

Ohuhu Double Hammock Swing

Ohuhu Double Hammock Swing Instruction Manual

Model: Double Hammock Swing (ASIN: B07K8CMW55)

Brand: Ohuhu

SAFETY INFORMATION

WARNING: Maximum weight capacity 450 lbs. Securely anchor hammock to stable supports. Always use with spreader bar. Keep away from children and pets. Inspect for damage before each use.

- Ensure all hanging hardware is securely fastened and rated for the hammock's weight capacity.
- Do not exceed the maximum weight capacity of 450 lbs.
- Always use the hammock with the spreader bar installed to maintain stability and prevent accidental flipping.
- Supervise children and pets around the hammock.
- Regularly inspect the hammock fabric, ropes, and spreader bars for any signs of wear, tear, or damage. Discontinue use if damage is found.
- Avoid sharp objects near the hammock fabric.
- Do not stand in the hammock.

PRODUCT OVERVIEW

The Ohuhu Double Hammock Swing is designed for comfortable outdoor relaxation. It features a durable fabric bed, a folding bamboo spreader bar, and a detachable pillow for enhanced comfort. This hammock is suitable for two adults and has a maximum weight capacity of 450 lbs.

Curved-Bar **NEW** Design & Detachable Pillow

More comfortable
NO more flipping over

SETUP INSTRUCTIONS

Follow these steps to properly set up your Ohuhu Double Hammock Swing:

1. **Choose a Location:** Select a suitable location with two sturdy anchor points (e.g., trees, hammock stand) that are approximately 11 feet apart. Ensure the ground beneath the hammock is clear of sharp objects.
2. **Attach Hanging Hardware:** Securely attach appropriate hanging hardware (not included) to your chosen anchor points. Ensure the hardware is rated to support at least 450 lbs.
3. **Install Spreader Bar:** The hammock comes with a detachable hardwood spreader bar. Insert the ends of the spreader bar into the fabric loops at each end of the hammock.
4. **Hang the Hammock:** Connect the hammock's O-rings to your hanging hardware. Adjust the height so that the lowest point of the hammock is approximately 18 inches (45 cm) off the ground when empty.
5. **Attach Pillow:** The detachable pillow can be positioned for head or back support as desired.

6. **Verify Stability:** Before full use, gently test the hammock's stability and the security of all connections.

OPERATING INSTRUCTIONS

Using your Ohuhu Double Hammock Swing is straightforward. Always prioritize safety and comfort.

- **Entering the Hammock:** Approach the hammock from the center. Sit down slowly, allowing the fabric to conform to your body. Distribute your weight evenly.
- **Exiting the Hammock:** Shift your weight towards the center, then slowly stand up.
- **Positioning:** The hammock is designed for a flat, stable lying position due to its spreader bar. Adjust the detachable pillow for optimal head or lumbar support.
- **Multiple Users:** The hammock is designed for two people, up to a combined weight of 450 lbs. Ensure weight is distributed to maintain balance.

MAINTENANCE

Proper maintenance will extend the life of your hammock.

- **Cleaning:**

- For light cleaning, spot clean the fabric with mild soap and water.
- For deeper cleaning, the fabric can be hand-washed with mild detergent. Allow to air dry completely.
- Remove the pillow before washing the main hammock fabric.

- **Storage:**

- When not in use, especially during inclement weather or off-season, store the hammock in a dry, protected area.
- The hammock can be rolled up and placed in its carrying bag (if included) for compact storage.
- Remove the spreader bar and pillow for easier storage.

- **Inspection:** Regularly check ropes, fabric, and spreader bars for any signs of wear, fraying, rust, or damage. Address any issues promptly to ensure safety.

TROUBLESHOOTING

Hammock feels unstable or tips easily:

- Ensure the hammock is hung evenly and the anchor points are at a similar height.
- Verify the spreader bar is correctly installed at both ends.
- Check that the weight limit (450 lbs) is not exceeded.
- Ensure the hammock is not twisted.

Fabric shows signs of wear or tearing:

- Inspect the specific area for damage. If the tear is significant, discontinue use for safety.
- Ensure the hammock is not exposed to sharp objects or excessive friction.
- Consider replacing the hammock if the fabric integrity is compromised.

Spreader bar appears damaged or molded:

- If the bamboo spreader bar shows signs of mold, clean it thoroughly and ensure it is stored in a dry environment.
- If the spreader bar is cracked or broken, it must be replaced before using the hammock.
