the power connection to the wall. Ensure no debris is blocking the ports. If issues persist, discontinue use and contact support.
- **Bed Frame Instability:** Ensure the bed frame is assembled correctly and all bolts are tightened. Verify that

the floor surface is even.
