Acerbis 0023453.040

Acerbis 711 Bike Stand User Manual

Model: 0023453.040 | Brand: Acerbis

Introduction

This manual provides instructions for the safe and effective use of your Acerbis 711 Bike Stand. Please read thoroughly before operation to ensure proper handling and maintenance of the product.

Image: Acerbis 711 Bike Stand. This stand is constructed from high-resistance technopolymer and steel tubes, featuring a black anti-slip mat on top and wide, stable feet.

1. Setup

The Acerbis 711 Bike Stand is designed for stability and ease of use. Follow these steps to prepare your stand:

1. **Unpacking:** Remove all packaging materials and inspect the stand for any damage.
2. **Placement:** Position the stand on a flat, stable, and level surface. Ensure the wide feet are fully in contact with the ground for maximum stability.
3. **Anti-Slip Mat:** Verify that the anti-slip mat on the top surface is clean and free of debris to ensure a secure grip on your bike's frame.
4. **Removable Mount:** If your model includes a removable mount, ensure it is correctly positioned and secured before placing the bike on the stand.

2. Operating Instructions

To safely lift and support your motorcycle using the Acerbis 711 Bike Stand:

1. **Positioning the Stand:** Place the stand directly under the motorcycle's frame, ensuring the anti-slip mat on the stand's top surface aligns with a stable, flat area on the bike's underside.
2. **Lifting the Motorcycle:** While holding the motorcycle upright, carefully tilt it onto the stand, ensuring the bike's weight is evenly distributed on the stand's top surface. The stand is designed to support the bike at a fixed height.
3. **Stability Check:** Gently rock the motorcycle to confirm it is stable on the stand before performing any work. Ensure the bike's center of gravity is balanced over the stand.
4. **Removing the Motorcycle:** To remove the motorcycle, carefully tilt it off the stand, ensuring you maintain control of the bike's balance. Remove the stand once the bike is fully on the ground or on its kickstand.

3. Maintenance

Regular maintenance will ensure the longevity and safe operation of your bike stand:

- **Cleaning:** Wipe down the stand with a damp cloth after each use to remove dirt, oil, and debris.
- **Inspection:** Periodically check the stand for any signs of wear, damage, or loose components. Pay close attention to the structural integrity of the technopolymer and steel tubes.
- **Anti-Slip Mat:** Ensure the anti-slip mat remains intact and provides adequate grip. Replace if worn or damaged.
- **Storage:** Store the stand in a dry, clean place when not in use.

4. Troubleshooting

Problem	Possible Cause	Solution
Stand feels unstable	Uneven surface; improper bike placement; damaged feet.	Move to a level surface. Re-position the bike for even weight distribution. Inspect feet for damage.
Bike slips on stand	Worn or dirty anti-slip mat; improper bike placement.	Clean or replace anti-slip mat. Ensure bike is centered and stable.

5. Specifications

- **Model Name:** Acerbis 0023453.040

- **Brand:** Acerbis
- **Material:** High-resistance technopolymer and steel tubes
- **Color:** Blue
- **Product Dimensions:** 17.32"D x 9.45"W x 17.32"H
- **Item Weight:** 9.95 pounds
- **Maximum Load:** 529 lb.
- **Assembly Required:** No

6. Warranty & Support

For warranty information or technical support, please refer to the official Acerbis website or contact their customer service directly. Keep your purchase receipt for warranty claims.
