Bonnlo PDLIVDH2-1

Bonnlo 2400W 3.2HP Pet Grooming Dryer User Manual

Model: PDLIVDH2-1

1. Introduction

Thank you for purchasing the Bonnlo 2400W 3.2HP Pet Grooming Dryer. This powerful and efficient dryer is designed to quickly and effectively dry your pet's fur, making grooming easier and more convenient. Featuring stepless adjustable speed and heating functions, it is suitable for various pet sizes and coat types. Please read this manual thoroughly before operation to ensure safe and optimal use of the product.

2. Important Safety Instructions

To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when using electrical appliances. Read all instructions before using this appliance.

- **Electrical Safety:** Ensure the power supply matches the voltage specified on the dryer. Do not operate with a damaged cord or plug. Keep the power cord away from heated surfaces.
- **Water and Moisture:** Do not use this appliance near water or in wet conditions. Never immerse the dryer in water or any other liquid.
- **Supervision:** Always supervise your pet during drying. Never leave the dryer unattended while in operation.
- **Temperature Control:** Use appropriate temperature settings to avoid overheating your pet. Monitor your pet's comfort level throughout the drying process.
- **Ventilation:** Ensure the air intake and exhaust vents are clear of obstructions to prevent overheating of the motor.
- **Children and Pets:** Keep the appliance out of reach of children and pets when not in use. This appliance is not a toy.
- **Maintenance:** Unplug the dryer from the power outlet before cleaning or performing any maintenance.
- **Repairs:** Do not attempt to repair or disassemble the dryer yourself. Contact qualified service personnel for repairs.

3. Package Contents

Verify that all items listed below are included in your package:

- Bonnlo Pet Grooming Dryer Unit
- Flexible Hose
- Wide Nozzle
- Narrow Nozzle
- Round Nozzle

- Special Comb Nozzle
- User Manual (this document)

4. Product Overview

4.1 Main Components

- **Main Unit:** Houses the motor, heating element, and control panel.
- **Flexible Hose:** Connects to the main unit and allows for directed airflow.
- **Nozzles:** Four interchangeable nozzles for various drying and grooming tasks.
- **Control Panel:** Features power switch, airflow speed dial, and heating button.

Image 4.1: Overview of the dryer's main parts including the stepless adjustable speed control and heating button.

4.2 Key Features

- **Stepless Adjustable Speed:** Airflow speed can be precisely adjusted from 25 M/S to 60 M/S, providing control for different drying needs.
- **Heating Function:** A dedicated button controls the heating element, allowing for warm air drying, especially useful in colder environments.
- **Low Noise Operation:** Equipped with a noise reduction device, the dryer operates within a 50-70dB range, designed to be more comfortable for pets.
- **Four Interchangeable Nozzles:** Includes Wide, Narrow, Round, and Special Comb nozzles for versatile grooming.
- **Insulated Handle:** The hose features an insulated sleeve to protect the user's hand from heat.
- **Stable Design:** Four silicone legs prevent the dryer from moving during operation, even on wet surfaces.
- **Removable Filter:** A thickened and removable sponge filter protects the motor from dust and pet hair, ensuring longevity and easy maintenance.

Image 4.2: Description of the four included nozzles and their specific uses.

5. Setup

Follow these steps to set up your pet grooming dryer:

1. **Unpack:** Carefully remove all components from the packaging.
2. **Connect Hose:** Attach the flexible hose to the air outlet of the main dryer unit. Ensure it is securely fastened using the buckle joint for easy disassembly and installation.
3. **Select Nozzle:** Choose the appropriate nozzle for your grooming task and attach it firmly to the end of the flexible hose.
4. **Position Dryer:** Place the dryer on a stable, flat surface. The silicone legs will help prevent movement.
5. **Power Connection:** Plug the power cord into a suitable electrical outlet.

6. Operating Instructions

6.1 Powering On/Off

- To turn on the dryer, press the red 'Power' button. The dryer will start blowing air at the lowest speed setting.
- To turn off the dryer, press the 'Power' button again.

6.2 Adjusting Airflow and Temperature

- **Airflow Speed:** Rotate the 'Airflow' dial to increase or decrease the wind speed. The speed is steplessly adjustable from 25 M/S to 60 M/S.
- **Heating Function:** Press the 'Heating' button to activate the heating element. This will provide warm air. Press it again to turn off the heating function. The temperature range is between 30°C and 70°C.

6.3 Using Nozzles

- **Wide Nozzle:** Ideal for quickly drying large areas and sweeping away excess water from the entire body.
- **Narrow Nozzle:** Provides strong, concentrated airflow for drying thick hair locally or reaching specific areas.
- **Round Nozzle:** Delivers gentle wind, suitable for making hair fluffy. It is effective when the heating switch is turned on.
- **Special Comb Nozzle:** Designed for grooming and blowing simultaneously, best suited for shaping your pet's fur.

7. Maintenance

Regular maintenance ensures the longevity and optimal performance of your pet dryer.

7.1 Cleaning the Air Filter

The dryer is equipped with a thickened and removable sponge filter to prevent pet hair and dust from entering the motor. Clean the filter regularly, especially after heavy use.

1. **Unplug:** Always unplug the dryer from the power outlet before cleaning.
2. **Remove Filter Cover:** Locate the filter cover at the rear of the dryer unit. Twist or unclip it to remove.
3. **Remove Sponge Filter:** Carefully pull out the sponge filter.
4. **Clean Filter:** Wash the sponge filter with mild soap and water. Rinse thoroughly and allow it to air dry completely before reinserting.
5. **Reassemble:** Once dry, place the sponge filter back into its compartment and secure the filter cover.

Image 7.1: The thickened and removable sponge filter for easy cleaning.

7.2 General Cleaning

- Wipe the exterior of the dryer unit and hose with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Ensure all parts are completely dry before storing or next use.

8. Troubleshooting

If you encounter any issues with your Bonnlo Pet Grooming Dryer, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Dryer does not turn on.	No power supply. Power cord not plugged in. Power button not pressed.	Check power outlet. Ensure power cord is securely plugged in. Press the 'Power' button.
Weak airflow.	Air filter is clogged. Airflow dial set too low.	Clean the air filter (refer to Section 7.1). Rotate the 'Airflow' dial to increase speed.
No heat.	Heating button not activated.	Press the 'Heating' button to turn on the heating function.
Dryer overheats and shuts off.	Air intake/exhaust blocked. Motor overheating protection activated.	Unplug the dryer and allow it to cool down. Check and clear any obstructions from the air vents and filter. Clean the air filter.
Hose detaches easily.	Hose not securely attached.	Ensure the hose is fully inserted and the buckle joint is properly engaged.

If the problem persists after attempting these solutions, please contact customer support for further assistance.
